View.

Bright and new in every respect, "spick and span" from top to bottom, shining with light even into the brightness of a new almighty dollar, the Hotel Loyal, Sixteenth street from Capitol avenue to Davenport, is a thing of beauty and joy forever. The building is new and many of the business firms recently housed in it are new, but what is more fitting, all the fixtures of all the stores and other business firms are new, many of them having been made es-

pecially to order. Ten places of business, eight stores, a barber shop and a saloon, aside from a cafe which will be a part of the hotel, are accommodated in the new Hotel Loyal. The fronts of the several business places are uniform, the lettering on the signs is the same, and the arrangement of the illuminated signs presents a similarity, making one of the best-looking blocks in the city. With the strict adherence to uniformity throughout on the fronts, even to awnings, there is no clash in color effects and nothing to jar upon the sensibilities of even the most artistic person

A large portion of them came from southern Europe, where illitersey is prevalent. It is claimed that during 1907 they sent to their native homes savings estimated at \$300,000,-000, which, had they been informed of conditions of this country, would have remained and been invested here. "These banks stimulate such transactions of money through false pretenses, largely," continues the statement. "They are not subject to any national or state regulation.
