RATE HEARING CONCLUDED

(Continued from Third Page.)

SEWARD—Ed Birney, a former Seward boy, was killed Saturday at Bedford, Ind., by falling between the cars, which he was coupling, and being crushed to death. He was a conductor.

ALMA—Real estate is moving in Harlan county, several farms having changed hands during the last week. The buyers are mainly from eastern Nebraska, where farms are much higher in price.

DICKENS—This part of Lincoln county was visited by a heavy storm Thursday night, over an inch of hail falling, driven by a high northwest wind that was severe on the gardens and corn. About a half-inch of water also fell.

BEATRICE—Goodrich Encampment No. 61, Independent Order of Odd Fellows, met and elected these officers: O. W. Hoover, chief patriarch; Byron Lawton, senior warden; Warren S. LaSelle, junior warden; W. H. Tripp, high priest.

BROKEN BOW—The Ladies' City Improvement club opened its campaign yesterday by giving a monster dinner and supper at the Temple theater. The proceeds will be used to purchase further beautifying and improving the town.

SCHUYLER—The graduating exercises of the Schuyler High school were held in the Janesek Opera house this evening when the senior class, consisting of five boys and two girls, were presented with their diplomas by Superintendent Amos.

ALMA—The Alma school closed Friday evening, May 29. Owing to the addition of another grade there will be no graduation exercises this year. An entertainment was given by the high school Sunday night for the purpose of raising funds for the school library.

EDGAR—The nineteenth annual commencement of the Edgar High school was held in the opera house last evening. The program consisted of orations by the fourteen graduates, interspersed with instrumental and vocal music, by some of the best talent of Edgar.

BEATRICE—Frank R. Beers, who was recently elected principal of the Kearney High school, yesterday secured a release in order to take the position of principal in the schools here to succeed R. M. Gar-

rett, who resigned to become superintendent of schools at Ashland, Neb.

BEATRICE—The Gage County Sunday school association held its annual convention in the Methodist church yesterday, with a large number of delegates in attendance. H. M. Steidley of Lincoln, general secretary of the Nebraska Sunday School association, was present and had charge of the convention.

EXETER—The continued rains of the last two weeks have greatly hindered the work on the new Auditorium and Wallace & Co's new bank building, also with farm work. There is considerable corn to plant yet, but no large fields. It is estimated that between twelve and fifteen inches of rain has fallen here during the last two weeks.

SCHUYLER—Rain has been falling almost continuously for the last week making the roads almost impassable for travel, and fields impossible to work. These are the first real hard rains this spring, and are welcomed by the farmers, but if it continues as it has been raining, it will make it bad as it will delay the farmers in their work.

EXETER—The annual commencement exercises of the Exeter High school took place this week, with the class sermon Sunday evening by Rev. W. F. Hillier of Lincoln Baptist church. The class play, "The Negatives Make an Affirmative" on Wednesday evening. The graduating address, "A Twentieth Century Republic" was delivered by Hon. C. H. Aldrich of David City.

WAGON—A heavy rain and some hail visited the county this evening. The government rain gauge at the postoffice shows that over seven inches of water has fallen here since the first of May. The corn is in excellent shape and growing fast. The wheat and oat crops are assured and considerable fruit will be gathered in this county.

NEBRASKA CITY—The recent rains have done much damage to the roads and bridges in this county. Many of the large bridges have been washed away, and many of the streams in the southern part of the county were out of their banks yesterday. The loss to this county in roads and bridges will amount to many thousands of dollars. So far a little over nine inches of water has fallen here since the 11th of this month.

WAGON—The twenty-first annual commencement of the Wagon High school occurred this week. Wednes-

day was class day and the class plays "Six Rhapsodies" and "My Lord in Livery" were given both afternoon and evening by members of the club, and crowded houses at the opera house. The commencement exercises were held at the opera house last evening. The twenty-four graduates were seated in a semicircle on the stage with the teachers and president of the Board of Education.

WYMORE—Another heavy rain fell here Wednesday night and did considerable damage. Many cellars about the city have overflowed to a depth of five feet of water in them. A bad wash occurred on the Burlington at Liberty, nine miles east here. Traffic was resumed about noon today. Indian creek has spread over the low lands and is still rising. The Blue river is up about ten feet, but no trouble is anticipated in that direction. There were bad washouts on the Union Pacific near Holmerville, between Blue Springs and Beatrice, and also at Barneston, south of here.

VALENTINE—Reports are coming in as to the damage done by Tuesday evening's storm. The storm approached Valentine from the northwest and the dense cloud of smoke and darkness the day before from an approaching prairie fire. Several small tornadoes whirled and sheds over a lot of ranch country were blown down. Hall fell west of Valentine. The wind blew from the west. According to the local weather bureau the wind attained the velocity of sixty-two miles an hour for three minutes. The storm struck this city at 4:15.

SCHUYLER—The death of Robert Compton occurred in Omaha at the General hospital. He was 28 years of age and is survived by his mother, father, a sister and several brothers. He came home from the mines for a couple of weeks' visit at home, leaving here in the best of health. He went to Omaha, where he fell sick with typhoid fever, and died in a few days. The remains were brought here yesterday. He was a member of Company K at the time of the Spanish-American war.

NEBRASKA CITY—Two years ago L. Wessel's Sons & Co. went to Fremont and purchased the stock of goods of M. Haven and wife, with the good will and lease of their building, paying them therefor, \$28,264 and they continued business there for

over a year and sold out. Now they have filed a suit in the district court here, asking for \$100,000 damages, claiming that Haven, entering into a contract to not engage in business any more in that city, but opened up again in a short time in a building adjoining them. They claim they were damaged to that amount by reason of that act. John C. Watson of this city, has been retained by Mr. Haven to resist the claim.

