

BEGINNING MONDAY, MAY 4th

THIS year's "Nemo Week" is more than usually attractive, and there are two good reasons why retailers are anxious to co-operate with us to make this annual event a great success. 1. Nemo Corsets are not like ordinary corsets.

Each is a patented specialty that does something reduces the abdomen, strengthens the back, straightens the form, or brings health, comfort and style in some way quite its own. Nemos must be understood. Toknow Nemo Corsets is to wear them. 2. The phenomenal success of the Nemo has

naturally brought forth many worthless imitations, which are so adroitly named and so skillfully misrepresented that any woman who doesn't happen to know, may easily be deceived. It is only right and fair to give all women every opportunity to guard themselves against such imposition. MERCHANTS generally recognize these facts,

and desire to protect their trade by exposing frauds. "Nemo Week" gives them an exceptional opportunity to explain to their trade the invaluable patented special features that have made Nemo Corsets famous throughout the world.

THE new Nemo models are of absorbing interest. Some of them are entirely new inventions, producing results heretofore thought impossible.

THE wonderful "Back-Resting," and the ingen-ious and lissome "Willow-Shape," should be studied carefully by women of slender and medium figure, while the stout woman will rejoice in the new "Flatning-Back" models in the "Self-Reducing" styles, whereby graceful Princesse effects may be attained even by fleshy women.

SELF-REDUCING, No. 312, for tall stout figures; and No. 320, same with Flatning-Back | \$3.00 SELF-REDUCING, No. 314, for short stout figures; and No. 318, same with Flatning-Back SELF-REDUCING, No. 516, for tall stout figures; and No. 517, same with Flatning-Back | \$5.00 SELF-REDUCING, No. 518, for short stout figures; and No. 515, with bust supporters.... SWAN-SHAPE, Nos. 205, 296, 303 and 355-\$2.00 to \$3.50; MILITARY BELT, Nos. 301, 302 and 304, \$3.00 BACK-RESTING CORSET, No. 351-\$3.50; WILLOW-SHAPE CORSET, No. 500-\$5.00

"Nemo Week" is an educational event, for it teaches women how to be shapely and stylish without transgressing the laws of health and hygiene. It demonstrates that, though the first great Nemo success was the famous "Self-Reducing" Corset, the new Nemo models for stender figures are superlatively chic and dainty as well as hygienic.

DUN'S REVIEW OF TRADE

Success of Railway Bond Issue Improves Financial Situation.

GENERAL CONDITIONS UNCHANGED

Prospect that Railroads Can Borrow Funds for Betterments Improves Ontlook in Iron and Steel Trade.

NEW YORK, May 2-R. G. Dun & Co.'s Weekly Review of Trade says;

Sentiment was greatly improved in finan-Sentiment was greatly improved in financial circles by the successful issue of new raffway bonds, prices of securities attaining the highest position since October, but mercantile and industrial conditions were not changed. The outlook for the steel business brightened when it was shown that the railroads could borrow momey for needed work and the good progress of the crope promises well for the future in all branches of business. Insofar as current conditions are concerned, however, reports indicate a small volume of trade and only fair collections.

Nominally there is no change in quota-tions of fron and steel, but pressure to disof accumulated stocks in furnaces has produced several sales of pig at substantial concessions. Prices of hed steel are usually maintained, atopinion is expressed in many quarters that concessions would bring not much needed business. Thus far there is practically no increase in the active corpe-city of plants in this industry cast of Chi-cago, but at the west conditions are better. Pin plate mills continue to lead a point per cent of capacity in operation, out few other departments are turning out over do per cent, of a normal production, and coke ovens do much less. Although the tone is and buyers begin to appreciate that eries may not be secured as desired deliveries may not be selected a beautiful there is sufficient uncertainty regarding the percentage of idle machinery to encourage prograstination. Men's wear woodens are in a better position, marked improvement being noted in duplicate improvement being noted in duplicate preers as clothiers begin to ascertain the trend of demand, but it is going to be difficult to get deliveries, owing to the delay in placing contracts. Many mill have been closed and the season's output will be far below normal, which may pro-

duce a scurcity if fail and winter trade is Conditions are unchanged in the footwear industry, wholesale houses ordering only for immediate needs and stipulating for quick deliveries, which are readily ar-ranged. Johbers at the west and south evince no disposition to place fall contracts which are usually closed before this date and the conservative policy pursued thus far suggests that manufacturers will be unable to make deliveries at the usual date as the stocks are not being accumulated.

Jobbing Business is Quiet and Collections Are Still Slow.

NEW YORK, May 2.-Bradstreet's says.

