'Woman's Man" and "Man's Man." Fallowing the public reception, which I to be held at the Hotel Rome between the hours of 2:30 and 3:30 this afternoon, Mr. Taft will be taken to the First Congregational church in an automobile, where he will make a short address to the Woman's club. Mrs. Draper Smith will introduce the secretary of war, who has the reputation of being popular among the women. As one Washington correspondent says: "Mr. Taft's easy social graces and culture have nade him popular among the women. It is not often that one finds a 'man's man' and 3 'woman's man' in the same person."

The Ohio club authorized its president to name a committee, with himself as chairman to greet Secretary Taft at the Union station at 8:30 this morning, assisting the large committee of the McKinley club in extending a welcome which is seldom given to any public man. President Charles A. Goss named the following members, whom he will head:

All the messions of the conference will be held in the East room of the White House, and for that reason the attendance will necessarily be limited. The seating capacity of the East room is not over 500. The president himself will open the conference at 10 o'clock of the morning will preside at the other sessions. Two Sessions Each Day.

There will be two sessions of the con ference each day-at 10 o'clock in the morning and at 2:30 in the afternoon. On the evaning before the conference assembles the president will give a dinner to the governors, at which members of the cabinet, the supreme court of the United States and the Inland Waterways com mission will be present. A great public mass meeting on some evening of the conerence has been suggested, but it is hardly thought that this will be practicable. sessions will continue three days, May 13, 14 and 15.

Th conference will be made up of the governors and the three representatives the governor of each state has been asked to name, the cabinet, the Inland Waterways commission, the congress and the presidents as the official representatives of some thirty or forty great national erganizations which are peculiarly interested in the question of the conservation of natural resources.

Just what the conference will lead to attempt has been made to lay down any imes for it to follow. On the contrary every effort has been made to insure free and untrammeled discussion. The object of the meeting is to get down to a prac tical working basis in the several states on the conservation and use of the nation's natural resources. Just what that basis will be will rest with the president, the governors and the other men whom the president has called to meet with him.

Census Bulletin Shows Tremendous Gains by Ship Canals.

Comparisons Are Made Between Deep Draft Channels of America and the Suez and Kalser Wilhelm Canals.

(From a Staff Correspondent.) WASHINGTON, April 5 .- (Special.)-in connection with the great conference to be held at the White House in May, to discuss the nation's natural resources, a recent census bulletin is of significant interest. Itail and water transporttion will form the principal topic of discussion when the governors and other prominent men from each of the various states of the union meet with President Roosevelt to consider what the president aptly terms the "funda mental problem" before the country. Cen sus bulletin No. 91, devoted to "transportation by water," during 1906, gives some in teresting figures concerning the growth of traffic through canals of deep draft, while a heavy falling off in tonnage is shown in all other canals. The total num ber of tons of freight which passed through the ship canals of the United States during that year was 118,114,267, as against 38,905,820 tons in 1889 and 5,076,390 in 1886. On the other hand, all other canals in the country in 1906 carried but 4.330. 138 tons of freight, as compared with 9,762,-

505 tons in 1889 and 15,967,901 in 1880. The enormous growth of business through he canals at Sault Ste. Marie controlled by the United States and Canada, respectively, is more readily understood when compared with the tonnage of the vessels passing through the Suez and Kaiser Wilhelm canals.

In 1896 the net tonnage of the American-Canadian canals was 17,249,418. During the same years vessels measuring \$.580,284 tons passed through the Suez canal and 1,506,983 through the Kaiser Wilhelm.

Ten years later the tonnage passing from and to Lake Superior points through the "Soo" reached the enormous figure of 41,-098,324 ions, while the reports from Suez showed only 13,443,392, and the tonnage of the German ditch had grown to 5,796,949. Southern Member of New School.

Members of congress, especially those from the western states, are rather proud of the fact that they are compelled to answer anywhere from twenty-five to 100 letters every day. But there are a few, possibly as many as half a dozen, who have to answer the calls of at least twenty of their constituents, who visit them in person, every twenty-four hours. All these have a comparatively easy time compared with the demands made upon the time of Representative Charles G. Carlin of the Eighth district of Virginia. Mr. Carlin's home is in Alexandria, only eight miles from Washington, and in consequence he Not a day passes but at least fifty of his constituents visit him. Richard J. Beemish of Philadelphia, who will be in charge of the bureau, states that the move ment is being made without the aid or encouragement of Judge Gray, who, it is known, has not said a word nor done any thing that can be construed as seeking the nomination. The fund that is to finance the Washington headquarters has been subscribed, it is said, by a few people of Del-

aware and Pennsylvania. The work to be done will be supplemented by that of a similar bureau in Judge Gray's home town, Willmington. A league of Gray clubs is also in process of formation. The work of this organization, according to Mr. Beemish, will be done largely in New Jersey, Pennsylvania, New York, the New England states and the south.

The presidential beem of John A. Johnson was today launched upon the capital and congress with true western originality, when to every Washington correspondent and democratic congressman was handed a special delivery letter mailed directly from the newly established headquarters of the

Minnesota governor in Chicago. The letter was signed by Frederick B. Lynch, treasurer of the Minnesota democratic committee, and transmitted a printed pamphlet setting out concisely the points of availability of Governor Johnson as the democratic presidential candidate and giving a terse review of his public services.

Some Peculiarities Develop Regarding Trial and Settlement of a Damage Suit Against the City.

