

RIOTS IN CLEVELAND

Mob Attacks Cars in Lakewood and Three Men Are Shot.

ONE CAR BURNED TO TRUCKS

Police Rushed to Scene in Automobiles and Crowd Dispersed.

COMPANY STANDS BY ITS M...

Probability that Trouble Will Be Submitted to Arbitration.

WILLING TO LET THEM COME BACK

All Who Return Must Enter the Service as New Men and Accept Their Pay—Union Yet Undecided.

BULLETIN.

CLEVELAND, May 19.—Rioting in the street car strike began this evening early. Three men were shot and wounded in a conflict between strikers and deputy sheriffs in Lakewood, a suburb. Charles Marvin, striker, was shot through the hand; two others were seriously wounded. Strike breakers, protected by deputy sheriffs, started a car over Lakewood boulevard. A Sloan avenue car was driven across the track stopped the car. A crowd had collected and it is reported that many shots were fired by both sides. More cars came along and the shooting continued. Police in automobiles rushed to the scene and a running encounter with the mob occurred. The first car was set afire and burned to the trucks it is said. In East Woodland avenue a car ran down a small boy and cut off his head. The gathering crowd attacked the motor-man and conductor. The police on the car beat the crowd back. In the confusion, it is said, the boy's head was hurled to his home, while an ambulance took the body to a morgue.

BULLETIN.

CLEVELAND, O., May 19.—There appeared today to be every possibility that the strike of the conductors and motormen on the lines of the Metropolitan Traction company will end within twenty-four hours. While the peace mediators were at work on a settlement, however, the strikers and their sympathizers were not idle. The violence continued. The members of the board of arbitration are in conference with President Dupont. It is understood that the board is authorized to make certain propositions in behalf of the union.

BULLETIN.

CLEVELAND, O., May 19.—Notwithstanding the widespread disorder which prevailed in various parts of the city last night, the Metropolitan Traction company today claimed to have many cars in operation than at any time since the strike began. With the approach of daylight the lawlessness which continued throughout the night had in a large measure ceased and cars were run on all lines without interference.

While a number of persons received injuries as a result of the assaults made upon the cars during the night, no one was hurt seriously so far as reported.

The trucks of a Superior avenue car were wrecked this morning and the car windows broken by the explosion of dynamite or giant powder placed on the tracks. The car was filled with passengers and a panic ensued, but none was hurt. A conference between President A. B. Dupont of the traction company and the State Board of Arbitration began at noon. It also was attended by Harry Thomas, president of the local trades union council. It was reported that the union might concede the one point asked by the company—that the men return to work as "new" men.

The proposition to end the strike by arbitration was taken up again today by the members of the State Board of Arbitration. As this matter now stands the company is willing to operate if the men will return to work and stop all violence, but in returning the men must assume the position of new men and take their chances of obtaining a place. The men who remained at work will be given preference. Whether the union will submit to this plan has not been decided.

EX-OFFICIAL TAKES HIS LIFE

John McLaughery, Formerly County Commissioner, Shoots Himself at Indianapolis.

INDIANAPOLIS, May 19.—John McLaughery, former county commissioner, shot himself dead today. He had been prominent in republican politics. The grand jury recently returned an indictment against one member of the board of directors, but McLaughery had not been indicted.

McLaughery's term as commissioner expired January 1, 1907. His name had been connected with the scandal in the commission's office in the Atlas Engine works deal. In this, the Atlas company is charged with paying a bribe of \$500 to the commission.

McLaughery, in a confession, told that he gave Thomas Spafford, a commissioner, \$500 of the \$500 to be given by Spafford to the same or knowing anything about it, and Spafford denied receiving the money to give McLaughery.

WILL VOTE UPON AMENDMENT

Democrats of Washington Decide to Favor Submission of Prohibition Amendment.

