Father of Prize Family

The clerks of the investigating committee were sent to Virginia by the legislature of West Virginia to look into records and other data concerning the debt question involving the two states. One passed in 1877 reads:

"Whereas, It is represented to the general assembly that William Lynch, sr., of the county of Brunswick, is the father of thirty-four legitimate children, of whom twenty-seven are now living, that he has been the husband of four wives, the last of whom is now young and healthy and gives him every assurance of an increase of his numerous progeny, that he was a soldier in the war of the Rebellion, and has been through life an upright and useful citizen, and that age and the support of his numerous family have at length rendered him infirm and poor;

"Be it enacted by the general assembly that William Lynch of the county of Brunswick shall be hereafter exempt from the payment of any public or county tax, tax levy, charge or contribution whatever, and it shall not be lawful for any court, sheriff, deputy, coroner or other public officer within this commonwealth to demand or receive of said Lynch any such tax, levy, charge or contribution."
