DUN'S REVIEW OF TRADE

Wholesale and Jobbing Distribution Increases Slightly.

Factories Prepare to Reopen

Commercial Situation in South and West is Encouraging—Collections Still Slow at Many Points.

NEW YORK, March 27.—R. G. Dun & Co.'s weekly review of trade tomorrow will say:

Trade in spring goods has made further progress and the conservative buying by dealers in preparing for current distribution is now providing a good supplementary demand from wholesale and jobbing houses. Unusually advanced weather in many sections stimulates business and agricultural work is making an early start.

In the leading industries there is evidence of gradual increase in contracts and plans preparing for greater activity on April 1, while proposed reductions in wages have produced no threat of strikes. The best news of the week as to manufacturing conditions comes from the leather industry, although shipments of footwear through Boston are only about two-thirds of those of the same period last year. Dispatches from the west and south are more favorable as to the general commercial situation, a few cities reporting the volume of business equal to last year's and those statements are supported by bank exchanges at these points about the same as in 1907. There is still complaint regarding mercantile collections, although improvement is noted.

Progress in the iron and steel industry continues irregular, actively increasing in the wire and plate departments, while heavy lines await revival of normal demand. The outlook is encouraging, however, because improvement in the financial situation continues. Minor details have advanced still further, influenced more by the London market than by domestic demand, though the latter shows a fair increase.

In the primary markets for textile fabrics there is more inquiry, especially for small quantities of cottons to be shipped promptly. Urgency of demand for immediate shipment indicates that stocks in distributing channels are light and goods must be secured for delivery on orders that were taken but not provided for in the expectation that lower prices would be named by producers before retailers called for

them. The decline in price of raw material has had a depressing effect on the tone of the market for cotton goods and actual improvement is therefore the more gratifying, while finished products are no cheaper. Export trade is light and competition of Manchester mills for business in China and India will be more keen this year than ever before. The market for woolen goods continues narrow and no development is expected until after Easter. Current demand is limited to small duplicate orders for quick delivery of spring goods.

Signs of improvement are seen in the New England footwear industry, although many leading manufacturers still report trade quiet. Brockton factories are receiving numerous orders for colored shoes and business in russet goods is the feature of the season. Business in belting is firm, although quotations are unchanged. There is a better feeling in the hide market, prices advancing in several instances, especially hides suitable for sole leather.

BRADSTREET'S REVIEW OF TRADE

Spirit of Conservatism Prevails in Business and Industrial Circles.

NEW YORK, March 27.—Bradstreet's tomorrow will say:

The first week of spring has seen an expansion in trade and an enlargement in many lines, especially at the west. Conservative estimates of actual needs and business in russet goods is the feature of the season. Business in belting is firm, although quotations are unchanged. There is a better feeling in the hide market, prices advancing in several instances, especially hides suitable for sole leather.

NEBRASKA FROM DAY TO DAY

Qualit and Curious Features of Life in a Rapidly Growing State.

Valuable Millinery—We know an Arapahoe woman who will wear \$500 in her Easter hat this spring. Of course, that's going some, but she can afford it. You see, a few days ago her husband paid off the \$500 mortgage on the house and as her last spring's hat made over was a trifle large, she used the mortgage for buying an Arapahoe Pioneer.

Going to the Right Place—Mrs. Tom Burke departed last evening for her home in the new pastoral home near Lincoln. Now that Tom has quit the vexations of railroading to lead the quiet, simple country life, here's hoping he will soon become as rich as Ryan, and famous, too—as good in all things, and with better politics.

—Alliance Times.

Growing Old—The old court house is crumbling and settling, the floors are wavy and uneven, and the door frames out of square. And there is not room enough in the building to provide offices for all the county officials. And the county is paying office rent that it ought not pay. And the dilapidated building is a disgrace to such a rich and prosperous county as Dawson. And the sentiment over the county is in favor of a new building. And we move that steps be immediately taken to secure one.—Dawson County Pioneer.

Several Men in One—While Clyde Brannan is busy this week moving his household effects from the house he occupied in the eastern part of town into the Newell property in the west end, Sheriff Milt Her is flourishing the razor and manipulating the scissors in his head at Frank Huber's barber shop. Milt ran a barber shop at Palmer before he was elected to office, and has not forgotten his old-time skill. He has the boys fowl now when he wields the razor, because any remembrance when the razor pulls or accidentally clips off a piece of hide constitutes resting an officer and is punishable by confinement in the Merriam county jail.—Central City Republican.

The Yellow Peril. Jaundice, malaria, biliousness—vanishes from Dr. King's New Life Pills are taken. Guaranteed. 25c. For sale by Beaton Drug Co.

Parsuit of Italian Feudists. SOUTH BEND, Ind., March 27.—As a result of a feud which had its inception in Italy, Anthony Compton and Selemon Montana were shot and probably fatally wounded here last night. Their would-be murderers have been traced to a woods five miles north of Niles, Mich. Armed officers are in pursuit.
