VALUES EASE ON SHORT SUPPORT

Wheat Opens Unsteady, but Firms on Better Cash Demand and Closing Values Are Strong-Range of Prices,

CMAHA, May E. 1998.

The specularive market was some quieter today after the heavy spurt yesterday and values while they were well sustained became some easier on a lack of support.

Opinions differ widely on the amount of real crop damage, while expert advices are very favorable for the coming harvest.

Wheat opened unsteady, but firmed on a better cash demand and closing values were strong.

Cables were disappointing, but the short interest covered readily on all bulges and offset any reaction. May wheat opened at 2000c.

Corn was extremely dull, with no feature or support after the rally at yesterday's close. The cash market was not active and values were the same as yesterday. Prices railled strongly near the close, with the market mersons. May corn opened at 2000c and closed at 200.

Primary wheat receipts were 412,000 bushels and clusted at 500.

Primary wheat receipts were 412,000 bushels and shipments 277,000 bushels and shipments 277,000 bushels and shipments 350,000 bushe OMAHA, May E, 198.

CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing Prices on Board of Trade. CHICAGO, May 27.-The grain markets on

local exchange were irregular today, the May deliveries being strong and the more may deliveries being strong and the more distant options weak. A new high record mark for the present May option in corn was made at sic. At the close May corn was like higher with July unchanged. Wheat for July delivery was off 1/6. Cats were 1/6 higher. Provisions were 1/6 higher. The wheat market opened weak because

was lage higher with July unchanged, wheat for July delivery was off ig. Oats were lage higher. Provisions were lighting the wheat market opened weak because of the failure of European markets to respond to resterday's advance here. Shorts in the May delivery took advantage of the small decline and began to cover freely, which caused the price of that option to advance from \$1.04 to \$1.06 within the first fifteen minutes. The later market became strong because of the bulge in May corn. At the close the May option was strong and other deliveries about steady. July opened &c to %c lower at \$2%c to \$2.3c, sold at \$2%c and \$1.06 at the high point. Clearances of wheat and flour were equal to \$6000 bu. Frimary receipts were \$1.00 bu., against \$36.000 bu. on the same last year Alineapoois. Duluth and Chicago reported receipts of 150 cars against 145 cars last week and \$26 cars aga

Corn was weak early in the day on selling by longs, but later railied sharply on active covering by shorts. The market in the latter haif of the day was governed mainly by the congestion in the May delivery which resulted in an advance of that option to Sic, a new high price for the year. The market closed strong, July opened to the close was at 60 to 60 to

SO cars.

Provisions were easy early in the day but railled later along with grain. At the close July pork was up 2%c at \$12.77%, Lard and ribs were each up 2%c at \$8.57% and \$7.45 respectively.

Estimated receipts for tomorrow are: Wheat, 25 cars; corn, 257 cars; cats, 129 cars; hogs, 25.600 head.

First Crop of Alfalfa is Ready to Cut

-Fruit in Eastern Nebranka Will Be Rather Plentiful. Corn is practically all planted in Nebrasks and the early planting is out of the ground and doing well, according to the op and soil report of the Burlington. Or

the low ground on some parts of the Wymore division the seed has been washed to the surface, but on the whole corn has a most favorable start. Reports are all favorable concerning winter wheat and on the southeastern part of the Wymore division wheat is practice ally all headed and heading is more or less Cattle Steady-Hogs Steady to Strong advanced on all parts of the Lincoln and Wymore divisions. On the McCook division wheat did fairly well during the week,

but would have done better with more rain. All spring grain, of which oats is the most important, is doing well.

The first crop of alfalfa is about ready to cut. It will be a little short in some places

owing to the frost. In the eastern part of Nebrasks there will be considerable fruit, much more than seemed possible during the week of frosts some time ago.

Farmers anticipate a full crop of wheat on the Sterling division in Wyoming, where the wheat is from four to seven inches

firm prices as compared with yesterday. The common to medium kinds were no better than steady. Good bulls are selling considerably lower than they were a short time ago, but it is a noticeable fact that the commoner grades such as are known on the market as Bologna bulls were in good demand and were selling closer than usual to the best grades.

There were no stockers or feeders in the yards this morning, but the feeling was about steady.
