#### **CRAIN AND PRODUCE MARKET**

Dry Weather Causes Heavy Buying of Grain.

### SELLING PRICES SENT HIGHER

Receipts Continue Light, with Lower forn Values, as Farmers Are Hard at Work in the Pields.

OMAHA. April 15, 1968.

Dry weather reports opens up general buying of wheat and with no pressure of seiling prices are sent higher. Receipts continue light and with lower corn values farmers are not expected to leave their fields to market any amount of grain.

Inclination was to be strongly builled in time wheat pit this morning and buying was general on continued dry weather reports, accompanied with some few damage reports as a result of a lack of moisture. The market was bid steadily higher, with no selling pressure and closed strong. May wheat opened at 80c and closed at 80c.

Corn could not hold the pace with wheat and cased off slightly, with offerings rather liberal and buying scattered. May corn opened at 614c and closed at 60c.

Oats sustained some alight loss with corn and selling was the feature, with support lacking. May oats opened at 40%c and closed at 40%c.

Primary wheat receipts were 235,000 bushels, and shipments were 17,000 bushels and shipments of 31,000 bushels.

Corn receipts were 755000 bushels and shipments were 37,000 bushels and shipments of 480,000 bushels and flour equal to 22,000 bushels.

Liverpool closed unchanged to %d higher on corn.

WEATHER IN THE GRAIN BELT Fair, with Rising Temperature, for Thursday.

OMAHA, April 15, 1938.

The area of high pressure with coider weather noted in the extreme northwest in the preceding report has moved eastward and now overlies the Missouri and upper Mississippi valleys, with its creat over Manitoba. The weather is much coider throughout the upper valleys and freezing temperatures are reported as far south as northern Nebrasks and northwestern lows. Rains are general in the east and south and light showers were scattered over the mountain district within the last twenty-four hours. The weather will be slightly cooler in this vicinity tonight, followed by rising temperature Thursday, with continued fair.

Market is Dull and Stagnant Through-

out the Session. GOLD ENGAGED FOR EXPORT

Prospective Shipments Has Little Effect on 'Values--Increase in Numher of Idle Cars Attracts Slight Attention.

that exports have fallen below those of last year for several years to the fact that exports have fallen below those of last year for the first time since last October. When the financial crisis forced the hasty marketing abroad of our commodities of the \$100,000,000 gold which came in at that time there has been, until the engagement of \$1,000,000 gold which came in at that time there has been until the engagement of \$1,000,000 for export, no reflux abroad. The decline in merchandise exports of \$23,000,000 for March compares, in fact, with a shrinkage in imports in the same comparison of nearly \$44,000,000. There is much more significant evidence of the effects of commercial depression than in the export items. It helps to explain the tack of cheerfulness in markets abroad as well as here and also the languid interest in the international gold movement. Interior banks continue to ship currency to New York on a large scale bank notes figuring largely in these shipments. Owing largely to the redemptions of these at the subtreasury, the banks have gained from that institution in the present week \$4,335,000. Several large dividend disbursements were made today and the plethoric condition of the money market was rather increased. Much disappointment was felt over the report of another increase in the number of the American Car association. Compared with March 13, the date of the previous report, idle freight cars made by the committee of the American Car associations. Compared with March 13, the date of the previous report, idle freight cars made by the committee of the American Car associations. Compared with March 13, the date of the previous report, idle freight cars made by the committee of the American Car associations. Compared with March 13, the date of the previous report, idle freight cars made by the committee of the American Car associations. Compared with March 13, the date of the previous report, idle freight cars made by the committee of the American Car associations. Compared with March 13, the date

Good rains occurred in the eastern and southern portions of the corn and wheat region. A trace only is reported in the Minneapolis district and none in the Omaha and Des Moines districts. Freezing temperatures prevail in the upper Mississippi and upper Missouri valleys this morning.