NEW YORK, May 2.—Bradstreet's anys. Weather conditions have been unfavorable to distributive trade this week and a rather quiet trade is reported the country over. Jobbing trade has remained quiet, with business confined to small filling-in orders. Fall business has shown no particular increase in activity and orders are still scarce. The disposition seems to be to let the jobber carry the goods, and manufacturers are thewise disinclined to make up stocks ahead of orders. Collections are still slow and extensions asked for or granted are still a fenium. Thus far industrial output shows little or no disposition to expand. Certailment is still the position to expand. Curtailment is still the feature in the feature lines and some lead feature in the fexule lines and some leading centers reported production 30 per cent off the normal iron and steel industries show little change from preceding quiet conditions, except that talk of price reductions in the crude iron branch is becoming more pronounced, while finished lines hold at previous quotations. Railway tonnage is at a very low point, while cars have increased to a record tetal, with coal cars prominent, industing that this trade is increased to a record total, with coal cars prominent, indicating that this trade is especially short of work. Foreign trade is abled as a whole, but some improvement is reported in export demand for cereals after the smallest week's shipment in two years. The best points in the situation are the more cheerful feeling as to the ability of the railroads to borrow, and the undemisably good outlook for the winter wheat niably good outlook for the winter wheat

miably good outlook for the winter wheat crop.

Business failures to the United States for the week ending April 3t, number 282, against 234 last week, 163 in the like week of 187. 130 in 1808, 183 in 1805 and 178 in 1805. Canadian failures for the week number twenty-two, as against thirty-six last week and eighteen in this week a year ago.

Wheat, including flour, exports from the United States and Canadia, for the week ending April 28, are the smallest for two years, aggregating 1,620,699 bit., against 2,417,020 last week and 2,231,736 this week last year. For the forty-four weeks of the fiscal year the exports are, 178,417,226 bit., against 184,809,421 bit. in 1806-97.

Corn exports for the week are, 407,669

Corn exports for the week are, 407,660 u. against 571,347 bu hist week and 937,656 in 1807. For the fiscal year to date the exports are \$1,22.467 bu. against 61,428, 557 bu. in 1906-07.

And many other painful ailments from which most mothers suffer, can b. avoided by using Mother's Friend. This remedy is a God-send to expectant mothers, carrying them through the critical

ordeal with safety. No woman who uses Mother's Friend need fear the suffering incident to birth; for it robs the ordeal of its dread and insures safety to life of mother and child, leaving her in a condition more favorable to speedy recovery. The child is also healthy, strong and good TE

OMAHA DEBATERS WINNERS High School Given Unanimous Verdict plenteous applause, the Des Molnes de-

LARGE CROWD IN ATTENDANCE

Team from Omaha High School Also Gains a Victory Over the Westpert High School at Kansas City.

Over West Des Moines.

Omaha High school debaters wen over West Des Moines High school debaters Friday night in the Creighton university auditorium. This was the unanimous of the three judges, Superintendent N. M. Graham of South Omaha, Robert Wallace of Council Bluffs and Judge A. L. Sutton of Omahs. The applause which greeted the announcement of the decision showed that it met with the approbation of a majority of the large audience which packed the auditorium to the doors.

The question was: "Resolved, That the commission plan of government, combined with the initiative, referendum and recall. is the best plan yet proposed for govern-

ment of American cities." Omaha argued for the affirmative and he debaters were Edwin Rosenberg, Harry Drucker and Will Ross. Des Moines and the negative side were upheld by Benjamin Hazen, William Spurrier and Jennie Davidson. Drucker, for the affirmative, and Hazen, for the negative, summed up their respective sides in rebuttal at the close.

Rosenberg, the first speaker for the affirmative, explained the commission plan in brief, one commissioner having the supervision of the public health for his special duty, another having the water works, a third the parks or streets. He followed this short explanation by outlining the affirmative's line of argument for the evening, stating that they would show that the evils in the present system of city government can be remedied only by the destruction of the system; that the commission plan is the only remedy; that the recall serves as a check on the commission, and that the plan has worked successfully.

Good Men Louth to Serve. attaching to the office of councilman, corruption making it dishonor instead of live. nonor, it was impossible to get good men under the present system, though it would e under the commission system where the body is smaller and therefore more honor and more direct responsibility attaches. Also under the present system there are too many committees to refer legislation to and therefore it is practically impossible to place responsibility, he argued, whereas under the commission plan each commissioner would be directly responsible for his department.

Hazen, the leading debater for Des Moines, then followed in a rapid fire arraignment of the commission plan in which ne declared that in the four weeks the plan has been tried in Des Moines a mistake has been found every day and that even the father of the plan advocates a new commission to watch the original one. He ridiculed the argument put forth that the recall serves as a check on the commission, declaring that the commission advocates concode weakness in advocating a recall. "for if the plan is not dangerous, why the need of a check?"

Drucker, the leading advocate for Omaha, then came forward with his telling arguments for the commission plan, citing five salient points: Greater honor for the commissioner, business plan of government, non-partisan elections, personal initiative and interest of the people.

The declaration was made that in voting for commissioners all partisan politics and all national and state politics would be eliminated and the people would vote simply for men of integrity who would not shift responsibility. In the commission plan he argued the city would be governed intelligently by a small body as is a corporation governed by a board of directors. "The commission system is the true democracy,

Plan Simply a Fad.