SPOKANE, Wash., May 19.—At the end of a protracted and stormy session the democratic state convention at midnight last night adopted a resolution declaring for the submission to the voters of a constitutional amendment forbidding the sale and manufacture of spirituous liquors. A double delegation of twenty, each with half a vote, was elected to the national convention and instructed to vote for Bryan, "first, last and all the time."

HIGHER PRICES FOR STOCKS

Record Mark for Year Made in Dealings on the New York Exchange.

NEW YORK, May 19.—Leading railroad stocks and other shares in the stock market reached their highest prices of the year in today's trading. The advances were made on extremely heavy dealings and before prices were secured in such stocks as Union Pacific, Pennsylvania, Amalgamated Copper, Reading, St. Paul, Illinois Central and Northern Pacific. Profit taking on the advance caused sharp recessions, but the tone of the market continued strong.

SUMMARY OF THE BEE

Wednesday, May 20, 1908.

Table with columns for dates (1908, May, 1908) and days (Sun, Mon, Tue, Wed, Thu, Fri, Sat). Numbers are listed for each day.

THE WEATHER

Omaha, Council Bluffs and Vicinity show showers Wednesday; not much in temperature. Omaha probably showers Wednesday. Partly cloudy Wednesday; warm.

TURNER ORATES TO LAWYERS

Former Senator from Washington Will Make Address Before National Bar Association.

SPOKANE, Wash., May 19.—(Special.)—George Turner of Spokane, former United States senator from Washington, has been selected to deliver the annual address at the meeting of the National Bar association at Seattle, August 23 to 25. The invitation came from Jacob M. Dickinson of Chicago, president of the association, which has members in every state in the union.

Hon. James Brice, British ambassador to the United States, delivered the address in New York, was the orator the year before. Mr. Turner was the democratic member of the commission during the Alaskan boundary negotiations in London, a few years ago, being chosen by President Roosevelt and complimented by him upon his ability. Other members were Henry Cabot Lodge and Elihu Root. Mr. Dickinson was counsel for the United States in the negotiations.

CRIMINAL CHARGES PREFERRED

Receiver of T. A. McIntyre Company Lays Evidence Before District Attorney Jerome.

MRS. GUINNESS' TEETH FOUND

Sheriff Discovers Plates in Ashes of Burned Home.

DENTIST SURE THEY WERE HERS

Removes All Doubt of Death of the La Porte Woman Murderer in the Minds of the Officials.

LA PORTE, Ind., May 19.—Just before noon today, Sheriff Smutzer and Miner Schutte, who are shaking the ashes in the debris of the Guinness fire, found the upper and lower plates which came from Mrs. Guinness' mouth, both containing her false teeth.

Dr. I. P. Norton, who made the lower plate, immediately identified and also identified the upper plate, frequently having seen it, although it was made before he became her dentist.

"This proves beyond the shadow of a doubt," said Sheriff Smutzer, "that Mrs. Guinness was burned to death in the fire." The issuing of a death certificate for Jennie Olsen and the turning over of the body by Coroner Mack to the relatives in Chicago puts the official stamp of identification upon one of the bodies found on the Guinness farm regarding which there has been much controversy. Although identified by her brother and sister, many refused to believe that the girl was dead, for the reason that Mrs. Guinness had made it a point to inform a number of persons that Jennie had gone to Los Angeles to attend school and had arranged little incidents that would help to make this point strong with such people as might be inquisitive on the subject.

The grand jury resumed its sessions today. The seven unidentified bodies, one female and the others male, exhumed from Mrs. Guinness' barnyard were today buried in the potter's field.

Prosecuting Attorney R. N. Smith today said that Ray Lamphere, now held in jail here on the charge of murdering Mrs. Guinness and her children, will not be tried before September 1.

Prosecutor Smith admitted that inasmuch as so many people in and about La Porte believe Mrs. Guinness to be still alive, he expected to have some difficulty in proving that she was murdered by Lamphere.

COTTON MEN BEFORE JURY

Members of Board of Managers Must Tell About Profits from Regrading.

