

## EAST SENDS OUT MORE CASH

Shows Faith in Nebraska by Offering Large Loans.

## PRUDENTIAL ENTERS THE FIELD

Opens Its Strong Box with an Invitation for Farm or City Land Owners at Fair Rate of Interest.

Another big insurance company—the Prudential of America—has appointed a financial agency in Omaha and is bidding for Nebraska farm loans.

The Federal Trust company, financial agency for several eastern companies and having over \$10,000,000 of private money loaned on Nebraska and Omaha real estate, has been appointed to represent the Prudential. The company, as is well known, has assets of something like \$145,000,000 and holds farm mortgages of \$26,000,000, but the business in Nebraska has amounted to nothing from a loan standpoint up to the time of appointing the Omaha agents.

This makes Omaha distinctly the headquarters in the west of the great insurance companies now having financial agents located in Omaha: Union Central of New York; Connecticut General of Hartford; Travelers, Hartford Life, Phoenix Mutual and Aetna, all of Hartford; the Mutual Benefit of Newark, N. J., and the Northwestern Mutual of Milwaukee.

The money offered by these companies on Nebraska farm security, and some of them on city property, passes an amount which will stand in nine figures. The rates of interest are reasonable, the net rate received by the companies averaging about 5 per cent and agents charging from 1 1/2 to 2 per cent commission.

## Very Low Before Flurry.

Some of the large loans in Omaha made before the financial flurry, were at the extremely low rate of 4 1/2 per cent. The Travelers of Hartford is taking loans for a number of years aggregating \$50,000 to \$100,000 at that rate.

The immense amount of insurance money which is offered to the west, especially in Nebraska from the Omaha agencies, is regarded as evidence of the confidence which the best financiers of the east have in the sure crops and unfailing resources of the state. From Omaha the loans are made either direct where the agents have an opportunity to handle the business, or through sub-agents at the country towns. Out of Omaha all the insurance money goes to hundreds of agents, and at this time Omaha has the appearance of a money market quite as much as a grain and live stock market.

Speaking of rates, the financial agents of two large companies said:

"Rates are low enough now, but not quite down to the rates made before the panic. This is true of the majority of the companies, but the rate is gradually working down and after presidential election in November, we may expect a return to the rates of last year."

## BOY EXECUTES COURT ORDER

Gets Away from Hardened Criminals by Escaping from the County Jail.

Lee McCrossen's efforts to assist Sheriff Bailey to carry out an admonition of Judge Sears have proven fruitless. When Judge Sears sentenced McCrossen to six months in jail he told the sheriff, as McCrossen was a youth, to keep him as far as possible from hardened criminals. Young McCrossen apparently wanted to carry out the judge's order, for a week ago Monday when he was sent out to sweep the walks around the jail, he eloped with the broom, leaving a whole jail full of hardened criminals behind him, and was heard of no more until Thursday.

McCrossen was received by Sheriff Talbot was sent at once to bring him back to finish the four months remaining on his term.

## SIX GOOD, TESTED RECIPES

Dainty Dishes Worth Remembering for Family or Company Occasions.

Chestnut Pudding—Twenty-four chestnuts will be needed for a pint mold. Take off the brown skin, plunge them in boiling water for a minute or two, and peel off the red skins. Make a sirup of sugar and water sufficient to cover the chestnuts in a saucepan. Flavor this with vanilla, set over the fire and gently stew the chestnuts until they are soft; by this time they will have absorbed the sirup almost entirely. Pass them through a wire sieve while the chestnuts are stewing. Prepare a custard with half a pint of milk, boiled and cooled, a gill of cream, two whole eggs, and two yolks, or omit the cream and use three-quarters of a pint of milk. Sweeten with an ounce of sugar, mix the custard in a saucepan over the hot water pan until it is rich and creamy, and cool it as soon as it is ready. Then make a cupful of caramel. Stir one tablespoonful of sugar over a low fire till the sugar melts and becomes a rich, brown sirup, turn this into a mold to form a cap; let it harden; mix the puree and custard and pour this in cold. Cover the mold and steam. Butter the mold well beforehand.

Delicious Dessert—To half pound of dates add half pounds of English walnuts shelled, three tablespoonfuls of bread crumbs, one cup of sugar, six eggs beaten separately and one teaspoon of baking powder. Put bread crumbs, sugar, and baking powder in bowl and beat in eggs, adding nuts and fruit last. Bake twenty minutes in layer tins. Break up pills on dish, and serve with whipped cream.

Italian Dessert—Beat a cupful of light brown sugar over the fire, stirring constantly to prevent burning. When melted, add one cup of blanched almonds, chopped fine; remove quickly from fire and stir until the sugar hardens. Then break into small pieces; whip one pint of cream stiff, flavor with vanilla and the sugar and nuts, mixing thoroughly and serve immediately in compotes. This recipe should serve twelve persons.

Maple Perfect—Beat four eggs slightly and pour on them slowly one-half pint, hot, maple syrup. Cook until the mixture thickens and cool it; then add one teaspoonful of almond extract, remove from the range, cool, and then add one pint of thick cream beaten until stiff. Mold, pack in salt and ice, and let stand four hours. This recipe serves six persons.

Cream Salad Dressing—Rub the yolks of two hard boiled eggs through a sieve; use one dessertspoonful of dry mustard, one tablespoonful of butter, one teaspoonful of salt, one-half pint of cream, either juice of one lemon or two tablespoonfuls of vinegar, and as much cayenne pepper as can be taken on the blade of a small pen knife. This is a good substitute for those who do not like oil on meats or vegetables.

