Another obstacle presented itself in the course of the long-drawn out controversy effect the purchase under the clause of the contract, or by the right of eminent domain. The latter would give the city the right to name all the appraisers, while the former method would enable it to name but one and to accept or reject the mypraisement, just as it liked. The purchase clause method was forced upon the city placed during the last week, the total agand now the city is told that the value of the plant it is to buy is \$6,000,000 and more, notwithstanding less than half that sum was the amount of the bonds voted for the purchase. When the city council decided in favor of the purchase clause method the city appointed Mr. Alvord and the water company appointed Mr. Benzenthese two chose Mr. Mead.

Delay of All Sorts. This board of appraisers was supposed to go to work at once, but it fiddled along with all sorts of delays, putting the city off from time to time with this and that excuas for its failure to act.

The Water board tried to anticipate the purchase by repudlating the water rate schedule contract, and reducing the rates to consumers. This threw the burden of vast litigation upon the city, in which the city fost. Judge W. H. Fifty People in Car. About fifty people were in the front car when the accident happened, and all of them were more or less injured. The train was moving rapidly when the front trucks of the motor car jumped the track The car bumped along the ralls for a short distance and then plunged off the elevated structure, landing in the rear yard of Mrs. A. T. Haven at 4235 Prairie avenue. The second car crashed into the rear of the motor car and carried it along the tracks for several feet. The front trucks of the second car also left the track.

The passengers of the front car were thrown in a heap to the floor and some of them were dashed against the windows. cutting themselves badly. A panic foilowed in the four rear cars and a number of men raised windows and leaped out on to the elevated structure, where they were in imminent danger from a third rail. The attendants of the rear cars, however, managed to get them back into the train before anybody was injured.

Ambulances Rushed to Scene. Ambulances and patrol wagons were hurried to the scene from nearly all the police stations on the south side of the city. Lieutenant Cronin and ten officers from the Fiftieth street station were the first to arrive. They found the passengers of the motor car penned in and struggling to make their escape. When additional help arrived the imprisoned passengers were dragged through the shattered windows and carried into rearby residences, while the more seriously injured were hurried to

various hospitals. C. V. Weston, general manager of the company, said that the accident was caused by the motor casting of the front car dropping to the track and raising the trucks

above the structure. "These motor castings," said Mr. Weston, "are heavy, weighing several hundred pounds. The one on the front car dropped down and the car trucks ran into it. Naturally it acted as a lever and raised the car from the tracks. The impetus of the moving train shoved this car off the structure, and it fell to the ground despite all that the motorman could do to check it."

GOVERNOR CRAWFORD HEADS LIST

Resolutions Instruct for Taft, and on This Point Both Progressives and Stalwarts Are United --Crawford Commended.

HURON, S. D., April 7 .- (Special Telegram.)-The regarblican state convention was called to order by Chairman Cook at toon. Prayer was offered by Rev. F. W. Long of Huron. Robert McNulty of Roberts county was nominated for chairman by Dillon of Yankton on behalf of the progressives. Ex-Governor Eirod was nomin ated by Brock of Grand county on behalf of the stalwarts. This was the first challenge for a show of strength by the two factions. Roll call gave the progressives 2961/2 votes and the stalwarts 2214. Hamlin county gave the stalwarts its entire nine votes, somewhat to thesurprise of the progrossives. This was offset by the Spink county vote going solid to the progressives. Cheering by both factins followed the announcement of these votes.

On assuming the chair, McNulty was loudly cheered by the progressives, and in a brief address paid a high tribute to the party in the state and nation.

These committees were named with A. W. Wilmarth of Beadle as chairman of resolutions, F. D. Wicks of Bonhomme organiation, and Senator Byrne of Faulk n rules and order. At the conclusion of he apointment of the committees by Chairnan McNulty, ex-Governor Herried on behalf of the stalwarts sent their resolution to that committee. They favored Taft's omination and instructions for the support of Roosevelt's policies so long as Taft's name continued before the national convention. Other resolutions are substantially the same as presented by the progressives

"L" CAR CRASHES TO GROUND Following the noon recess the slate for national delegates was revised, this being the list: Governor Crawford, K. O. Strand of Howard, A. W. Sweet of Pierre. A. L. The progressives PASSENGERS FIGHT TO ESCAPE suspecting the stalwarts would attempt to divide the resolutions indorsing Taft and Crawford, so not to vote to indorse Crawford, permitted the division, thereby forestalling the stalwart plan and securing all they desired.