NEW YORK, May 19.—The members of the board of managers of the New York Cotton exchange, who were in office about a year ago, were summoned to the federal court today, presumably in connection with the charges that the revision of cotton grading last year resulted in large profits to members of the graded exchange.

In New York a committee meets twice a year, in September and in November, and arbitrarily fixes what the differences of all grades shall be for two months, or for ten months, while the New Orleans exchange follows the actual market differences for the grades as established by daily spot transactions.

In a recent report on cotton exchange, Herbert Knox Smith, commissioner of corporations, said that in New York the committee is usually made up of men who are largely operators on the exchange, and who are constantly interested in the future market. "It is within their power," said the commissioner, "to fix these differences as to affect enormously the value of their own future contracts."

"In the revision of November, 1906, when the differences fixed by the committee were radically wrong, several members of this committee have admitted that they were at the time heavily interested in future contracts, and they profited by the action of the committee. There is no conclusive proof that they intended this. It is sufficient to point out that this fixed difference system, applied thus arbitrarily by a small body of men, furnished a condition in this case, where these men had the power thus to reap profits, and the motive for so doing was extremely strong."

PROSPECT OF UNION IS GOOD

Special Committee that Visited General Conference Returns to Pittsburgh with Good News.

PITTSBURGH, May 19.—The special committee from the Methodist Episcopal conference that came here yesterday with overtures to the Methodist Protestant general conference to return to the parent body, were so well pleased with the results of their mission that before leaving Rev. Dr. J. F. Goucher of the committee announced that upon their return to Baltimore the Methodist Episcopal conference would act on a proposition to send an overture requesting union to the general conference of the United Methodist church which meets in Canton, O., next May.

Bishop Thomas C. Carter of the United Brethren church, who is here in the interest of the union of that denomination and the Methodist Protestant and the Congregational churches, said the action of the Methodist Episcopal conference would have no effect toward retaining the latter union which has been under consideration several years.

PASSENGER BOATS ON RIVER

Two Steamers of Diamond Jo Line to Make Regular Trips Upon

DAVENPORT, Ia., May 19.—The Diamond Jo steamers are being put into condition for a busy season on the river. Two regular passenger boats will be started from St. Paul and St. Louis early in June and each will make two trips each week in each direction. The Quincy and the St. Paul are the steamers to be put into the service.

Bishop Here Makes Visit

BIOUX FALLS, S. D., May 19.—(Special.)—Right Rev. William Hobart Hare of this city, Episcopal bishop of South Dakota, is engaged in making his annual visit to the churches in his diocese. Next month he will visit the Black Hills, and on June 15 will visit Spearhead, where, on the morning of June 19, he will celebrate holy communion. Bishop Hare is hurrying his usual visitations throughout South Dakota so he can return to New York and Philadelphia for further treatment of an ailment with which he is afflicted. Bishop Hare is not the strong man he once was, but with loyal devotion to the interests of the church and its members, he will personally visit as many of the churches in the state as possible before his departure for the east and before the excessively hot weather of the summer.

JOHNSON SCARE BLOWS OVER

Less Than Half a Dozen Counties in Alabama for the Minute.

MONTGOMERY, Ala., May 19.—The returns from the state democratic primaries continue to come in slowly today. Montgomery has received the count in but eleven out of its twenty-two precincts and other cities are similarly slow. At noon today indications are that William J. Bryan has carried the state, though Governor Johnson is giving him a close race.

The Johnson forces piled up a large vote in southern Alabama and they carried perhaps a half dozen counties in the state according to present indications, but not enough to endorse the Minnesota governor. The returns from country districts indicate a Bryan victory.

The returns so far counted indicate beyond doubt that William J. Bryan is the choice of the state democracy for the party nomination for president. The count will not be completed before tonight.

BIRMINGHAM, Ala., May 19.—While the returns from the democratic primaries here yesterday counted slowly, enough is in to figure a majority for William J. Bryan for the state democratic choice. There probably will be less than a half dozen counties to give majorities to Johnson.

