Try My New Candy It is different-very different. So far as I know it is the first perfect, successful combination of the best cream filling and Swiss Style Milk Chocolate coating. I am advertising it widely because it is new-it is different-and because it has made an immediate hit wherever it has been introduced. I call it Johnston's Swiss Style Milk Chocolate Creams I receive hundreds of letters daily in response to my magazine advertising. Here are some extracts: "I found your chocolates excellent. Send me two boxes." "Your chocolates are great. My dealer sells—, but I want another box of Johnston's." "Your sample received. I never ale better." "The best I have ever eaten. Enclosed find—etc." CA STEELS The difference is this-full, rich flavor-never too sweet. The coating just hard enough-never sticky. The cream filling firm, but melting-never too soft. The whole a delicious blending of flavors that captivates the palate. A trial convinces. Get a Generous Sample Box From Your Dealer Por only 10 cents you can get our generous size introductory package from your dealer. An unequaled opportunity to try this delictous confection at small cost. Ask him today. Each package is an exact reproduction in miniature of the exquisite gold box, tied with crimson satin ribbon, rold regularly at 30, 40, 60 and 80 cents. Try a sample box today. At your dealer's, Johnston, Milwaukee, Wis.

MEAT PRICES ON THE RISE

Advance as Result of Beef Cattle, Which Cost More.

PORK TAKES CUE AND ALSO SOARS

One Omaha Butcher Makes the Cheerful Prediction that the Coming Year Will Be Hard One for Meat Enters.

Prices of meat were advanced Tuesday by the wholesalers and the retailers responded quickly by adding on the average

of 2 cents per pound to all classes of beef, except rough boils. This is ascribed to the advance in beef cattle. Pork loins also advanced and are quoted 11/2 cents higher by the wholesalers. On the basis of this retailers will advance prices

within the next two days and "pork chops" will be selling for 12 cents by Saturday. vance, some dealers bought all they could summer to equalize the meat prices." keep in their coolers and the price will remain at 40 cents per pound at many markets, while at others the retailers will be paying 9 cents for pork loins and cutting page of The Bee said; them up for 10 cents. But the dealers who do not feel they can afford to cut up meat for less than I cent per pound will be com-

pelled to push up the price. Mutten has followed beef and pork, and the price was pushed up 11/2 cents by the wholesalers Tuesday.

The prices of beef cuts are now: Rib roasts, 15 cents; pot roasts, 11 cents; rough

cents; round steak, 12 to 14½ cents; porter when it was decided to push prices still Looks for Hard Summer.

Speaking of the meat situation, a retailer said: "I look for one of the hardest summers we have ever had in the meat business. I believe meats will all be high, especially beef, as good stuff is high and exceedingly hard to get.

"We will have some hard times telling our customers the reasons for the new prices, but the only reason is the advance in price of stock and the consequent boost of prices by the packers,

"There are some cuts of beef which will never stand much of an advance and we have to make up by charging more for the best cuts. No one can advance the price of shanks and soup bones, flanks and rough boils. The result is that the better cuts will bear the advance. Some dealers will have a run on porterhouse and the particular cut will be in big demand. Then the porterhouse stands the advance. Again the chucks and rounds will be hard to sell in some markets and there will be no advance on that class of meat. The dealers Anticipating that pork loins would ad- are to have a hard time during the coming

First Case a Rash Which Itched and Stung-Threatened Ten Years Later With Blood-Poison in Leg -But Both Times the Sufferer's

RELIANCE IN CUTICURA PROVED WELL-FOUNDED

"About twelve or fifteen years ago, while living in West Virginia, I had a breaking-out, and it itched and stung so badly that I could not have any peace because of it. I saw three doctors and they did not agree on what it was, so one of them gave me something that he called medicine, but I called it soda water. I might just as well have washed in rain-water. Then I got some Cuticura Soap, Cuticura Ointment, and Cuticura Resolvent and began to get better right away. They cured me and I have not been bothered with the itching since, to amount to anything. I have not been bothered with the itching since, to amount to anything. About two years ago I had la grippe and pneumonia which left me with a pain in my side. Treatment ran it into my leg, which then swelled and began to break out. It got in pretty bad shape, so I went to a doctor. He was afraid it would turn to blood-poison, I used his medicine but it did no good. So I sent for another set of the Cuticura Remedica. I used them three times and cured the breaking-out on my leg. Now I won't be without Cuticura. J. F. Hennen, R. F. D. 3, Milan, Mo., May 13, 1907."

MOHLER LIKES THE RULING

Restore Confidence.

TO RAILROAD INTERESTS

Action of Sapreme Court Simply An-

other Assurance Legislatures Cannot Enforce Arbitrary Laws

Without Court Review.

A. L. Mohler, vice president and general manager of the Union Pacific railroad. believes the decision of the United States supreme court in the Minnesota railroad rate case will have a widespread effect and will do much toward restoring confidence in the railroads and their securities.

"While railroad rate legislation may be thin the province of the individual states another assurance that legislatures cannot and passenger do and passenger do solidated. H. O. solidated. the decision of the federal court is simply Marguerite, who have been spending the inimical to any great industry without review by the higher courts. The railroads are lawabiding and their rights should be Mr. and Mrs. Isaac W. Carpenter, who safeguarded the same as those of individ-

Mr. Mohler could not say what effect the decision would have on the Union Pacific Grartme action would be taken until he consulted his counsel. There are several Nebraska cases now pending in the courts against railroads, one of which is in many respects identical with the Minnesota law. Governor Sheldon is in Washington at present in connection with a Nebraska rate case. Out of Accident Business.