Questionable Transactions. The items of business in the session the city council Friday night have called forth considerable comment. The first was the aetilement of the W. F. Evans judgment for \$2,000. This resolution was passed on the recommendation of the city attorney and was presented to the council by J. H. Bulla. The council first ordered the attorney to appeal the case, but last Friday by Dr. John Koutsky, at that time city physician, and pronounced uninjured. When the case was brought to trial for some reason Dr. Koutsky was never called as a witness. Naturally, it should have been the duty of the city claim agent to see that all the witnesses who had knowledge of the case should have been called, and especially the city physician, who had examined the supposed injured party.

The nesistant city attorney said yesterday morning: "I don't believe Evans was entitled to a red cent. The judgment was for \$2,500, but Evans agreed to a remittitur of \$500 on the ground of imme diate settlement. The judgment cannot be paid this year, for the judgment fund has been largely overdrawn. J. H. Bulls styled the case as one of holdup, but laid all the responsibility on the city attorney. The present administration has been apt at settling cases of this kind out of court. The second item-was the Independent Telephone franchise. The petition presented in protest had the effect of killing the ordinance, which was on its final parsage. The council caused another ordinance to be introduced to submit the question of the Independent Telephone franchise to a vote of the people. The ordinance names May 5 as the date of the special election. This is the same date as the special election voting court house bonds. The haste of the present council to get the ordinance through is accounted for in the minds of many who have been watching events, when it is known that the democratic campaign fund received \$1,500 from some source not long ago. The Independent telephone people have been seeking admission into South Omaha over a year, but the council never seemed anxious to take up the matter until the

Red Cross - Cough Drops, Sc per box. CLAIMS EQUITY IN STREET Hamburger Seller Habler Says He Has Occupied Ground Ten

Years One lunch wagon man has the prospec of sweet revenge upon the city council which has put an end to the hamburger business which he has conducted succensfully for many years. This is M. B. Habler, who lives at 181 South Twelfth and whose lunch wagon stands on the southeast corner of Sixteenth and Cass

"I have been in undisputed possession of that piece of ground where my wagon stands for more than ten years," Habler told Captain Mostyn, "and the state law over 600. Prominent educators were here says the ground is mine. I have not paid city council cannot pass an ordinance to remove me and the police cannot drive

me off." Habler will probably be arrested today if he persits in doing business, but his contention is said by lawyers to be a serious one if the facts are as he repre-

ARREST HOLTON FOR SHORTAGE A. L. Undeland Says His Manager is \$1,200 Short in His Accounts.

Oscar I. Holton, manager for A. Undeland, dealer in barber supplies, 1407 Douglas street, was arrested yesterday is Lincoln and brought back by Sergeant Devercese to explain a shortage of between \$1,200 and \$1,300 in his accounts. Holton lives at \$24 North Twenty-sixth street. He went away on a vacation about ten days ago. While he was gone a former bookkeeper, who had been spending some time in a trip to Europe, returned and she checked up the books, finding the shortage. This was the story told Chief of Detectives Savage by Mr. Undeland.

Get Out in Plain Clothes and Make Highball Sign with Good

Results.

Three men caught in the act of removng the lid from Omaha yesterday were arrested and will answer a charge of having their saloons open and selling liquor on Sunday. The men arrested are William Atkin, 1120 Farnam street; Frank Burns, bartender in the same place, and Ide Cummings, bartender in the saloon of Thomas Hart, Sixteenth and Caes streets.

Captain Mostyn sent two of his new men out in plain clothes in the morning of labor revival meetings to be held in with money and an appearance of being "good fellows" suffering with a thirst which worked seven days a week. Arriving at the saloon at 1120 street, they made the highball sign and fired a blank and were admitted to the joyous company which had gathered in a back room. There was no sound except the muffled popping of corks and the rippling murmur of liquid streams flowing down thirsty throats. After ushering in the two new recruits to the thirsty army, the guards again took up their stations by the doors. The flewcomers ordered beer and paid for it. They tarried only long enough to see several others buy some of the forbidden fluid and then they begged leave to introduce themselves to the merry company. There were twenty-one in all. Of ourse it was still early in the morning or there might have been more.

All the men arrested gave \$100 bond for their appearance in court Monday morning.

DISEASE IS NOT AN ENTITY In A. Merriam Tells Philos sophical Society of Superattitions.

Dr. L. A. Merriam yesterday afternoon addressed the Omaha Philosophical society on "Current Superstitions of the Medical and Surgical Profession."

He paid a hight compliment to the great mass of the medical profession as to their thorough scientific training, wealth of learning and knowledge of nature and her laws as revealed by the physical sciences of today.

"Disease was once held to be an entity." said the speaker. "It was held to be something to be got out of the body. In reality it is merely a degeneration of structure and function.

Dr. Merriam declared suggestion and auto suggestion are powerful influences in the treatment of disease and that this is one thing which is good in Christian Science. Too many people are influenced by a fearful imagination which causes them to believe they have a disease like, for example, appendicitis, which, the speaker said, is generally caused merely by a congested condition of the system

Nervous Disorders Embrace headache, backache neuralgia, fits, St. Vitus' dance epilepsy-in fact all disorders arising from a weakness of the nerves of an organ. The lungs, heart, stomach, kidneys, etc., all get their energy through the nerves. When they don't get it, their action is impaired. Dr. Miles' Nervine restores nervous energy, and consequently strengthens the

action of the organs. "I had severe pain in my side, back, and head, my nerves were also greatly affected. Dr. Miles' Norvine relieved my suffering and strengthened my whole body.
