THE STURDIEST peoples of the earth drink beerdrink it from childhood to age. And those are the peoples who suffer least from nervousness and from dyspepsia.

When one needs more vitality, the Doctor says "drink beer."

The barley is food; the hops are a tonic. The trifle of alcohol is an aid to digestion.

The proper drinking of beer-but not the abuse of it-is good for the weak and the well. And not the least of the good comes through flushing the system; in getting rid of the waste.

But a beer to be healthful needs to be pure. And it must be well aged, else the after-result is biliousness.

That is why we are so careful with Schlitz. We double the necessary cost of our brewing to insure absolute purity. And we age the beer for months before marketing.

It gives you the good without the harm.