PHILADELPHIA, May 19.—William J. Bryan last night delivered an address before the Pennsylvania peace conference. In session in this city, when asked today his views concerning the outcome of the primaries held in Alabama yesterday, where he secured an apparent victory for the control of the national delegation at the Denver convention, said:

"I am glad to see the fight that has been made by my friends in Pennsylvania and in Alabama, for in Alabama they had the steel trust, and in Pennsylvania they had not only the steel trust, but several other trusts. In fact, I do not know of any state in the union where people had so much to overcome as they had in Pennsylvania. The vote which was cast in Pennsylvania yesterday answered the misrepresentations that the eastern papers had made in regard to the election in Pennsylvania and the same may be said of Alabama."

Mr. Bryan addressed the Methodist general conference in Baltimore this afternoon.

MAJOR GEORGE UPON CARPET

Popular Army Officer in Charge of Recruiting Station to Be Court-Martialed.

DES MOINES, Ia., May 19.—Although it is not yet known on what specific charge he is to be tried, the personnel of the court-martial to try Major Charles P. George, one of the most popular officers in the service and a veteran of twenty-five years in the army, has been announced at Fort Des Moines.

Major George is at present the commanding officer of the local army recruiting station. He is a native of New Hampshire and was graduated from the United States naval academy at Annapolis in 1881. In October of 1882 Major George entered the army and was made a second lieutenant in the 10th Cavalry. He was promoted to first lieutenant in the same regiment and in January, 1890, he was promoted to a captain. Later Captain George was made a major which commission he now holds.

A general order has been issued by Brigadier General Charles Morton, commanding the Department of the Missouri, convening a general court-martial at Fort Des Moines on June 1, for the trial of Major C. P. George, U. S. A., retired. Major George is in charge of the recruiting station at Des Moines.

Major George has been in the latter of the Fourth cavalry is the president and Captain H. H. Sargent of the Second cavalry, judge advocates of the court.

SANE, INSANE, SANE, MARRIED

All These Conditions Happen to Iowa University Graduate in Space of Two Months.

CHICAGO, May 19.—Removed from the state insane asylum at Kankakee, adjudged sane by Judge McEwen in the circuit court, proposed to be married within a quarter of an hour thereafter, were the singular incidents experienced yesterday by Mrs. Charles Burnitz, formerly Miss Etta Maxwell, a graduate of the University of Iowa.

Two months ago the young woman became so ill from nervous prostration that her sister, Mrs. M. O. Peterson, of this city, caused her to be sent to a detention hospital for observation. This resulted in her being committed to the asylum.

While standing at the bars she attracted the attention of Ernest Glickman. He engaged an attorney and habeas corpus proceedings were instituted. At the conclusion of the hearing the prothonotary was petitioned to release her. Mrs. Burnitz, her sweetheart, who had learned of her predicament, appeared in court in her behalf, and after her release, suggested that they be married at once. Together they returned to the court and obtained the judges consent. The marriage followed immediately.

Mrs. Burnitz said:

"I was married once before to a wealthy widower at Cambridge, Iowa, just after I was graduated from the state university. I was happily married for a few years, but after two weeks I left him, coming to Chicago. I thought money was everything. I was quickly learned I was wrong. I obtained a divorce and intended to marry Mr. Burnitz when I was sent to the insane asylum. He refused to let me write to him, and during the whole time I was confined he was searching Chicago for me."

MONEY PAID TO MAE WOOD

Testimony She Was Given Large Sum in Settlement of Her Claims.

NEW YORK, May 19.—Mae C. Wood continued her testimony today in her suit for absolute divorce from United States Senator Thomas C. Platt, to whom she alleges she was married in this city in 1902.

Mr. Stanchfield of counsel for Platt conceded his cross-examination of Mae Wood, questioning her about releases which she gave to Abraham H. Hummel, the former lawyer, in 1902, in which she agreed to accept \$50,000 in settlement of her claims against Senator Platt.

