## COURT EDICTS CAUSE FEAR

**Conflict in Decisions on Stock Yards as Common Carriers.**

**COMMISSION MEN ARE ALARMED**

Apprehensive that Effect of This Conflict in Court Rulings May Injure South Omaha Market.  
The live stock commission men at South Omaha are discussing with apprehension some of the conflicting decisions of federal and state courts which they fear may have an injurious effect on the local market. The supreme court of Nebraska recently held that the Union Stock Yards company of South Omaha is a common carrier and liable to all duties and obligations as such, while the federal court at St. Louis has just ruled that the Union Stock Yards company of South Omaha is not a common carrier in a case brought under the twenty-eight-hour law.

## MAY CITY PAY ROLL HIGH

Month Calls for Total of Fifty-Five Thousand Dollars, Mostly for Public Works.

It cost \$55,000 to pay the salaries and wages of the city of Omaha for the month of May. The public works department got the largest slice, with the fire department next. The library comes in for the smallest share. These are the figures for the month, as compiled in the office of the city comptroller:

Public works department.....\$18,649.19  
Fire department.....12,877.50  
Salaries of officials and clerks.....8,811.30  
Police department.....9,807.50  
Street cleaning department.....4,831.48  
Parks.....2,983.64  
Library.....1,098.53  
Total.....\$55,000.10

"May is about the heaviest month we have in the way of expense," says Otto Wolfe, bookkeeper in the comptroller's office, "and the schedule of expenses for this month should not be taken as a criterion for other months. May is by no means an average month. Public improvements in the way of sewer construction and paving repairing are always prominent at this season of the year. Street cleaning, too, makes a heavier drain on the city treasury at this time. The fire department now draws nearly twice what it formerly did, as since the last legislature we have a day and night shift, instead of one shift, and compelling the fire ladders to sleep in the engine houses."

**Dangerous Surgery**  
In the abdominal region is prevented by the use of Dr. King's New Life Pills, the painless purifier. 50c. For sale by Beaton Drug Co.

## GOOD MONTH FOR BUILDING

May Shows Fine Record as Compared with That of Boom Last Year.

The amount of building during the month of May, 1908, fell short less than \$50,000 of the amount during the same month last year, as shown by the records in the office of the city building inspector. The record for May this year shows 168 permits for buildings costing \$301,725.

The last permit taken out in May, 1908, was by I. Iden & Sons for alterations and repairs for their cracker factory at 1301-1315 Jones street. The alterations and repairs will cost \$5,000. Other permits issued on the last business day of the month are as follows: Prairie Trust company, four frame dwellings at Twenty-seventh street and Fowler avenue, each to cost \$2,500; M. S. Hartman, Twenty-eighth avenue and Bristol street, frame dwelling, \$2,800; Margaret Foster, 1323 Pinkney street, frame dwelling, \$2,500; W. G. Graham, 3119 North Twenty-second street, frame dwelling, \$1,800.

## EMPLOYEES FEAR CUT RATES

Railroad Workmen Say Further Reductions Mean Big Loss to Them.

M. R. Douglas, an engineer in the employ of the Union Pacific, at North Platte, who has been before the State Railway commission for the last two days, protesting against any further reduction in railroad rates, in behalf of the employees of the road and also the Commercial club of North Platte, was in Omaha, Saturday. "We don't want any further reductions," said Mr. Douglas. "If the rates are cut the railroads will have to economize by either letting out more men or by cutting wages and we want neither."

"North Platte is most prosperous and we have not a vacant store nor many idle men. The railroad employees who have

## MRS. BACON HURT IN BUGGY

Wife of Physician Falls Out of Vehicle and is Severely Bruised.

Mrs. Frederick Bacon, wife of Dr. Bacon, 230 South Central boulevard, narrowly escaped serious injury in an accident about 9:30 Saturday morning when the wheel to the carriage she was driving came off, throwing her on the pavement. Her principal injuries were bruises on her head and wrist, which, though severe, are not believed to be dangerous.

The accident was caused by a severe wrench of the wheels when Mrs. Bacon tried to turn out of the street car tracks. The axle on the right side of the buggy broke, letting the front corner drop to the pavement. The horse ran half a block, when the other wheel came off and the buggy partly overturned, throwing Mrs. Bacon out. The horse then stopped and was caught by bystanders. Mrs. Bacon was carried into a nearby house and afterward taken home.

A little girl, whose name is not known to Mrs. Bacon, was in the carriage with her at the time. She had begged a ride shortly before the accident and after Mrs. Bacon had been thrown from the buggy she crawled out and disappeared. The girl was not hurt.

The accident happened at almost the exact spot where a similar accident happened to C. D. Hutchinson Thursday.

