STATISTICS OF MORTGAGES

Labor Bureau Presents Figures Covering the Entire State,

Attorney General Denies Story That Injunction in Express Case, if Issued by Federal Court, Would Be Ignored.

(From a Staff Correspondent.)

LINCOLN, April 16 .- (Special.) -- The state years 1906-7. Farm mortgages filed during number fell to 16,131. The total amount rep-1906 was \$44,006,848.79, while for 1907 the amount totals \$35,322,577.99. In both years the number released exceeded the number filed, releases in 1906 being 19,632, and in

The amount of money represented by releases in 1906 was \$26,811,512.31, while in 1907 the total released was \$125,639,512.80. This latter figure, however, includes a release of a Union Pacific instrument in Hall county representing \$100,000,000. It will thus be seen that the proportion of releases in the two years is practically the same.

the amount involved in that county was \$19,111,050.92, which simply means, accorda trading in real estate and a development where in the state in recent years. Many large ranches were changing hands, and today there are a great many more smaller farms in Custer county. That county also near future greater than they dured hope for a few years ago. In fact, it is my opinion that there is a hustling and a practical bunch of people in western Nebraska who are now fully awake to the immense possibilities of what they have in their control. They are going to hold on, and outside of a very small area land in that section will pever be had for a song or a team

of mules again." Insurance Case Postponed. their showing May 4, to which date the cause the state auditor was out of the Until that time the two companies may do business in Nebraska without taking a risk of violating the law.

Another Phase of Primary Law. The question of the right of a county clerk to refuse to place on the official ballot at the November election the names of candidates which have been written on the primary ballot, though no lines were left for this purpose, is to be decided by the supreme court. The case stitute increased with teh second day and comes up from Dakota county, where the district judge issued a mandamus to compel the county clerk to put the names on the ballot, holding also that blank lines must be left on the primary ballot K. Andrews of Table Bock, gave a fine for writing in names where no nominations have been made. The democrattie party had no candidates at the primary except for sheriff and for superintendent. The names of other parties to complete the ticket were written in, but the county clerk refused to place them on the November bailot until ordered to do so by

the court. He appealed the case. Just a Space Filler. The sensational story published in the Lincoln papers yesterday that the State Rallway commission and the attorney general would go to jail be fore obeying any order of the federal court tending enjoin them from enforcing the Sibley law, does not apply to the legal department, but is hot air pure and simple. According to the attorney general legal department of the state will obey any order issued in a lawful manner by either the state or the federal court. The story published, Mr. Thompson said, will tend to place the state in a bad light, he

said, and there was no justification for it, "The legal department has not defied any court." said Mr. Thompson, "and it does not intend to go before the court in any such attitude. If the supreme court or the federal court issues any order this department will obey that or

Mr. Thompson and members of the Railway commission expect to win another victory in the federal court Saturday for the reason the federal court itself has already remanded the express cases and has held the state has jurisdiction and is proceeding under that jurisdiction. No one believes there will be any occasion for a grand stand play about going to

Bon't All Speak at Once. Gertrude A. Wells, stenographer cm ployed by the State Railway commission is proving herself quite a breadwinner for the state. Today the books were cast up and showed she had made for the state in transferring testimony taken before the

commission, \$317.16. This amount was made musical selection by Mrs. Aydelott were during the last week and represents only ne hearing before the commission.

Good Governor-Poor Pitcher.

The report that Governor Sheldon was

a result of pitching the first ball in the City, whose subject was "The Saloon Sioux City-Lincoln game yesterday is not keeper's Story." This wound up the insti-BOARD NOT DEFYING THE COURT true. The governor has suffered no serious results from that act-physically-though the poor exhibition he put up as a pitcher is still the talk of the state house, and will be as long as the executive allows himself to be seen. The crowd insisted that the governor take off his coat when he threw that ball yesterday, but the executive declined, giving as a reason this morning, he knew about where the ball would landthat is he had a general idea that it would bureau of statistics has just finished a hit somewhere betwen first hase and home, compliation of mortgage statistics for the and for that reason he kept on his coat, and the coat is to blame for it all. It was 1906 numbered 17,451, but during 1907 the the first ball the governor had pitched since 1887, though he participated in a game resented by the farm mortgages filed in at Havelock last summer where the age limit was 6 years.

Crete Sets Good Example.

"There is so much grief and disappointment connected with the fire escape end of this bureau that when an encouraging incident comes my way I feel like recording it in the hope that it may be emulated." said Labor Commissioner Ryder. "As a general rule, the most eligible and the most useful place for a fire escape is on the front of a building, especially if the structure is of old construction. But owners insist on hiding their fire escapes, and not Custer county leads in number of farm orly that, they will not put up proper mortgages filed in both years, and in 1996 signs indicating where the escapes are without continual jacking up. Very often the cost of escapes in the right place would ing to Commissioner Ryder, that there was be less than the cost of the hidden ladders or stairways, but that fact is lost sight in that county probably unprecedented any- of in the strange desire to give the public the impression that the building does not need and has not got eny fire escape, "At Crete vesterday I found a different and much more commendable disposition. shows the greatest number of releases of The trustees of Donne college had planned farm mortgages in the two years, 890 in to put three escapes on Gaylord hall, on 1906 and 623 in 1907. It has been a case, Mr. | the rear walls of the three wings. After Ryder thinks, where small loans have been going over the building with me they con-

