GRAIN AND PRODUCE MARKET

Low Temperatures Tend to Higher and Firmer Values.

HIGH SELLING CAUSES REACTION

May Option Wheat Prices Pushed Higher, Corn Close to High Points and Oats Opened Strong.

OMAHA, May 2, 1908. Grain market values firm and higher and May options sell steadily higher. Cables were comparatively firm and light north-western receipts and general low temperatures in the wheat belt were the chief factors. Some selling on the high points caused a little reaction, but the market was a strong one throughout the morning. May wheat opened at 26c and closed at

Corn was strong and higher on the open-ng and run close up to the high market soints, following the action of wheat read-May corn opened at 63%c and closed 65%c Oats opened strong, with commission courses buying. There was some offering of May option on the bulges.

May oats opened at 49%c and closed at

Primary wheat receipts were IR.000 hushels and shipments were GR.000 bushels. against receipts last year of 322,000 bushels. Corn receipts were 385,000 bushels. Corn receipts were 385,000 bushels and shipments were 585,000 bushels. against receipts last year of 580,000 bushels and shipments of 416,000 bushels. Clearances were IR.000 bushels of corn. none of oats and wheat and flour equal to 251,000 bushels.

Liverpool closed 14034c higher on wheat and unchanged to 4d higher on corn. Local range of options:

Features of the Trading and Closing

Prices on Board of Trade. CHICAGO, May 2-Reports of damage by insects and a decrease in the visible sup-ply were responsible in large measure for a firm tone in the local wheat market today. At the close, July wheat was ac higher. Corn was up 188%c. Outs were be higher. Provisions were 5c lower to

The wheat market was firm all day despite a considerable amount of selling for profit. At the opening the market was semewhat higher, because of cold weather in the southwest, and a good demand for cash wheat in the northwestern market. Later the southwest contributed much bull-lah news in the way of damage by the Hessian fly and chinch bugs. The greater part of these damage reports came from Kansas and Oklahoma. Shorts who were Kansas and Oklahoma. Shorts who were anticipating buillsh news on Monday in the shape of a decrease in the world's shipments were active buyers. The visible supply decreased heavily and primary recipis were only 38,000 bushels, against \$89,00 one year ago. These things, coupled with a fair export demand, caused the market to hold well throughout the day and to close firm. July wheat opened \$40,000 to \$10,000 on \$10 wheat and flour were equal to 251,000 bushels. Minneapolis. Duluth and Chicago reported receipts of 219 cars, against 201 cars last week and 311 cars a year ago. The buying of shorts favored a further advance in May corn today, but the distant futures did not follow. The close was firm. July corn opened a shade to \$150cc higher at 64c to 644,0645c. Local receipts 113 cars, with twenty of contract grade.

The oats market was dull all day. July cats opened 4c higher at 65cc, sold between 65cc and 4cc and closed at 65cc and 4cc and closed at 65cc and 4cc and closed at 65cc. A large run of hogs in the west was responsible for an easy feeling in the provisions market early in the day. At the close July pork was 5c lower at \$13.35. Lard and ribs were each unchanged to 25cc higher at 84.65 and 5.224cc, respectively.

and ribs were each unchanged to 24cc higher at 18.46 and 17.224c, respectively. Estimated receipts for Monday: Whest,

15 cars; corn, 96 cars; oats, 133 cars; hogs, 35,000 head. The leading features range as follows: Articles. | Open. | High. | Low. | Close. | Yes's

Pranklin ST. PAUL AGAIN LEADS RISE Reaction Follows Lack of Any Devel-NEW YORK, May 2-There was an active rebound in prices of stocks today to the highest level of the week, for those issues which have been most conspicuous in the movement, which were mostly in the transcontinental group. The movement was a continuance of the buoyant rise in progress when the market closed yester-cay, and it was equally lacking in special news developments to explain it. Advances were practically wiped out in the final reaction.

The aggressive operations in St. Paul were resumed from the same sources that served to impress speculative sentiment vesterday. There was marked strength in explained. The prospect of a strong bank statement was an influence in uphoiding prices. Apparently a favorable interpretation was placed on the reconsideration by Alleuez Amalgamated *Asked. **Bid.