Johnson's Brainiac is an ideal spring tonic. At all dealers.

**Woman Kills Girl's Assistant.**  
NEW YORK, May 30.—Declaring that John M. Lewis had committed a crime, Mrs. Teresa Phillips shot and instantly killed him in Brooklyn today. She was arrested.

## MEHUGH FOR EIGHT ROADS

Omaha Attorney Retained by Railroads in Case at Chicago.

**POWER UNDER HEPBURN ACT**

Issue to Be Determined in How Far Court May Go in Setting Aside Order of the Interstate Commerce Commission.

Questions as to the extent of the powers of the courts under the Hepburn interstate commerce act to review and set aside the order and decrees of the Interstate Commerce Commission, probably will be settled in a suit now pending in the United States circuit court for Minnesota. The case was brought by eight railroads to enjoin the enforcement of an order of the commission reducing the charge now made by railroads for hauling stock from their terminal to the Chicago stock yards from \$2 to \$1 a car. Judge W. D. McHugh of Omaha represented the roads in the hearing at St. Paul, Thursday.

The Chicago stock yards are owned by the stock yards company, which also owns about 30 miles of railroad track which connects the yards with the tracks of the various roads centering in Chicago. None of the roads reaches the stock yards and all stock carried to Chicago by the various roads is hauled by the roads from the

terminal to the stock yards over the tracks of the stock yards company. The railroads impose a charge of \$2 a car for the service.

A complaint was filed before the Interstate Commerce Commission, alleging the terminal charge was too high and the commission entered an order reducing the charge from \$2 to \$1 a car. The order was directed against the Atchison, Topeka & Santa Fe, the Chicago & Alton, the Chicago Great Western, the Chicago, Burlington and Quincy, the Chicago & Northwestern, the Chicago, Rock Island & Pacific, the Illinois Central and the Chicago, Milwaukee & St. Paul.

**McHugh is Retained.**  
Judge McHugh was retained by these eight roads to contest the order of the commission reducing the rates. On behalf of the roads he filed a bill in equity in the United States circuit court for the district of Minnesota, where the Chicago Great Western has its principal operating offices, against the Interstate Commerce commission, the object of which is to procure a decree setting aside and annulling the order of the commission and enjoining its enforcement. In the suit the roads have prayed for an interlocutory order suspending the order and enjoining its operation during the pendency of the suit.

The suit is brought under the amended interstate-commerce act known as the Hepburn law, and by its provision where the attorney general of the United States files in court a certificate that the case is of great importance it becomes the duty of the court to expedite the case and it shall be heard before at least three of the circuit

Judges. Attorney General Bonaparte filed this certificate and the case was heard by Judges Sanborn, Hook and Adams. It was argued on behalf of the commission by L. A. Shaver, the official solicitor for the commission, and S. H. Cowan, attorney for the Cattle Raisers' association of Texas and the Chicago Live Stock exchange, which were the complainants in the proceedings before the commission.

**Decision Before July 1.**  
Upon conclusion of the argument the court announced it would probably be several weeks before the matter could be decided and that an order would be entered suspending the order reducing the rates pending the decision. The court said the decision would be rendered before July 1.

Mr. Shaver thereupon stated that to obviate the necessity of such an order the commission would extend the time in which the order reducing the rate should go into effect to July 1, and Friday the commission made such an order.

Beside the general importance of the case as determining the powers of the court over the acts of the commission under the Hepburn law, the case is of great importance to the railroads, as there are \$50,000 cars of stock delivered every year to the Chicago stock yards.

## DANDELIONS ON YOUR LAWN?

Chase's Knoxweed, the chemical triumph of the age, kills Dandelions, Plantain, Burdock, Thistle, and other noxious weeds. It is a liquid compound, and is put up in containers, with dropper attached, ready for use. A few drops applied in the heart or center of the weed and it dies both top and root. If there are blossoms, prevent them from going to seed by giving them a few drops.

No injury to the grass from using Knoxweed, when applied as directed. No matter how wet or how hot the weather, remember weeds grow just the same, and the more you dig at them, the more they "stool" or spread from the root. Do not let them root all summer and freeze in the ground in winter, only to come up in the spring and multiply. Kill them now and for all time. Knoxweed will positively do all that we claim for it. Medium size package, sufficient for an ordinary sized lawn, 50 cents. One-half gallon \$1.50; gallon \$2.50. Keep this as a reminder and ask your dealer for Knoxweed. If he hasn't got it, give us his name, please, and we will send it to you direct, upon receipt of the price.

Manufactured by **A. C. CHASE CO., Omaha, Neb.**

For sale and GUARANTEED by All Leading Merchants.  
FAXTON & GALLAGHER CO., Omaha, Neb., Exclusive Wholesale Distributors for Nebraska.