for the purchase of more land. "The people | the escapes on the front of the building, in out there, as well as investors, have al- the locations that presented themselves as most unbounded confidence in the future of most likely to serve the larger number of their section. This is true of about all the students in the shortest space of time in western counties, since the people are be- case of emergency. This decision not only that is worth as much as the presence of the escapes themselves. "The Board of Education at Crete had a

means a large expense, but the members are meeting it in a thoroughly business like way. Their plans provide for cutting away of window ledges wherever necessary so be on a level with the floors of the rooms, The two Pacific coast companies which with exits to the escapes that will be real sought a restraining order against the exits. When the Crete school equipment auditor to prevent him from inteffering of fire escapes is in place it will, in my with their agents in this state will make judgment, be fit to serve as a model for any Board of Education to follow. For the hearing was continued this afternoon be- wholesome effect their action must have on other men who are entrusted with the safety of schools the Crete men deserve to be complimented most highly, and this should include the superintendent, Prof. Gregory, who has been most progressive in his ideas."

W. C. T. U. Institute.

HUMBOLDT, Neb., April 16 .- (Special.)-The attendance of delegates at the Women's Christian Temperance Union ingood sized crowds greeted each session. After the devotional exercises and musical numbers a paper on "Missions" was read by Mrs. Knowles of Pawnee. Mrs. Lydia reading, after which came the question box, and a discussion of the problem, "The best way to keep our boys from using accepted.

The evening session consisted of an elocutionary medal contest at the church, par- sider it the most important happening in ticipated in by five contestants from different parts of the district, and witnessed by a large crowd from this city and surrounding country. The session was presided over by Mrs. Manger of Pails City. while devotional exercises preceded and a Prof. F. E. Thompson, formerly superin-

interspersed with the readings. After the last speaker had finished, Mrs. Nesbit of Pawnee City spoke while the judges were bringing in their verdict. The medal was suffering severe pains in his right arm as awarded to Master Freddie Dorner of Falls tute for this year.

DISTRICT MEETING OF BAPTISTS

Many Matters of Interest to Church

Are Discussed. TECUMSEH, Neb., April 16.-(Special.)-The Baptists of this district, which includes several counties, held a conference at the church here, Monday, Tuesday and Wednesday. The atendance was fair. Monday afternoon a fellowship meeting

and a meeting of the missionary committee of the Nemaha association was held. An evangelistic meeting was held in the even-

z The Bible study Tuchday morning was "Method in Soul Winning" by Rev. O. A. Williams, D. D., of Lincoln. Two ten-minute addresses were given in a symposium 'Why I Am Preaching the Gospel," as follows: "My Motive," Rev. L. M. Denton of Lincoln; "My Encouragement," Rev. G. H. O'Donnell. Discussion followed. An address was given by Rev. C. A. Schappel of Pawnee City on "Men's Work for Men. Rev. Mr. Williams conducted the Bible study in the afternoon, using as the study "The Valley of Dry Bones." Two tenminute addresses were given in a symposium, "Method in Soul Winning," as follows: "Drawing the Net." Rev F M Coulston of Lincoln. Rev. Samuel Z. Batten, D. D., of Lincoln gave an address on "The Gospel Jesus Preached." An evangelistic meeting was held in the evening. Rev. Mr. Coulston conducted the Bible study, Wednesday morning, the subject being "Taking Men Alive." Two ten-minute addresses were given in a symposium as follows: "To the Unsaved," Rev. D. L. McBride; "To Converts," Rev. D. M. Tinde. Discussion followed, and Rev. Mr. Colston closed the meeting with an address,

cleaned up and larger indebtedness assumed cluded that it would be much better to put Frank Hanken of North Bend committed with a shotgun in his room at the Langdon hotel in that town about 8 o'clock this ginning to realize that they have land means a substantial saving in money, but ate breakfast and appeared about as usual. worth holding on to, and prospects in the it also means that there will be created a A few minutes after he left the dining room confidence among students and parents a shot was heard from the direction of his room. Several parties immediately went up and found him dead, with the gun resting right side and almost the entire side of the face was shattered. From the position of his right hand he had evidently reached that the platforms of their escapes will all over and pulled the trigger with his fingers. He was about 35 years of age and unmarried. He has relatives living in this

> Experts Spraying Fruit Trees. TECUMSEH, Neb., April 16 -- (Special.)-George E. Merrill of the Department of horticulture, Washington, D. C., is in the city. He comes to the First congressional district of Nebraska at this time for the purpose of demonstrating spraying results in fruit orchards. The gentleman, with his several orchards over the district, but the results could not be estimated owing to the failure of the fruit crop. The work of spraying is conducted by the national department, through the state department of horticulture, and all was brought about through the efforts of Congressman Pol-

Hood's Sarsaparilla

The Economy of It

"ONE HUNDRED DOSES ONE DOLLAR" The Success that has been won by Hood's Sarsaparilla is well known. It is the standard remedy of the world for all blood diseases, humors and eruptions; and as a general tonic, appetite-restorer and kidney and liver

specific, we doubt if its equal has ever been made. But there is no feature of Hood's Sarsaparilla of which we are more proud than we are of its practical economy.

A Bottle of Hood's Sarsaparilla contains 100 doses, and will average to last a month, while other prescriptions and medicines will last but a week or fortnight. Thus the argument for the great economy of Hood's Sersaparilla is unanswerable.

As a Spring Medicine-just now-it is the best medicine you can possibly take. This is a strong statement, but we can prove it a thousand times over. It is perfectly safe, pure, genuine and reliable.
