CHICAGO, April 20.—The local wheat market was strong today because of the builled tone of the weekly statistics. May wheat closed ighie higher. Corn was he dower. Oats unchanged and provisions like 1980e lower.

The wheat market was strong all day because of the active buying of shorts and sommination houses. The chief strengthening influence was the weekly statistics. World's shipments last week were only a little more than half of what they were for the corresponding time last year. The amount on passage decreased 2,650,000 bushels, compared with an increase of 1,853,000 a year ago, and the visible supply in America decreased 1,650,000 bushels, against an increase of \$11,000 bushels last year. Advices from the northwest indicated that the new crop is progressing favorably, but these reports seemed to have but little effect. The market closed strong, May opened a shade lower to a shade higher at \$25,000s. Increased 344c and flour were equal to 17,000 bushels. Primary procepts were 6,000 bushels. Against pricepts were 6,000 bushels. Prices on Board of Trade. dinneapolis. Duista and Chicago reported scoalpis of he care against 25 hast week and 18 a year ago.

The corn market was weak all day. Commission houses were heavy sollers of the setting was for local loriga. Clear yeather in the corn belt and the possibility that the local receipts will soon intrast were the chief reasons for selling ressure. The market resovered somewhat it the final hour on buying by shorts, at the close was easy. May opened a made to 1974 close and then seelined to 30. The close was easy.
