PLANS FOR NEW MILK DEPOT

Lessening of Grade and New Building at Union Station.

COMMISSION MEETS OFFICIALS

Conference of State Officers and Representatives of the Railroads is Held at Union Depot in Omaha.

A lengthy conference was held Saturday morning at Union station between representatives of the various railroads which enter there and H. T. Clarke and Dr. J. H. Winnest, state railway commissioner, in reference to the proposed changes at Union station.

lessening of the grade on the runway from the viaduct to the station. This has quite a grade at present, making it difficult for the creamery company to move heavy loads and also making a steep incline for the handling of theatrical and other heavy baggage.

The proposed change in this will do away with most of the grade. The plans contemplate starting the new approach fifty feet further west than the present spot, or just south of the John Deere Plow company building. This will not only give the advantage of a longer runway, but the viaduct also slopes to the north and is several feet lower at the John Deere building than at the present approach, so that with the lower start and the longer runway the incline will not be very steep.

Dimensions of New Building.
The proposed new building for the exclusive use of the creamery interests will be built at the east end of the depot and will make it 130 feet long by twelve feet wide.

with the creamery men Saturday afternoon to see if the proposed changes met with their approval.

The Burlington facilities for handling the creamery business at the Omaha station have also become entirely inadequate and plans have been drawn for a new building for this business exclusively. These plans have been submitted to the vice president for approval and it is thought that as soon as they are approved work will be started on the new building.

COUNTY REFUNDS NO MONEY

Balks at Returning Election Fees Paid by the Independent Telephone Company.

COUNTY HELPS CORN SHOW

Board Probably Will Make Appropriation for National Exhibit.

BIG RETURNS FOR LITTLE MONEY

Commissioners Declare Display to Be Educational in Nature and Capable of Producing Large Returns.

of carloads of seed corn, instead of the usual dozens, have been shipped from the western part of the county. It is an industry the county can well afford to encourage.

Appropriation to Come Later.
The money is wanted to place with a sum to be raised by the Douglas County Agricultural society and the Corn Growers' association to encourage large exhibits of corn from this county. The board will take up the matter of an appropriation later.

The county roads in the town site of Balmston which conflict with the roads now being laid out by the Balmston townsite company were all vacated by action of the board.

The townsite company in return promises to reconstruct all macadamized roads it is necessary to change and has given a bond to carry out the work in a proper manner.

The street railway company has asked the right to lay a double track on Dodge street between Forty-ninth and Fifty-first streets. The resolution introduced by Trainor was laid over by request.

FINE FOR NO LICENSE GOES

Judge Crawford's Penalty is Sustained by District Court.

Holding the ordinance requiring a license fee for vehicles used by transfer company is valid, Judge Sears Saturday morning sustained Police Judge Crawford, who fined J. McCauley and W. A. Gordon \$25 each for failing to take out a license. The defendants asserted the ordinance was bad because, they said, a man cannot be fined or imprisoned for nonpayment of taxes. They held to do so would be a violation of the constitutional provision against imprisonment for debt. The supreme court in a recent case held that a tax is not a debt in the sense used in the constitution and that city councils can attach fines and imprisonment as penalties for its nonpayment.

BURLINGTON WINS ON MOST

Gets Judgment on Six of Seven Counts in Twenty-Eight-Hour Law Cases.

The jury in the cases against the Burlington railroad for violation of the twenty-eight-hour law brought in a sealed verdict in the United States district court Saturday morning which gave judgment on six counts for the railroad company and on three counterfeited cases for which indictments were recently brought in that division by the federal grand jury.

MILWAUKEE MAN LOSES CASH

John Bohman Robbed of \$460 and Draft for \$1,500 by Colored Woman.

Because he listened to the endearing talk of a colored courtesan near Fourteenth and Capitol avenues Friday night, John Bohman of Milwaukee, a visitor in the city, is loser to the extent of \$460 in cash and a draft for \$1,500 which were in a pocketbook in his hip pocket and which was extracted by the colored woman whom he met in a darkened doorway. Bohman reported his loss to the police, but was unable to give any description of the woman.
