STATE WITHOUT A PARTY. Old Distinctions in Oregon Destroyed

by New Election Laws.

Portland Orgonian. Party lines have been virtually obliterated in Oregon. For years there has been a tendency in that direction; and the primary law and insistence on statement No I have about completed the dissolution of the republican party; while the democratic party already had become so weak that it had virtually ceased to live as a party, and by republican factions to beat out the

From two-thirds to three-fourths of the voters of the state are registered as republicans; but that fact signifies little or nothing. It doesn't mean that all electors so registered intend to vote for republican candidates. The past, for years, has proved tion of a southern political regime yet been exactly defined, its existence crais, because it has seemed to them that it would be absurd, since there was no democratic party. Hence they have registered as republicans, but with no intention of voting for republican candidates for any of the offices over which there might be a contest.

The fashion of the day now is to rec body to run for office in Oregon as a republican; especially for an important office The interpretation given generally to the

GOVERNORS AT WASHINGTON.

How the Western Executives Looked Through Eastern Spectacles.

Washington correspondents of eastern papers have definitely discarded a moldy discriptive phrase that has been in steady tury. In all the descriptions of the scenes at the conference of governors not one rings in "the wild and wooly west," whose executives and representatives bore away much of the honors of the historic as semblage. The New York Herald of Sunday devotes a page to pictures and de scriptions of the incidents, particularly the peculiarities of the governors evidenced by dress, oratory and movement. sketches of the governors of the midle west follow:

Nebraska's governor, G. L. Sheldon, al though a republican, clung close by the side of Mr. Bryan all through the conference. If Governor Sheldon did not wear his hair so long he and not Governor Higgins would have been pointed out as the "baby governor," but his black locks flow gracefully to his shoulders and then turn up in a roll like that which at once adorns and obscures the back of the neck of William Jennings Bryan. The Nebraska executive plainly had "stage fright" when he ascended the dias and stood by the side of President Roosevelt to sound loud the Ultimately it will be found, as Arkansas has seven congressmen, shippers very largely, because the rate a railroad journey from the Pacific coast back to Lincoln, and he insisted upon describing the glories of the scenery through which he passed. His language was flow-

The president watched him closely for his steady gaze from Nebraska's governor, not in contempt but in pity, for it the most dangerous ground of oratorythat of florid description that had not been he was going to "fall down." Judge George Gray, another of the democratic candidates for president who attended every session of the conference, was every whit as sym better understood than he ever was pathetic with Governor Sheldon as was the president, but being less bardened with responsibility he was freer with his tongue. "His wings are weakening, and when he falls he'll be hurt," Judge Gray whispered

> the air. Byt when Nebraska's governor reached the earth again from which he had taken such sudden flight he settled down to real business and made a speech that was more liberally applauded than probably it might have been had he not attempted his

hazardous flight.

continued bravely to flutter around high in

Governor Folk of Missouri, though not the senior of Governor Higgins, looks nearly twenty years older. Governor Folk has lost the debonnair air that distinguished him when he was last east, only a now grave and solemn. Moreover, his clothes don't fit as well as they used to, There is now about the cut of his coat and trousers a noticeable looseness and "bagginess" that reminds one of William Jenning Bryan's manner of dressing. It may be that it is his raiment that adds appar-Chautauqua circuit. That sounds like young governor. Some of his friends say open defiance of the "Society for the that he has so profoundly studied the character, achievements and methods of Mr. Bryan since the report gained currency that Mr. Bryan favored the Missourian above all others-except himself, of course -for the democratic presidential nominacouple of days after the theaters had tion this year that Governor Folk unconsciously has adopted the Bryan style of

Governor Folk probably strove harder than any other member of the conference to individualize himself. He worked as hard almost as President Roosevelt, and had the hardshood to undersake the organization of a revolt to the president's of Mr. Sunday, who is affectionately All quivering with fears, and wedged him in a pew in church. returns to put the final crimps in the fa- ganization of a revolt to the president's of Mr. Sunday, who is affectionately The Missourian took the lead in very move that had obviously for its object opposition to the president's absolute mastery of the assemblage's procedure and results, While the country at large may be up over the vice presidency, it doesn't ap- but in the end he was compelled to acknowledge complete defeat and yielded amount to much in the way of a good gaacefully in the closing hour of the conference to the sway of "Rooseveltism," as he previously called it.

A friendship developed at the conference similar to that between the governors of Kentucky and North Carolina was that between Governor Hock of Kansas and Governor Burke of North Dakota.

They "chummed it" around Washington from the hour of their introduction to their departure for the west on different railroads. In the recent election Governor Burke, a democrat, who shows plainly his Irish ancestry, astonished the northwest year amounted only to 124,39?, compared by driving the republicans out of power in North Dakota. "Can I do it the next time?" he said, repeating an inquiry. don't know. But I consider it my duty to try." Which caused his playmate from

"That's the way I look at my own cas out in Kansas. And if Governor Hughes of New York, whom I respect very much, doesn't take the same view of this question in relation to himself, then he's a strange sort of a governor."

