

WHAT JOY THEY BRING TO EVERY HOME

as with joyous hearts and smiling faces they romp and play—when in health—and how conducive to health the games in which they indulge, the outdoor life they enjoy, the cleanly, regular habits they should be taught to form and the wholesome diet of which they should partake. How tenderly their health should be preserved, not by constant medication, but by careful avoidance of every medicine of an injurious or objectionable nature, and if at any time a remedial agent is required, to assist nature, only those of known excellence should be used; remedies which are pure and wholesome and truly beneficial in effect, like the pleasant laxative remedy, Syrup of Figs and Elixir of Senna, manufactured by the California Fig Syrup Co.

Syrup of Figs and Elixir of Senna has also met with the approval of physicians generally, because they know it is wholesome, simple and gentle in its action. We inform all reputable physicians as to the medicinal principles of Syrup of Figs and Elixir of Senna, obtained by an original method, from certain plants known to them to act most beneficially, and presented in an agreeable syrup in which the wholesome Californian blue figs are used to promote the pleasant taste; therefore it is not a secret remedy, and hence we are free to refer to all well informed physicians, who do not approve of patent medicines and never favor indiscriminate self-medication.

Please to remember and teach your children also that the genuine Syrup of Figs and Elixir of Senna always has the full name of the Company—California Fig Syrup Co.—plainly printed on the front of every package and that it is for sale in bottles of one size only. If any dealer offers any other than the regular Fifty cent size, or having printed thereon the name of any other company, do not accept it. If you fail to get the genuine you will not get its beneficial effects. Every family should always have a bottle on hand, as it is equally beneficial for the parents and the children, whenever a laxative remedy is required.

AFFAIRS AT SOUTH OMAHA

Burning Hay Gives the Firemen Three Runs During Evening.

THOUGHT TO BE INCENDIARY

Case Was Beyond the Fire Limits and Switch Engine Called Into Service to Get Them Within Reach of Water.

The fire department had three calls yesterday evening in fires which could not be reached with the present supply of hose, so it had the hose moved to Twenty-seventh and O streets, where hose could be laid, and easily extinguished the flames. The first call was at Thirtieth and G streets at 8:30 p. m., where a string of hay cars was burning. The fire had, in fact, started in one car and had not yet reached the others when the alarm was given. The department went to the scene, but discovered it could not reach the fire. A Union Stock Yards engine was pressed into service, taking itself to the burning car and pushed it to a convenient point under the O street viaduct. In the meantime the department returned and laid hose to the new location. The woodwork of the car and the hay were practically ruined. Another car was fired at the same location, about ten minutes later than the first. Again at 9 o'clock a third car was found burning and it was consumed in the tracks.

With the continued alarms the detective force got busy, hoping to discover the cause of the mysterious fires. No arrests were made last night.

Deadlock Over Appointments.

Mayor Frank Knabick said last night he saw no prospect of settling the deadlock over the city appointments. "I have made no advance to the opposition and hold to my original belief that I have the right to make my own appointments. These have to be made under my orders directly and I do not intend to appoint men who will, for the sake of their party prejudices, continually oppose me."

"I am sorry this state of affairs exists. It is bound to hurt the progress of the city. The city has to be well governed. What is the use of appointing a clerk inspector if he cannot be continued. The little gets his 'wires crossed' if my memory serves me right. Less than a week ago complaint was made that we intended great extravagance, and would keep all the offices and add a few. Now it appears we have not enough. Are we in a open trap to be caught both coming and going?"

"We have dispensed with the police court bailiff, a janitor for the city hall during the summer months at least, and we intend to repeal the ordinance creating the office of city weighmaster and make it a few offices, as it was."

"All my appointments have been honored in that the appointees are doing the work without interference. Several of them have received orders from the present council as to their duties. Sooner or later they will get their pay."

The democratic wing of the council has made no overture apparently, and according to the program of the democratic leaders they will not be allowed to compromise if they can help it.

Democrat Speaks Sunday.

William Jennings Bryan will speak Sunday, May 10, at the auditorium of the South Omaha High school. He has been engaged to deliver the lecture, "The Prince of Peace," for the benefit of the local Young Men's Christian association. The meeting will begin promptly at 8:30 p. m. The admission is free, but by ticket. The tickets may be secured by any one who applies at the association's headquarters, or by mail, if applicants should come early.

At the Sunday afternoon meeting yesterday it was decided to discontinue the Sunday afternoon meeting for the summer season. The advisability of an evening meeting was also discussed.

Account of K. C. Case.

The Kansas City report of the arrest, which has caused something of a sensation there, is given as follows by the Star:

D. H. Tolman's last office is in room 40 in the Hotel building, 7 and 8 west of Broadway in the office yesterday when a visitor called. One of them was busy writing with a typewriter. The visitor was working on some papers at a desk. A large sign read:

SALARIES DOUBT HERE.

It was looked on the wall above the desk. When a visitor entered the office the woman at the desk spoke to him. She was about 35 years old. She had dark hair and was well dressed.

"What is the matter?" she asked. "I will be through in a moment." After rearranging the papers she motioned to the visitor to approach.

"I want to see about arranging for a loan," he said as he took a seat near her.

"How much money do you want?" she asked in a business-like manner.

"Twenty-five dollars," he replied.

"Where are you employed?" she asked, looking him over carefully.

"I want to go to work for a telegraph company in the morning," he replied.

All the information.

"What salary will you receive?" she asked. It was then a teacher asking questions of a pupil.

"Are your pay days semi-monthly?" she asked.