Taft and Crawford Endorsed. The resolutions open with a tribute to President Roosevelt. The Roosevelt policies are declared to be the "crowning virtue of all the achievements of the repubhean party," standing for "that righteous ness which exalteth a ration."

In view of his refusa! to accept another omination the resolutions declare for the omination of William H. Taft, a man of great ability, of broad experience and whose fudicial and administrative training peculiarly equips him for the broad and varied duties of chief executive. The delegates are instructed to vote for

TAFT WILL HAVE MINNESOTA Little Likelihood Now La Follette

Will Get Support. ST. PAUL. Minn., April 7.-Returns from all paris of the state where primaries were held Saturday and Monday show that there is now no question about Secretary Taft having the Minnesota delegation for him at the Chicago convention, and it is very doubtful if any other candidate for the presidency will be able to secure even a single delegate from this state.

There is no question about the delegatesat-large which will be chosen at the state convention April 16 being Taft delegates. and there seems to be little likelihood of the La Follette men winning out af any of the congressional conventions to be held, April 15. The only question seems to be as to the character of the instructions which will be given the delegates,

"The business conditions of the island looked at from the standard of business. I am serry to say, are not good. Seventy-five per cent of the draft cattle of the islands were killed by rinderpest six or eight years ago. Now you can destroy a crop and you can recover in one year; hut when you destroy your draft cattle that are indispensable to the agriculture of the islands—and they have nothing else there—you can see what a terrible blow that is.

else there—you can see what a terrible blow that is.

"In spite of that, and I am not able to explain it exactly, the exports of the islands have increased from the Spanish days from \$39,000,000 to \$33,000,000 in the last year. That may be due to the fact that the great export of the islands is hemp, and the price of hemp has been high, and hemp can be gathered without the use of cattle. The sugar and tobacco trade has not been well encouraged, because we have not the market, but I am hopeful that congress will see its way ultimately to open the markets of the United States to the products of the Philippine islands in such a way and in such limitations as not to endanger our interests here, and if so, as has been said in Porto Rico, the islands will blossom as a rose in increased prosperity.

in Porto Rico, the islands will blossom as a rose in increased prosperity.

"Now, those who have been at all responsible for the government there have never departed from the promise of Mc-Kinley to extend step by step the controligreater and greater control for the government of the Filipinos as they shall show themselves fit. In my judgment it will take them to generations probably to make them so fitted and experienced as to enable them to carry on the government for their own benefit. It is true that there is a great many intelligent Filipinos, those who speak Spanish and who are well educated. But they themselves need a good deal of education in self-government.

Mules Get Scared.

Incidents of the trip began when the auomobiles whirled around a corner at Twentieth and Spaulding streets and a pair of nules started down the brick pavement, running in the opposite direction from Secretary Taft. It was Governor Sheldon who suggested that it was a bad omen, since the mules were the favorite symbol of democracy, dear to the heart of William J.

Nor did the mules stop running with the grocer's team on Twentieth street. Every team which the party passed or met ran away. At Fort Omaha a team of mulesgovernment mules-smelled the civilized drug known as gasoline, let out a goose call which overshadowed the fifteen guns and started to run. The wagon hit the fence and the driver was thrown over the buckboard, but unhurt. At this moment Governor Sheldon, standing on the steps at the headquarters building of Fort Omaha, thought he saw four solid south states coming into the Taft column, estimating that every mule which fled before the march of Mr. Taft meant a democratic state added to his column.

When the reception, which lasted less than twenty minutes, was over it was raining and the secretary expressed a fear that he would disappoint the Council Bluffs committee. He hurried toward his automobile carriage, but waited long enough to pick up the two children of Colonel and Mrs. Gardner and say, "Of such is the kingdom," as he held the hands of the little ones in his powerful palms.

The party left Fort Crook at 11:15 and made the run to Omaha in Just twentyeight minutes, through misting rain and over pavements made slipery with its fall. Through South Omaha the drivers scarcely thought of the speed ordinances, but the people along the streets watching the party showed they knew the secretary of war and next president of the United States was passing and somewhat concerned to keep his appointments. At the polis where the elections are being held the party was greeted with cheers.