"North Dakota," said Governor Burke in a little pop-up speech, "is bounded on the north by the wind-swept plains of Manitobs, on the west by the mountain-ribbed state of Montana, on the south by South Dakota, and on the east by John Johnson.

Governor Johnson was one of the marked figures of the conference from its opening. Even the president paid him particular honor by calling him twice to preside-a distinction bestowed by Mr. Roosevelt upon no one else. The Minnesota executive in physical conformation looks more like an Indian than Swede by decent. Hearty and democratic in manner he strides about as if walking in sandals, and, indeed, his tread is high and careful, like that of an Indian. Until three years ago a country newspaper editor, his friends declare that the presidential bee now buzzing so nois Hy in his bonnet and which dehumanizes its victims to a greater or less extent has changed neither his manner nor view-

He and William Jennings Bryan did not meet often while here, though their casual meetings were marked by outward cordiality. Governor Johnson is neither a ready nor a fluent speaker, and this he says of himself. James J. Hill, one of the world's greatest masters of transportation and accounted one of the shrewdest judges of men, takes pride in Governor Johnson as a typical product of the northwest.

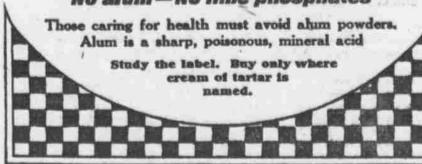

"Keep your eyes on that young governor of ours," he said to Andrew Carnegie while Governor Johnson was presiding over the conference. "He may neither be elected nor nominated for president this year, but he has the essential Lincolnsque quality of sincerity and sympathy. He works all ognize no party ties or obligations. It the time. Keep your eye on him. He is really has become almost absurd for any. young and full of the health of the north-

PERSONAL NOTES.

"The" Allen, the New York gambler, left a big fortune. The question is not as to where he got it, but as to who is to get it.

Dr. Robert Goldbeck, once noted as a planist and composer, died at St. Louis Saturday, aged 73 years. In his youth, in Prussia, Goldbeck was celebrated as a virtuoso.

Fifty years a volunteer fireman, 70 years old, and still in the active ranks, going to fire alarms and fighting fires, is a record not surpassed by any other fireman in Pennsylvania, or possibly in the country; and yet such is the record of George Corl of Harrisburg.

Mrs. Elizabeth Custer intends to build a home for impoverished literary women in a memorial to her husband, who fell in the Little Big Horn fight with the Indians some thirty years ago. Mrs. Custer has recently bought a site for the proposed home in Bronxville, Westchester county, New York. A Scattle millionaire who ran his auto

mobile over a little girl has been found guilty of murder in the second degree. The penalty may be from one to twenty years n the penitentiary and a fine of \$5,000. Evidently the people of Washington have become tired of bein killed to make a speed maniac's holiday. A tablet, commemorating the life and

public service of the late George S. Boutwell, former governor of Massachusetts, congressman, senator and secretary of the treasury, was dedicated at the Groton cemetery late Friday with simple exercises. The memorial is the gift of Andrew Carnegie, General W. A. Bancroft, Moorefield Storey, Albert S. Parsons and John Ritchie.

Those who find the higher education of women unimportant would doubtless discover something rather interesting in the short career of Gervaise Raymond, a brilliant Texas girl who has recently made herself famous in the legal circles of Mexico. She has been engaged in a struggle with the ablest lawyers in Mexico and she has contested every inch of ground with such adroitness and skil in the high est courts of the realm that she has finally won a great victory, which makes her father a millionaire at a time when he was ready to abandon the fight and quit the country without a dollar.

WHAT THE CYCLONE DID.

It struck a man on horseback And lifted him sky-high, Then landed him astride a rail In a pasture land near by,

Where he hadn't been for years.

It carried full a dozen eggs
To a hen that wished to set;
And not a single one was cracked,
They'll all hatch out, you bet!
It snatched the feathers from a hen
And stuck them in a pillow;
It took the town musician's harp
And hung it on a willow. It turned a steeple wrongside out,
And over at Fort Crook
It smashed the mess room dishes up,
And slung them at the cook;
It took the ears of an army mule
And stuck them on Captain Gayso;
The things became him passing well.
But no one dared to say so

A Bellevue man had a trained rat,
To which he was quite devoted;
The cyclone demolished his home and all,
And the rat on the swift gale floated.
When all the clouds had scattered,
And the cyclone ceased its whiri,
They found the rat 'neath the merry
widow hat
Of a Bellevue college girl,

It tied a pink sunbonnet
Round the neck of a mooly cow;
Many have tried to untie the knot, And many are trying now.

It found an entrance through the ear
Of a reporter caught in the rainstorm,
And formed a layer of hot, hot air,
Which later caused a brainstorms

It vanquished one old rooster-They say, who surely know,
That hide nor feather can be found,
There's nothing left but crow;
And that was found on the topmost hir
Of an elm on a Child's Point bluff—
Shall I tell you more of the cyclone,
Or have you had enough?
Omaha.
