Westenders Want Car Loop. The West Council Bluffs Improvement club has renewed the agitation for a street car loop connecting the Omaha lines on Avenue A with the Fifth avenue or Union Pacific transfer line at Twenty-first street, The club has, in a formal communication to the company, made the request that a line be built on the six blocks from Avenue A to Fifth avenue on Twenty-first street. Such a connecting link, it is argued, would serve to give the people of the western part of the city a line to the Union Pacific transfer depot without compelling them to make the trip around through the business

(From a Staff Correspondent.) DES MOINES, May 26 .- (Special.)-Five thousand old time railroad men, including

railroad presidents and railroad brakemen who were in the business twenty years ago, are expected to reach Des Moines by tomorrow morning. It is the reunion of old time railroad men of Iowa and is the first

of its kind in the country, Many of the men who were in the business twenty years ago are now presidents of roads, superintendents, train masters and the like. All formality is to be laid aside and a good old-fashioned reunion will be had.

Among the attendants at the reunion will be Robert Glvin, purchasing agent for the Missouri, Kansas & Texas road, who was conductor of the first freight train that

pulled into Des Moines. Another will be Mathias Teneyck, the oldest locomotive engineer still in the service. Though he is past 70 he is still holding the lever on an engine on the Rock

Island. Four Des Moines men, who are superintendents of four divisions of the Rock Is-75 land road, are here. They are: A. B. Copley of the Louisiana division, C. L. Brown of the Nebraska division, C. W. Jones of the Iowa division and W. H. Givin of the Des

MISSOURI MAN KILLED BY CARS

Both Legs Cut Off and Dies at Hospital Three Hours After the Accident.

A man about 45 years old, believed to be J. B. Preston of Williamsburg, Mo., had both legs badly mangled and cut off be tween he knee and ankle Monday night about 9:30 by being knocked down and run over by a string of freight cars in the railroad yards at Eighth and Jones street and died from he effects of the shock at the hospital three hours later. The man is thought to have stepped in front of a string of freight cars which were being backed onto a sidetrack by a Union Pacific switch engine. The accident was not noticed by any of the switching crew until the train had moved onto another track, when J. T. Cunningham, in charge of the crew, heard groans coming from the track the train had left. Upon investigation he discovered Preston lying across the track with both legs cut off, and in a delirious condition Police Surgeons Harris and Fitzgibbons were hurrled to the scene and the injured man taken to he Omaha General hospital in the police ambulance. Everything possible was done to relieve him, but he died about 12:30.

Your Oven Isn't Hot

A fierce heat is required to make beans digestible; you can't apply it

It is simply impossible to bake beans at home, and bake them as they should be baked. You lack the facilities. Home-baked beans are heavy and hard to digest, because

of insufficient heat. You fail to break down their fibre.

Let us bake for you. We bake in live steam, and our ovens are heated to 245 degrees. The result is, our beaus are digestible.

That nutty flavor and that sparkling zest are found in Van Camp's alone

The nutty flavor comes from using only the plumpest, ripest beans. It is also due to baking without bursting.

The piquant tang comes from vine-ripened tomatoes. Our sauce costs us five times what some sauce is sold for. The delicious blend comes from baking the beans, the tomato sauce and the pork for 90 minutes together.

Van Camp's pork and beans baked with tomato sauce

Baking beans at home is a bother. It takes too much time. That is why you don't serve them frequently.

Van Camp's are always ready. Put the can in hot water, then open, and you have a delicious meal steaming hot.

You will eat more beans when you know Van Camp's. First, because they're convenient. Second, because they're so good.

Beans are 84 per cent nutriment; yet see how many you get for ten cents

Beans and meat have about the same food value, but look at the difference in cost. Suppose your people ate beans once a day-think what you would save.

Why not tempt them with beans which are as good as beans can be? Then note how soon they ask for more. They will like Van Camp's better than meat.

NEARLY every time the postman makes a delivery to The Bee Office he has a big bundle of letters for the classified adver tisers.

When you want to buy or sell; when you want an employe, or when you want a position, you can advertise without having it known all over town. You can have the answers to your advertisement delivered to The Bee Office, and nobody will know who is advertising until you want to let them know.

You'd be surprised to know how many people avail themselves of the convenience of The Bee Office. Last week a widow, quite prominent in social circles, decided that she wanted to rent one of the rooms in her spacious house. Of course, she didn't want the whole town to know that she was taking in boarders. She placed a little WANT AD in THE BEE, and had the people who wanted that kind of a room send their letters in care of THE BEE OFFICE. She called, received the letters, and answered the ones that looked right to her. Today she has a boarder, and her neighbors don't even know that she advertised.