Spurrier, for Des Molnes, waxed facetious and compared the commission plan to the Merry Widow sailors-simply a fad which merely a theory, but because new has become a fad." he said. "but when the first hatters decision of the supreme court is blush has been worn off we will see it exposed in all its hideousness." He dewas the presentation of the Frank Bros. clared it was a wild and impractical theory and the state government of the last century could not by any happensiance be compared with it. By the frequency of elec-BRADSTREET'S REVIEW OF TRADE the first night was noticed, and almost tions under the present system men interevery seat was filled with an interested ested in public questions are assured of

Among the latter Austin, Waco, Memphis, Leavenworth and Norfolk were quoted and the names of commissioners in a number of cities, including a short sketch of their lives showing their fitness were given. Des Moines commissioners being in this list.

The last speaker for the negative, before rebuttal, broke away from the commission plan and the present system and advocated a new system of government altogether, a plan similar to that in vogue in the schools and the Board of Education. Under this method the people would choose their controlling board of the best citizens of the community and it in turn would choose the mayor, who would be held responsible for everything, the same as the people elect the Board of Education, which board in schools. Miss Davidson spoke in a sarcastic manner, declaring that the commission Knights plan is visionary, radical and dangerous.

Summing Up of Debaters.

In rebuttal Hazen declared that Omaha could not talk intelligently about the working of the commission plan in Des Moines, where they have seen it work and know what it amounts to. He also denied the of New York. idea of the high qualifications attributed to the Des Moines commissioners and said that while the commissioners might try to do what was best, they could not do as well as a man who had made city government a life study, as advocated by his side through Miss Davidson. He again atto the initiative, referendum and recall aystem and declared in those very things James W. Maynard of Omaha, grand the weakness of the commission plan was two apostolic delegates, Mgr. UNIONS FOR NEW COURT HOUSE Action Taken at Regular Meeting of the Central Labor Union.

Resolutions favoring the issuance of the bonds for the proposed new court house were unanimously passed at a meeting of the Central Labor union at the Labor tem-ple Friday night. Embodled in the resolutions was an earnest request to all laboring men to vote for the issuance of the bonds. A concerted effort is being made by the American Federation of Labor to have congress relieve a number of present labor conditions and amend the present laws considered injurious to the labor element. Copies of a set of resolutions which embody the requests of the labor unions are being sent broadcast over the country, accompanied by printed requests to be signed will wear off after a short time. "It is by all locals, demanding the enaction of laws to relieve the conditions. The recent complained of, and the passage of a direct employer's liability bill is also asked for. A unique feature of the meeting was the seating of a woman delegate, something which has not occurred for several years The delegate was Miss Marie Johnson of the waiter's union, who was greeted with applause after the acceptance of her credentials. Organizer Guye stated that in the near future another union which would seek admission to the central-body would

also have women delegates. Arrangements were completed for the free moving picture show to be held in Washington hall on the evening of May 18. The entertainment is under the auspices will illustrate the difference in the labor of the fact that on account of the flood conditions in the union and non-union factories and shops of the country.

AFFAIRS AT SOUTH OMAHA

Under Arrest at City Jail.

MAY BE THE MINDEN FUGITIVE M. Carl Emith made a presentation speech

Resembles Him in Many Respects, but Apparently is a Little Heavier

Than the Much Wanted

Detective Henry Elsfelder arrested Joe Feeley last night, who will be held pending a minute description from Minden, Neb. It is thought possible that the suspect may be Bert Taylor, the Minden man who as- April. saulted two girls. He arrived in South Omaha yesterday afternoon, and was held by the detective, who met him at Twentyfourth and N streets. The description tallied well. At the station he was searched and no marks of identification were found on him. He had no books or letters. He said he had just left Wichita, Kan., and had worked there for a man named Joseph

Kearney on a loading dock. Chief John Briggs questioned the man very carefully, but made no mention of the Minden crime. He showed the man | Van the photographs of the Minden criminal, and he admitted that they resembled him in ect in conjunction with a committee from a striking manner. The chief eald: "He den man that I dare not let him go. I can tion. This man seems a little heavier than the weight quoted."

Feeley was placed in the steel cell, where apparently, he went to sleep soon after be ing locked up. The arrest was made about

No Prospect of Cheaper Ice. "No prospect for cheaper ice," said the manager of the South Omaha Ice com-pany yesterday. "The natural ice is nothing locally. All natural ice will have t be shipped from the northern states, the cost of this is from \$2 to \$2.50 per ton i freight. The cost of the ice is probably \$3. The shrinkage is at least \$2 per ton, so the net cost will be about \$7. This leaves about \$2. The price of ice will therefore not be less than 60 cents per 100. This is the rate at present.

"We have a contract with Armour & natural ice. It is the only ice for purity. The clarified will cost more at the packing house than the white ice. I don't know how much of our trade Armour can sup-
