STRAWBERRY

Dealers Predict a Bountiful Supply at a Price Within the Reach of All.

A glut in the strawberry market is the prediction of fruit dealers in nearly all sections of the country. Reports from the growers of berries in Virginia, Delaware and New Jersey indicate that the coming crop will be better than for many seasons and show that a larger acreage has been devoted to the fruit. It is predicted that lovers of this succulent fruit in many northern cities will be able to eat all the good berries they want at 6 cents a quart, or perhaps 5.

To suggest that some persons cannot eat the raw strawberry as it comes from the garden without stomach distress may seem almost unpatriotic, for every American thinks it a patriotic duty to eat strawberries whether they "agree" with him or not. It is a fact, however, that many persons cannot cat them without discomfort. The full enjoyment of this delicious berry is denied to thousands whose stomachs do not take kindly to the peculiar acid and the numberless little seeds which it contains. For these persons the sorgy white flour dough or "shortcake" makes a bud matter even worse. Almost any person whose stomach has not gone out of busy ness entirely can cat strawberries and Shredded Wheat Biscuit with perfect safety. and fullest enjoyment. The best way to prepare them is to heat the biscuit in an oven until the shreds are crisp, then crush a cavity in the top of the biscuit and fill this with the berries in their own juices, then pour milk or cream over it and sweeten to suit the taste. There is something about the porous shreds that neutralizes the fruit acid and the combination makes a most wholesome and delicious dish, more easily digested and much more putritious than the ordinary shortcake.

You can make the same wholesome comcination with ruspberries or any kind of fresh fruit. A favorite summer noonday Immanuel Baptist. Twenty-Fourth and Binney, Philetus H. McDowell.