BEATRICE—The case of the state against Joseph Martin, charged with distributing advertising matter for certain diseases without a license, was discussed yesterday by Judge Ellis in police court. The ordinance provides that anyone who \$500 must be secured for distributing such advertising in the city. The court found in addition to fixing an exorbitant license for such business, it is quite inconsistent in nature, referring to said business as a menace to good public morals and should not be tolerated by any civic corporation. For this reason the case against Martin was dismissed although he was found guilty of the charge against him.

NEBRASKA CITY—Word was received from Plattsmouth last evening, that Judge Thomas P. Morgan, who has been ill at that place for several months, is very low and cannot survive very long. He was a resident of that county for many years and was the publisher of the Palmyra Items for a number of years. Prior to coming to this country from England he was in the English navy and fought in the Crimean war and won two medals for bravery. He also received a medal from the queen for saving the lives of two officers in India, while the fleet was there. His history reads like a story book, for he has traveled around the world several times, and several years ago suffered a stroke of paralysis.

A Break for Liberty from stomach, liver and kidney trouble is made when a 25c box of Dr. King's New Life Pills is bought. For sale by Beaton Drug Co.

GOOD THINGS FOR THE TABLE Now is the Time to Buy Pineapples to Put 'em for Winter Use.

Now is the time to buy pineapples to eat. The Florida crop, which is the last for this year, will not last more than ten days or two weeks longer at most, and certainly will be not cheaper. The fruit is very good and sells from \$2.50 to \$3. a crate, wholesale, or from 5 to 15 cents each, retail.

This week will see about the last of the shipped strawberries for this year. The Missouri crop, which has supplied the local market for the last two weeks, is about exhausted and the rains there have been responsible for the damp, mouldy condition in which the fruit has reached Omaha. The home-grown berries will be in before long, however.

Cheap berries and pineapples have reduced the demand for bananas to an extent that has made that fruit cheaper than usual. Some very fine bananas are selling on the streets and in the stores the price varying according to the quality.

The last of the Florida tomatoes are being sold this week at 75 cents a basket. The Texas crop will be in next week, but it will be high selling at about 75 cents a basket also. New potatoes are getting cheaper and sell this week for \$1.10 a bushel, wholesale. The quality is very much better also.

Green garden stuff of every kind has been plentiful and cheap of late—cheap enough to be within the reach of everyone.

Creamery butter sells for 35 and 25 cents a pound, the package butter bringing the higher price.

Strictly fresh eggs are 20 cents a dozen.

Sunday Dinner Bargains

IOWA vs. GERMS The law in the state of Iowa requires that the milk fed to young live stock shall be pasteurized. Why then, should not you and your children have the same protection? Use ALAMITO PASTEURIZED MILK AND CREAM and be thoroughly protected against disease germs. Delivered early in the morning. Recommended by the Department of Agriculture at Washington, D. C.

HEARST CONTINUES TO GAIN

Count of Eight Precincts Adds Sixty-Eight Votes to His Total.

NEW YORK, May 28.—When today's session of the McClellan-Hearst recount trial was concluded, a total of 41 votes had been added to William R. Hearst's vote in the 1906 majority election. The contents of six boxes were overhauled in the presence of the court and several discrepancies in the official count were brought to light. In one case, while the tally sheet and the official canvass figures were identical, the count of the ballots disclosed 23 more votes for Hearst than had been returned.

This was the greatest gain of the day for the Hearst side, the returns being found correct in two districts and errors which added from two to seven to the Hearst total in four others. The net result of the count for the two days session has been to give the contestant for the majority 68 more votes than he was credited with receiving, eight ballot boxes recounted adding this number to the Hearst total.

Possibility of criminal prosecution was indicated at today's session of the McClellan-Hearst second trial when Justice Lambert called for original tally sheets and summoned the election inspectors who testified to the count of ballots in a box which had just been re-canvassed. This was the third box opened since the recount began by the court and the canvassers disclosed a net gain for Hearst of twenty-three votes over the figures officially reported.

THE PENALTY OF OVERWORK

Work has been man's lot since the creation. But a day of rest should not have its penalty of pain. Why is it then, you ask, that backache so often follows? It is because the modern tendency is to overwork, to tear down faster than nature can rebuild. An unnatural strain is thrown upon the vital organs, and more especially upon the kidneys, which have the work of filtering the blood free of waste and poison.

The heavy tax of overwork—the strain upon the back that is so common to many trades and occupations, is too great. The kidneys begin to fail in their work, and there is a double danger to health. The poisonous matter collects in the system and the kidneys themselves begin to break down.

Pain in the back is only a warning of trouble in the kidneys. An inflammation has set in, and a disordered condition of the urine soon becomes apparent. Too much or too little urine, with a constant desire to void the secretions; any noticeable deviation from the normal color; the appearance of a sandy sediment, prove a disordered condition of the kidneys that needs quick attention.

If your work seems hard for you, if you have a lame, weak or aching back, if you seem tired and listless, and seem to be running down without apparent cause, begin at once with Doan's Kidney Pills, the great kidney remedy that has cured so many of your neighbors. It has given thousands of working men and women strong, sound backs for their daily work.

OMAHA PROOF John Hoefler, 2918 Burdette St., Omaha, Neb., says: "I just as heartily recommend Doan's Kidney Pills today as when they cured me of kidney trouble in 1898. At that time I was bothered by a steady, dull ache across the kidneys, especially severe when I stooped or lifted. I used remedy after remedy but obtained no relief and was at a loss to know how to dispose of my trouble. I at last started taking Doan's Kidney Pills and the prompt relief I received induced me to continue their use. They soon disposed of my suffering entirely and there has never been a symptom of it since. I occasionally take a few doses of Doan's Kidney Pills as they serve to keep my kidneys in good working order."
