## GRAIN AND PRODUCE MARKET

Rains in Wheat Belt Caused big Sales and Lower Prices.

Receipts Were Lighter Than on Same Day Last Year in Both Wheat and Corn, but Shipments Were Heavy.

OMAHA, April 8, 1908. With rains throughout the wheat belt and weak foreign markets and the bearish sentiment in the government report started a rush of selling at the opening and wheat suffered a considerable loss, but was regained later on a raily of buying on the break. Corn and oats held steady to higher with good support backed by a better demand.

break. Corn and oats held steady to higher with good support backed by a better demand.

Wheat sold off quickly at the start this morning on general better weather conditions and lower Liverpool cables. Values recovered later on some good support and shorts coming in. May wheat opened at 85%c and closed at 89%c.

Corn was steady with none for sale or the start. Prices fell off some with wheat, but May option was bid up sharply and markets acted congested. May Corn opened at 60%c and closed at 60%c.

Oats started weak on early selling, but recovered quickly with other grain acting very responsive. May oats opened at 50%c and closed at 50%c.

Primary wheat receipts were 64,000 bu. and shipments was 375,000 bu. and shipments of 428,000 bu.

Corn receipts were 751,000 bu. and shipments were 755,000 bu. and shipments were 751,000 bu. and shipments were 751,000 bu. and shipments were 751,000 bu. and shipments of 1,175,000 bu.

I.015,000 bu.
Clearances were 347,000 bushels of corn.
C.000 bushels of oats, and wheat and flour
equal to 474,000 bushels.
Liverpool closed 1½ to 1½d lower on
wheat and ½d lower on corn.

CHICAGO GRAIN AND PROVISIONS Features of the Trading and Closing Prices on Board of Trade.

Prices on Board of Trade.

CHICAGO, April 8.—Despite the bearish showing of the government report, the wheat market today closed strong, because of the active demand by shorts and elevator interests. Final quotations on the May delivery were %6 to higher. Corn was %6 to higher. Oats were up the. Provisions were 7% to 17% thigher.

The government report on the fall sown crop of wheat in the United States was given out thirty minutes after the opening of the local exchange. The report which gave the condition of the new crop as hoing 37.3 compared with a ten year average of 85.2 had little effect on the market, it having apparently been discounted in advance. The market opened weak, because of general rains throughout the southwest and a 1d decline at Liverpool. Sentiment continued bearish until about the middle of the day, when the market became strong on a brisk demand for May by elevator houses and shorts. Prices advance at a stative throughout the remainder. by elevator houses and shorts. Prices advanced steadily throughout the remainder of the session, the market closing strong near the high point. May opened %875c to 156015c lower at 80c, to 895c, advanced to 815c and closed at 215c. Clearances of wheat and flour were equal to 47.800 Stiffs and closed at 19%c. Clearances of wheat and flour were equal to 473,800 bushels. Primary receipts were 642,000 bushels. Against 593,000 bushels the same day a year ago. Minneapolis. Dufuth and Chicago reported receipts of 508 cars against 253 cars last week, and 384 cars a year ago. The corn market was strong all day, chiefly because of weather conditions which were unfavorable for the movement of the crop. The May delivery was in good demand and the more distant months were less atrong. The prices weakened slightly during the day in sympathy with wheat, but later railled and held well under the close which was strong. May corn opened lawic lower to 160%c and 57%c, and closed at 67%c. Local receipts were 259 cars, with \$4 cars of contract grade. The tone of the onts market was weak, although the raily in wheat and the strength of corn caused a good recovery. The cash demand was poor. Rains in the southwest were adepressing factor. May outs opened 160%c higher at 52 and 52%c, sold between \$20 and closed at 55%c. Local receipts were 211 cars.

The provisions market was dull, and prices were aided by the strength of corn and by non-professional speculators, Pit traders sold early and bought on the later bulges. At the close May pork was 17%c. Ribs were 7%c higher at \$1.35%. Lard was up 10c, at \$3.7%. Ribs were 7%c higher at \$1.25%.

Estimated receipts for tomorrow are: Wheat, 19 cars; corn, 210 cars; oats, 238 cars; hogs, 24,000 head.

Market More Active, but Price Movement Remains Sluggish.

Erie Finances Are Again Considered and Rumor of Success of Plan Causes Rise-Net Changes Are Unimportant.

NEW YORK, April 8.-Transactions at the

NEW YORK, April 8.—Transactions at the Stock exchange today were a few thousand shares more than yesterday, but the price movement was even more sluggish and undecided. The government report on the April condition of winter wheat and rye was made the vehicle for an attempted revival of activity. The publication of the government figures quickly revealed, however, that no new interest was stirred in the market by this influence. Traders who had bought in anticipation of a good crop report sold to take profits and prices of the condition of wheat was fully as high as had been expected.

The indifference of the stock market to this factor proved a disappointment to the trading element and it fell back upon the Erie financial problem as the repressive influence on the market. There was no prospect of any definite information during the Stock exchange seasion to show whether the plan was to become operative or not, but many varying rumors were used in the attempt to move prices. The confusion of mind over the Erie conditions was enhanced by the intimation that the period would be extended for the assent of maturing notes to the plan. This removed the likelihood that the project would be declared abandoned immediately on the expiration, at 3 o'clock today, of the period set by the bankers for receiving all of the outstanding notes in assent. On the other hand, the question arose of the position the company would be in with the passing of the maturity of the notes without redemption. These notes sold off on the curb again to below 30. Reports of rains in Kansas offered newer conditions for the wheat crop than were reported by the Agricultural Departmen and had more effect in sustaining prices. Foreign influences were in favor of higher prices, though in moderate degree. Some distinct improvement in the investment tone was discernible both in London and on the continent. The announcement of the merger parts by the appropriate prices, though in moderate degree. Some distinct improvement in the investment tone reasing va

Comparatively light buying serves to advance prices and a strong technical position is argued from this. Rumors that the Erie plan would become operative grew more positive late in the day and railied prices. The numerous shifts in the price movement so far offset each other that the day's net changes are not important.