"Well, we have an 18th month. The nearest thing to that is a 22nd month."

"What year?"

"You can come that in ten semi-monthly payments of \$25 each, or eight monthly payments of \$31.25. As you are unknown to us, it will be necessary that you bring someone up here with you. You could not, would not or did not need your present salary. The employer would protect your interests."

"What is the necessary qualification of the 'someone'?" she asked.

"He must be employed in his present position six weeks and his previous position six months. And he must be a member of the club, or a member of some other reliable firm will be acceptable as an endorser."

"I have my charge for making out the papers?"

"Oh, yes. For each."

"Oh, yes. We charge a fee for making out the application papers. The fee is \$2.00. This will cover the charge for both your own and your endorser's papers. The endorser signs all papers."

"What would you get the money?"

"If you have your application today you can get your money tomorrow. It usually requires a day to look a person up."

"You borrow or obtain \$25.00. If you desire to, I will send you a check for \$25.00 or \$12.50 for Mr. Tolman. Should you keep it five months it costs you \$25.00. You do not, however, \$25.00 for four or five months. You start paying it back one month after you get the money. It does not take many months to get back what you originally borrowed. The balance is profit for Mr. Tolman."

Woman Prison Inspector.

British Home Office at Last Makes Appointment that Meets Necessity.

Dr. Mary Louise Gordon of London has been appointed inspector of prisons and assistant inspector of state and certified industrial reformatories. It is the first time that the British Home Office has appointed a woman to such an office, and the appointment is looked upon as an important step in prison reform. For many years there has been a demand for a woman inspector in view of the fact that on an average of 5,000 women and girls are sent to prison in London every year. Dr. Gordon has been for several years a visitor of state reformatory institutions and is an authority on the treatment of alcoholics.

House hunting used to be toil.

Many a woman has endured hardships during the period of house hunting preceding the period of moving that has told heavily on her strength. Do not wear yourself out looking for a house. Save your strength. You will need it in these first few days when you want to straighten up your new home.

Instead of trudging up one street and down another, simply turn to the Classified Columns of this newspaper. There you will find all of the available houses and flats that are for rent.

If the kind of a dwelling that you want is not published, place your own advertisement stating what you want in tomorrow's paper. Some landlord will see your advertisement and will come to you.

MUTE DISTURBS THE PEACE

Being Deaf and Dumb Does Not Stop August Getting at Night.

Though August Gutting is deaf and dumb he can disturb the peace and the evidence in police court, Friday, was an outstanding case when he was sentenced to ten days in jail.

Mrs. Alma Fischer, Tenth and Center streets, also deaf and dumb, appeared against him. Her little son, an extremely handsome and bright boy, acted as interpreter speaking in his mother in the same language and interpreting to the court. Mr. Fischer is a traveling man, according to the statements of Mrs. Fischer. Gutting has been annoying her and on Saturday appeared at the house, broke a window and tried to enter. Gutting had but little to say even when pressed with a pistol and a pad of paper.

GIRL LIKES LOTS OF PEOPLE

Little Nellie Dunner Asks Court Not to Consign Her to a Quiet Farm.

"Send me to Geneva, judge. I want to go where there are lots of people," said Theresa Hoffman, a 14-year-old toilet dancer to Judge Emble of the juvenile court Monday morning. "Don't put me on a farm. I don't want to go where there are only two or three people."

Theresa has been traveling for several years with various theatrical troupes, though she is only 14 years old. According to juvenile authorities who investigated her case, this has not involved her view of life. Judge Emble granted her request to be sent to the industrial school at Geneva.

MARRIED WOMEN

Every woman covets a shapely figure, and many of them deplore the loss of their girlish forms after marriage. The bearing of children is often destructive to the mother's shapeliness. All of this can be avoided by the use of **Mother's Friend** before baby comes, as this liniment prepares the body for the strain upon it, and preserves the symmetry of her form. **Mother's Friend** makes the danger of child-birth less, and carries her safely through this critical period. Thousands gratefully tell of the benefit and relief derived from the use of this remedy.

Sold by Druggists at 25¢ per bottle. Our little book, **What All About the Menstrual**, will be sent free.

TOLMAN IN NEW TROUBLE

Omaha Money Loan Man Center of Fire at Kansas City.

CLERKS CHARGED WITH USURY

Young Women Employed by Him There Are Accused in the Absence of Their Employer.

Trouble is brewing in Kansas City over the money loaning business and word has been received in Omaha that the office of D. H. Tolman, who makes his home in this city, is the center of trouble, the young women clerks having been arrested and charged with usury.

Mr. Tolman sometimes got brought out against a colored man in South Omaha to act as a surety for the man's bond. The man's name is in the office of Tolman, who makes his home in this city, is the center of trouble, the young women clerks having been arrested and charged with usury.

After a few months she decided to go to the United States as a nurse for the sick and wounded. It was something new in this country, although Florence Nightingale had done it during the Civil war. She was a school teacher of 35 when the war began. Her service for her country began by making bandages and picking lint after school hours.

How Women Can Keep Themselves Cheerful

Women live indoors; they exercise little. They need laxatives more than men. Their headaches, their dull faces, their "blues" are generally due to the bowels.

Such conditions are wrong because they are unnecessary.

One Cascaret—taken just when you need it—sets everything right.

One candy tablet ends completely most of our minor ills.

Cascarets are so gentle, so natural, you won't "know" it if you don't take them.

They are not like salts and pill cathartics, which injure the stomach and bowels.

They are not like any harsh physic, followed by griping and gas.