Miss Wood declared yesterday that this release was signed under duress, but she said she accepted some of the money. Although Miss Wood had signed the release and declared in an accompanying affidavit that she gave the alleged Platt letters to Hummel as her attorney, she denied today that she retained Hummel as her counsel and declared that she could have obtained \$50,000 for the letters. Miss Wood said today that she was paid \$2,500 for the letters. She did not know where the money came from, she said.

SEVEN FIRES IN FIVE HOURS

Most Serious Burns Sixteen Horses in Mace Barn.

BUILDING HAD BEEN CONDEMNED

Firemen Are Able to Earn Their Wages From Two to Seven O'clock Tuesday Morning Going from Place to Place.

The fire department was on the run continuously Tuesday morning from 2 o'clock until the fire was discovered by C. M. Adams. The fire was discovered by C. M. Adams. The fire was discovered by C. M. Adams. The fire was discovered by C. M. Adams.

The only one of the fires that was serious was that which consumed the livery barn of W. W. Mace, northeast corner Fifteenth and Cass streets. Sixteen horses were burned to death, besides harness and wagons. W. W. Mace estimates his loss at \$3,000, with \$250 insurance. The barn building was owned by William Fleming. It was condemned sometime ago by the city and in consequence of this the insurance companies cancelled the policy last Friday. Mr. Fleming estimates his loss at \$800.

The fire was discovered by C. M. Adams, hostler, who was sleeping in the office of the barn. He awoke just in time to save himself. A water spaniel dog which Mr. Mace has had for ten years was burned to death.

"I am the luckiest man alive," was the astounding statement made by Mr. Mace at the scene of the fire. "If I had occurred thirty days ago I would have lost at least \$10,000. I have been moving my stock to the Palace stables, Seventeenth and Davenport streets, and had removed nearly everything."

Included among the horses burned were six fine work horses valued at \$20 a pair. The residence of Frank Dunn, west of the barn, was completely gutted by the fire, but Mr. Dunn, his son and their three roomers escaped. The home of Joe Marino, just north of the barn, was badly scorched, though all the house furniture was saved.

Another Barn Catches. Simultaneous with this fire a barn on the premises of the Bloom, Fleming mill, Fifteenth and California streets, just one block north, burst into flames and a part of the department which responded to the alarm was kept with this blaze.

These two fires were extinguished and the firemen were just starting for home at 9:30, when another blaze broke out in the basement of the Uneda restaurant, 1317 Capitol avenue. Ashes, it is supposed, started this fire. The damage was about \$50.

At the same time as the Uneda restaurant fire an empty barn in the rear of 1415 Jones street burst into flames and was consumed in a few minutes.

Just as the firemen were about to leave this fire, at 4:30 a. m., flames shot up from a point on Leavenworth street between Thirtieth and Fourteenth streets in the alley. Someone evidently had set fire to several barrels filled with excelsior and only prompt action saved the surrounding structures.

With this it seemed work for the night was over and the firemen returned home. Chief Salter had tumbled into bed and Assistant Chief Simpson had just removed one boot, when the fire gong clanged once more and they rushed out again, to find a fire at Seventeenth and Jackson streets blazing.

Fire, supposed to have been started by mice and matches, in the home of James Brophy, 362 Leavenworth street, did about \$50 damage early Monday evening.

GERM OF PARESIS DISCOVERED

Dr. D. O'Brien of Ohio State Hospital Claims He Can Cure Softening of Brain.

MARSHILLON, O., May 19.—In the laboratory of the State hospital, Massillon, Dr. D. O'Brien today claimed the germ of paresis he had discovered in the American Medical Physiological association's convention at Cincinnati, that he had discovered the germ of paresis, and that the disease is curable. He summed up the result of his experiments in these two declarations:

"That paresis undoubtedly is a germ disease and the germ has been discovered; that while in the experimental stage, sufficient tests have been made to show that paresis is curable and that he has specific cases to point to as definite results."