Clearing House Bank Statement. NEW YORK, May 1.—The statement of clearing house banks for the week shows that the banks hold \$0.50.200 more than the requirements of the 25 per cent reserve rule. This is an increase of \$0.300,150 in the tion was placed on the reconsideration by the New York City authorities of yester-day's announced determination to issue \$40,000,000 of revenue bonds. The cause for this decision was not stated and was acproportionate cash reserve as compared with last week. The statement follows:

companied by the statement that the municipality was in need of funds. A favorable influence in the market was the confidence expressed by prominent finan-ciers newly returned from Europe in the \$1,190,465,200 1,267,759,200 58,248,600 F8 98,747,700 clers newly returned from Europe in the good prospects of growing interest by European capital in American investments. There was a decline in the private discount rate in Paris and the London money market had the benefit of large dividend disbursements. The local money market was reported somewhat firmer and one of the factors causing this was the increased demand from stock commission houses for funds, which has accompanied the livelier speculation in stocks. Circulation Legal tenders leserve required 62,352,900 0,368,150 72,704,850 2,836,375 S. deposits.....

*Decrease.

The percentage of actual reserve of the clearing house banks at the close at the close of business yesterday was 29.90.

The statement of banks and trust companies of Greater New York not members of the clearing house shows that these institutions have aggregate deposits of \$856,596,590, total cash on hand \$53,784,890 and loans amounting to \$829,127,596.

The sharp reaction at the last seemed to be due, in addition to the selling to take profits, to some misgiving over the accuracy of the favorable forecasts of the bank statement. The statement, however, disclosed more than the expected gain in cash and only a normal loan expansion, in spite of the important operations of the week, including the Pennsylvania bond and the Interborough note subscriptions. The London Stock Market. London closing quotations: MC% Mo. Han & Texas 28% 66 5-16 New York Central 1004a 7% Norfolk & Western 684 82% do pfd 81 the Interborough note subscriptions. CATTLE-There were no cattle here day of an consequence, but for the week the receipts have shown a very fair gain over last week, but an extremely heavy the receipts have shown a very lain game over last week, but an extremely heavy decrease as compared with a year ago. The arrivals have consisted very largely of beef steers of fair to pretty good qual-ity, with all other kinds of cattle scarce. The arrivals have consisted very largely of berf stoers of fair to pretty good quality, with all other kinds of cattle scarce.

A feature of the market was the very good demand for the light handy steers, which were free sellers every day and at the close of the week show very little change as compared with one week ago. On the other hand, heavy cattle on the plain order were neglected more or less every day and were especially hard to move on some days, the tendency being lower all the week. At the close cattle of that description are 10gible lower than one week ago. The very best heavy cattle have not shown so much decline.

Cows and helfers have been scarce every day this week, as compared with the demand which has been guite briefs and of liberal proportions. Such a combination never fails to make a good active market one hopeful of a better market to feel more hopeful of a better market to come hopeful a low

strength in the New York market. Dealings were of fair dimensions, most of the business being done at the higher level. The market closed firm. Copper shares were weak, especially in the case of Rio Tintos. Money was in better supply, owing to dividend payments. Discounts were correspondingly easy. The Stock exchange reopened quietly, with a small attendance, many of the members protonging yesterday's holiday. Investment buying was small and first-class securities, led by consols, sought lower levels. Home rails of perienced a fresh setback on account of the labor troubles in the north.

PARIS. May 2.—Trading on the Bourse today opened quiet and continued sluggish throughout.

As a matter of tact, however, the actual offerings on the market have been very moderate, a considerable propersion of the receipts consisting

Ret have been very moderate, a considerable propersion of the receipts consisting of Colorado lambs on their way to eastern feeding stations and halted here only for feed without being offered for sale. The demand, however, has been small all the work, so that the receipts were plenty large mough to satisfy the wants of buyers. The tendency of values has everywhere hor the been lower, prices at all market points are properly largely a year ago. Thus at the close of the week prices are fully se lower than one week ago and in some cases, especially on shorn lambs, it is possible to show declines of Egyste. Besides were here sufficiently urgent to put any life into the market and the trade has been characterized by dullness.