Spinach Salad—Mash to a paste a roll of cream cheese and add the yolks of three hard boiled eggs, forced through a sieve. Add salt to taste and a dash of cayenne, and enough salad oil or melted butter to moisten. Measure and add an equal quantity of finely chopped, seasoned spinach. Mix well and shape into balls. Arrange in lettuce nests and serve with a French or boiled dressing.

## SMART BORDURE MATERIALS

Lovely Effects Are Being Shown in Some of the Season's New Models.

White and black, with relieving color, has not run its course, and particularly in the beautiful bordure materials where the color is introduced in the border design, lovely effects are shown in such coloring. Black and white stripes, checks, dots, etc., in which the white predominates are liked for serviceable little frocks of marquisette,

## BLACK TAFFETA AND BOUTACHE.

mousseline, voile, foulard and other soft stuffs and may be made up very simply with touches of black for trimming and gimpes of sheer net or lace, with perhaps a line of color at the throat.

A French model pictured in the sketch shows the chic possibilities in such a frock, and for the woman whose wardrobe is limited a dainty white and black frock has the advantage that one does not tire of it as one does of a more pronounced color scheme and that any coloring in hat or accessories is possible with it. The scarf girdle of black liberty and the satin cord ornaments on the bodice of the model sketched here are good features.

## Frank A. Munsey

on the

## Business and Political Situation

IN the May Number of Munsey's Magazine, Mr. Munsey has an article on the panic and the causes that brought it about. He says some things and says them straight from the shoulder. He hands it out good and hard to Wall Street and to the Grand Dukes who have been running things in this country with a high hand—running them as the Grand Dukes of Russia have run things over there. The title of the article is—

## There isn't money enough in the world today to do the world's work

Mr. Munsey takes emphatic issue with Wall Street and the followers of Wall Street who hold the President responsible for the panic. It is not his purpose in the discussion to acquit Mr. Roosevelt of blame, but rather to get at the facts, as the facts are necessary to intelligent progress in the recovery of our business activities.

"If these facts," Mr. Munsey says, "acquit the President, he is, as a matter of common honesty, entitled to the acquittal." What we want to know, and should know, is the truth. And

the basic purpose with Mr. Munsey has been to lay bare the truth.

Mr. Munsey in this article clears away a vast amount of the distorted and awfully befogged ideas about this financial crash. The article is clear, convincing, forceful. It is not a dry, ponderous handling of the subject, but is swift and dramatic in expression, with all the sweep and picturesqueness of a novel. You cannot afford to miss reading it. No one who has any interest in the vital things of the day can afford to miss reading it.

## Let our chef cook for you. He knows better than you do how to bake beans.

This is his specialty—his sole occupation—his one claim to supremacy. And he has the facilities.

He has ovens so hot that they break down the fibre of beans and make them digestible. You cannot do that.

He bakes in live steam, so the beans are baked well without browning or bursting. Our beans are nutty, yet mealy.

## Our ovens are heated to 245 degrees. That's why our beans are digestible

We get better beans than you get. And we pay for them seven times what some beans would cost.

Our sauce is made from vine-ripened tomatoes. It costs us just five times what some sauce is sold for.

Then we bake the beans, the tomato sauce and the pork all together. Thus we get our delicious blend.

## Van Camp's pork and beans baked with tomato sauce

Beans are Nature's choicest food when they are rightly baked. They are 23 per cent nitrogenous—84 per cent nutriment.

That's about the same as the food value of beef, but note what a difference in cost. Beans should be a daily food.

Get Van Camp's beans, and your people will want them often. Then see what you save on your meat bills.

## You will never be content with home-baked beans after you once know ours

Van Camp's are always ready. Heat the can in hot water—then open. It will seem as if the beans were fresh from the oven.

When you are tired, here's a meal without labor. When you are hurried, here's a meal in ten minutes. And such a meal! What do you know that compares with it?

But be sure to get Van Camp's. Other brands won't suit.

## TAX ON THE CHATTEL LOANS

Mortgages Will Not Escape, Says County Assessor Shriver.

## THOUSANDS OF DOLLARS INVOLVED

Heretofore These Securities Have Dodged the Assessor, and Loan Agents Are Talking of Law Suit.

Chatel loan mortgages to the amount of thousands of dollars will be uncovered for taxation purposes by County Assessor Shriver. Heretofore they have escaped taxation.

Mr. Shriver has notified the loan men that he will list for taxation all of the mortgages on record in the county clerk's

office, and as a result over 1,000 of the mortgages have been released within the last week. They run from \$20 to \$500, and in the aggregate will amount to about \$50,000.

Mr. Shriver will make a list of all the mortgages remaining unrelaxed and will allow the owners the privilege of presenting proof that all or part of them have been paid. He will then list the unpaid part for taxation. Owing to the fact that there are thousands of dollars' worth of mortgages which have been paid, but not released it is impossible to tell just how many of them will be taxed, but it will amount to thousands of dollars.

The chattel loan men are objecting to the tax, claiming they pay a tax on their capital and are threatening to make a test case.

## ARTISTS HAVE FALLING OUT

Two Billboard Painters Toss Rocks Fellow Craftsman Because He Is Irregular.

William Swan and Owen Connolly, two artists of the billboard school, were reported Thursday charged with disorderly conduct. They became suspicious, it was said, of one Terry Johnson, whom they believe to be a nonunion artist who was usurping their places in posting bills, though he is not the credentials proclaiming to world that he is a union man. Wherefore it is alleged, when they saw the form the hated Johnson used in placards were in the rear of 1600 Harney street, armed themselves with chunks of rock which they threw through the window of the form of Johnson. Their aim was good and Johnson is still intact and using his wanted artistic career picture to the world how "Mild risks her life crossing the canyon on a moving ranch very ball to save Harry's life" and at masterpiece.