Dr. O'Brien does not believe it would be proper to make public the specific cases in which he claims the treatment has cured, but he gives the specific cases as a newspaper man of Washington, who was treated for the disease, and is again at work, a cured man; a civil engineer of prominence in Nashville, Tenn., who is cured and at work, besides a number of people who he claims were brought to the hospital with serious forms of the disease and cured. Others who are now at the hospital under treatment are showing marked progress toward recovery.

CORN SELLS THREE CENTS UP

Bulk of Grain in Hands of One Dealer in Chicago—Season's Record 70 Cents.

CHICAGO, May 19.—May corn sold up 3 cents today in the early hours of trading, chiefly because of the active demand by shorts for grain to deliver on their May contracts. The bulk of the grain was in the hands of James A. Patton, and not much of it was for sale. The closing price yesterday was 75 cents, and in a short time after the opening today it had touched 78 cents. This constitutes a new high record for the season, and is not the highest ever reached, corn having several times sold at 81 and over on the local board of trade.

LIVELY TIME IN PENNSYLVANIA

Gathering of Democrats Wednesday Will Bring a Time Over Bryan's Resolutions.

HARRISBURG, Pa., May 19.—With both the Bryan and anti-Bryan forces claiming control of a majority of the delegates to tomorrow's democratic state convention the gathering promises to be one of the liveliest ever in the history of the party in this state. The Bryan supporters are demanding that the convention instruct the four delegates-at-large to the Denver convention to vote for Bryan's nomination for the presidency.

PRAY WHILE APPLYING TORCH

Night Hiders' Leader, with Masked Face, Asks Blessing Upon Work of Hand.

LA CENTER, Ky., May 8.—Kneeling on the ground in the moonlight, while their leader, his masked face turned toward heaven, offered prayer, a band of night riders last night destroyed the big tobacco barn of H. G. Madcox, not far from this place.

TAYLOR MAKES MAIDEN SPEECH

Former Governor of Tennessee Addresses Senate on Republican Party and Policies.

WASHINGTON, May 19.—Senator Robert L. Taylor of Tennessee delivered his maiden speech in the senate today, his subject being the tariff and currency legislation, which he made entertaining by many striking and humorous references to the policies of the republican party.

He said the republican party, or at least the president, is upholding democratic doctrine and he called upon the party to put the same in the planks of the Chicago platform. He criticized the trusts and charged the republicans with fathering them.

"Have not," he asked in conclusion, "the policies of party in power dragged the country to awful depths, when the president finds it necessary to warn both houses that the republic is in danger of being overthrown by the machinations of concentrated wealth, which is the legitimate result of republican policies? It is not time for the country to wake when we are admonished by a republican president to put the bit in the mouth of centralized corporate power to prevent it from trampling under its hoofs all that is left of liberty and free government?"

OTHERS MAY BE PROSECUTED

United States Attorney Will Investigate Big Loss in Pittsburgh

PITTSBURGH, May 19.—Robert Lyons, appointed receiver of the Allegheny National bank by the comptroller of the currency, today took charge. He was unable to say how long it would be before he would be able to make a report to the comptroller of the currency.

Bank Examiner Folde said he would be relieved of any further connection with the bank and would take up his regular work of examining other banks.

"It seems very strange that all this looting of the bank could have been carried on so long without being noticed by someone besides the cashier, knowing it," said United States Attorney Dunkel today.

"That this large sum of money, and that these securities which are missing should have been taken by Montgomery without the knowledge of anyone else is strange, to say the least. There has been no information brought to me which would result in charges against others, but that matter will be fully investigated and if there is anything to warrant prosecutions of others I will use such information and they will be made."

SON MURDERS AGED FATHER

Announcement that He Would Remarry Causes Boy to Kill His Parent.

NEW YORK, May 19.—Because he was to be married again, George Sterry, 72 years old, was shot and killed today by his son, George Sterry, Jr. The younger man committed suicide. The father was a member of the large wholesale drug firm of Weaver & Sterry. He was engaged to be married to a young school teacher.