Bonds were irregular. Total sales, par value, \$2,508,000. United States bonds were unchanged on call.

Con. Cal. & Va..... Leadvillo Con. .... Foreign Financial.

Foreign Financial.

LONDON, April 8.—The better tone prevailing at yesterday's close was fully maintained on the Stock exchange today. The reinvesting of dividend money resulted in an improvement in home rails and other first class securities, while more cheerful advices from Paris, assisted foreigns and Kaffirs. The settlement is progressing easily, American shares were carried over at from 2½ to 3½ per cent. The dealings in American railroads were narrow, but the tone was firm in anticipation of a favorable report.

NEW YORK. April 8.—METALS—The London tin market was higher today, with spot £143 and futures \_\_1142. The local market was firm and bigher in symnathy with quotations rang my from \$31.4.681.75. The London copper market showed little change, with spot quoted at £58 17a 6d and futures, £59 7s 6d. Locally the market was weak and a shade lower, with Lake £12.57% [213.00]; electrolytic, £12.75612.87%, and casting, £12.50612.83%, Lead was lower in the London market, closing £13 17a 6d. Locally leady was quiet at £2.50640. Spelter was lower, deciming to £2 78 6d in London, but unchanged to a shade higher on the London market, with standard foundry quoted at 568 6d and Cleveland warrants 52s. The local market was nominally easier on the southern grades, with demand very slack. No. 1 foundry northern. \$17.75618.25; No. 1 routhern and No. 1 southern soft, £7.25618.00.

ST. LOUIS, April 8.—METALS—Lead, higher; \$3.874. Spelter, nominal, \$4.55.

452 CHICAGO LIVE STOCK MARKET advices from Paris, assisted foreigns and Kaffirs. The settlement is progressing easily. American shares were carried over at from 2½ to 3½ per cent. The dealings in American railroads were narrow, but the tone was firm in anticipation of a favorable report.

PARIS, April 8.—A better tone prevailed on the Bourse here today.

BERLIN. April 8.—A better tone prevailed on the Bourse here today.

BERLIN. April 8.—Prices on the Bourse today, were very firm, on the passing of the Reichstag yesterday, on the Bourse law.

Bank Clearings.

OMAHA, April 8.—Bank clearings for today were \$1.735,389,25 and for the corresponding date last year \$1,755,475.98.

Metal Market.

NEW YORK, April 8.—METALS—The London tin market was higher today, with spot 2143 and futures 2142. The local market was firm and bigher in symmathy with quotutions rang mg from \$11.4 @81.55. The London copper market showed little change, with spot quoted at £58 17a 56 and for the condition of the market on heavy stears.

for the condition of the market on heavy starts.

Cows and heifers were in light supply and the good kinds generally steady regardless of the weakness prevailing in the beef steer trade.

Some of the very beat feeders were perhaps steady, but the general tendency of the feeder market was lower, with the trade slow, while stockers were extremely hard to move, even at the very low prices that have prevailed of late.

Quotations on Cattle-Good to choice cornfed steers, \$5.75%.25; common to fair cornfed steers, \$5.75%.25; common to fair cornfed steers, \$5.75%.25; common to heifers, \$1.504.55; common to fair cows and feeders, \$4.556.25; fair to good stockers and feeders, \$4.506.25; fair to good stockers and feeders, \$4.506.25; fair to good stockers and feeders, \$4.506.40.

45 feeders. 9d 5 fo 3 feeders. 9d 4 00
HOGS-Hogs sold mostly loc lower this morning. In some cases possibly the best hogs, such as slippers could use, did not show quite lic decline, but there were plenty of them that did sell fully that much lower. The trade, though slow at the opening, was reasonably active when once underway and the offerings were picked up in very good season. The bulk of the hogs sold at \$5.72\cdot 6.78, as against \$5.80\cdot 6.55 yesterday. Today's decline wipes out most of the advance made Monday and Tuesday, leaving the market not far from where it was at the close of last week.

SHEEP-Receipts of sheep and lambs were quite liberal this morning and there was a very fair sprinkling of all kinds, both shorn and wooled. Conditions governing the trade could bardly have been worse so far as the seller's interests were concerned. The collapse of the mutton market in the east, followed by the heavy break in the Chicago market for sheep and lambs, was as a matter of fact at the bottom of the trouble. This morning early advices from Chicago not only reported the market there as very slow and lower, but as the next thing to dead. Buyers at this point, accordingly started out not only with instructions to buy their supplies lower, but with the evident intention to act very cautiously. Hence it was the morning wore away with very little business being transacted, and it was well along toward midday before a sufficient number of sheep and lambs had changed hands to really fix the market. Prices generally were fully legific lower all around.

He testified it required five cubic feet of gas per hour to illuminate the entire mantel in a Welsbach burner. This is the amount called for in the contract. Waring said the burner was adjusted to burn five feet of gas per hour at the minimum pressure and when the pressure was high, he said, the lamp, would burn more gas than the contract amount. Deputy City Attorney Dunn on cross examination sought to show the gas pressure could be manipulated from the gas plant, but Mr. Waring said this could be done only by causing considerable trouble to other customers.