"It seems as though we have retired from the collision business and damage to equipment by broken track and broken axles and broken wheels and burning cars and other accidents in transit," said A. L. Mohler, vice president and general manager of the Union Pacific, Tuesday morning, upon his return from a two weeks' trip over the west. He went west with Julius Kruttschnitt, director of maintenance and ways of the Harriman lines, ten days ago. "Reports show that for the month of January the Union Pacific road had approximately 1,500,000 engine miles and cost for total train accidents was \$1,088. "This simply shows that the effect of the block signal system on the Union Pacific is beginning to tell. The Union Pa- the physicians could do was done. cific has recently spent \$2,000,000 in the installation of safety appliances, to the end that the list of accidents might be reduced and that the public might travel in greater safety. Where tracks converge or cross at grade the interlocking system is used, with an operator to handle it. When one track is cleared the others are blocked. It is impossible for an operator to give two trains the right-of-way at the same time. Hand power and a pneumatic system have both given way to electricity, by which the signals are operated. The current is also used for lighting the signal lamps. Why They Refused Italians,

Mr. Mohler said he did not like the manner in which his road had been criticised for not permitting the Italian car in the New York-Paris race to use the right-ofway of the road.

"When the drivers of the American car asked for permission to use our tracks we thought the ground was frozen and that it would not injure the track, but when we found that the ballast had thawed out we had to put a stop to it," said Mr. Mohler "The ground had thawed and the American car disarranged the ballast drainage system materially for a number of miles, so we simply decided not to permit any more cars to use the tracks and did not do it in any way to discriminate against the foreign cars. We gave them what help we could. Mr. McKeen had the men at the Omaha shops work one Sunday to make some new springs for the Italian car and some needed supplies for the French car were sent west on the fast mail train, something out of the ordinary. We concluded the injury to the track was too expensive a business, even in a matter of

The best "Beauty Doctor" in the world is a good, pure food. Rich, greasy or poorly cooked foods will ruin the finest complexion a woman was ever blessed with and all the cosmetics and treatments she may give it will only cover up, not remove the blemishes.

The treatment must come from the inside, for the pores of the skin must have the proper food to be healthy.

A lady living in the West of London, England, writes as follows: "Grape-Nuts food has done me a world of good. Some years ago I fell a wictim of a serious illness, which did great damage to my constitution. I gave up hope of ever recovering my natural good health until last winter, when tempted to try Grape-Nuts more from a liking for that kind of food than from any hope of it doing me good.

'I found to my surprise after trial of a week or two that I was getting quite plump, my voice much stronger, and my complexion was becoming beautifully clear. In fact, since eating Grape-Nuts my friends say I look 10 years younger, and I believe them, as my glass tells me it is true. Name given by the Postum Co., Battle Creek, Mich.

The Clock That Had No Hands

By HERBERT KAUFMAN.

Newspaper advertising is to business what hands are to a clock. It is a direct and certain means of letting the public know what you are doing. In these days of intense and vigilant com- I am perfectly satisfied." mercial contests a dealer who does not advertise is like a clock that has no hands. He has no way of telling folks what he's at. He can no more expect a twentieth century success with nine- be manifest. The statue, he says, is someteenth century methods than he can wear the same sized shoes thing over nine feet in height, but when as a man which fitted him in his boyhood.

His father and mother were content with neighborhood shops and bobtail cars. They were the best to be had in their day. They any statement, though he viewed the statue were accustomed to seek the merchant instead of being sought by him. They dealt "around the corner" in one-story shops which it, the anniversary of the assassination of depended upon the immediate friends of the dealer for support. the emand As long as the city was made up of such neighbrhood units, each with a full outfit of butchers, bakers, clothiers, jewelers, furniture WATER IN SAFETY LIMIT dealers and shoe-makers, it was possible for the proprietors of Just Gets Under the Wire, According these little establishments to exist and make a profit.

But as population increased, transit facilities spread, sections became specialized, block after block was entirely devoted to stores, and mile after mile became solely occupied by homes.

The purchaser and the storekeeper grew farther and farther apart. It was necessary for the merchant to find a substitute for C. F. Crowley, gas commissioner, who made his direct personality which no longer served to draw customers to his door. He had to stretch a bond between the commercial center and the home center. Rapid transit eliminated distance limits of safety," says Dr. Crowley. "but but advertising was necessary to inform people where he was the water we drink and no water can be located and what he had to sell. It was a natural out-growth of too pure. Sixty per cent of a man is water, changed conditions—the beginning of a new era in trade which water into our systems it must be pure. no longer relied upon personal acquaintance for success.

The newspaper publishers, hitherto a gossip, a retailer of salts, make up but 40 per cent of a man's information, became a first aid to commercial advancement. The body and substance, water composes all shopkeeper, hitherto a petty tradesman, began to grow into the

dignity of a merchant.

Something more wonderful than the fabled philosopher's stone came into being, and the beginning of fortunes which would pass the hundred million mark and place tradesmen's daughters upon oriental thrones grew from this new force. Within fifty years it has become as vital to industry as steam to commerce.

Advertising is not a luxury nor a debatable policy. It has proven its case. Its record is traced in the skyline of the city where a hundred towering buildings stand as a lesson of reproach to the men who had the opportunity but not the foresight, and furnish a constant inspiration to the young merchant at the threshold of his career.
