GRAIN AND PRODUCE MARKET

May Congestion Over, There is Little to the Bull Side of Market.

WHEAT HAS STRONG OPENING

Further Strength Developed on Reports of Damage in Missouri—Corn Strong, with Light Receipts.

OMAHA, Neb., June 1, 1908.

With the congestion of May options over there seems very little to the bull side of the market, excepting the wet weather should continue through June and prevent planting and harvesting of the new crops. Values were opened at the closing prices of Friday and with shorts covering and high offerings were boosted higher.

Wheat had a steady opening with prices strong and offerings light. Further strength developed later by reported large decreases in merchants' stock and some real damage reports from Missouri. July wheat opened at 84¼c and closed at 84¼c.

Corn opened strong on light receipts and values were advanced on a strong cash demand and bullish weather reports. With exception to the strong cash market the session was featureless. July option opened at 64c and closed at 65¾c.

Primary wheat receipts were 650,000 bushels and shipments were 368,000 bushels, against receipts last year of 786,00 bushels and shipments of 329,000 bushels.

Corn receipts were 896,000 bushels and shipments were 246,000 bushels, against receipts last year of 1,855,500 bushels and shipments of 396,000 bushels.

Clearances were 16,000 bushels of corn, 5,000 bushels of oats, and wheat and flour equal to 675,000 bushels.

Liverpool closed ½d lower to ¼d higher on wheat and unchanged on corn.

CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing Prices on Board of Trade.

CHICAGO, June 1.—Heavy rains in the southwest and drouth in southern Europe caused strength today in the local wheat market, the July delivery closing at a net gain of ¾@¾c. Corn was up ½c. Oats unchanged. Provisions were 2½@5c higher.

The wheat market was strong all day. The wet weather in Kansas furnished an incentive to buyers at the opening, and as offerings were light, prices were easily advanced. As trading progressed the market was further strengthened by reports repeating former claims of damage by dry weather in southeastern Europe. A bulge in corn also caused bullish sentiment in wheat. There was some reaction late in the day on the profit taking, but the market closed firm. July opened ¼@¾c higher, at 80¾@80¾c, sold at 80¾c, and then advanced to 81½c, and closed at 80¾@80¾c. Clearances of wheat and flour were equal to 675,100 bu. The amount on passage increased 648,000 bu., and the visible supply decreased 1,254,000 bu. Primary receipts, 640,000 bu., against 748,000 bu. on the same day last year. Minneapolis, Duluth and Chicago reported receipts of 501 cars, against 258 last week and 647 cars one year ago.

Further delay by rain to seeding operations caused strength in corn. July opened a shade to ¼@¾c higher, at 67¾@67¾c, sold at 67¾c and then advanced to 68¾c. The close was at 68¼@68¾c. Local receipts, 159 cars, with 58 cars of contract.

Oats were firm in sympathy with wheat and corn. July opened ¼c lower to ¼c higher, at 46¾@46c, sold up to 47¼c and closed at 46¾c. Local receipts, 91 cars.

Trading in provisions was active and the market firm. A 10@15c advance in live hogs and the strength of corn were the chief bullish influences. At the close July pork was up 25@27½c, at $13.12½. Lard was 2½@5c higher, at $8.55@8.57½. Ribs were 5c higher, at $7.42½.

Estimated receipts for tomorrow: Wheat, 17 cars; corn, 240 cars; oats, 241 cars; hogs, 16,000 head.

Leading futures ranged as follows:

WEATHER IN THE GRAIN BELT

Showers Tuesday, After a Night of High Temperature.

OMAHA, June 1, 1908.

The weather continues unsettled, with general showers over the central valleys and throughout the west, and with a trough of low pressure extending from the extreme northwest down over the mountain district, the outlook is favorable for continued unsettled weather, with showers in this vicinity tonight and Tuesday. Lower temperatures have prevailed in the central valleys and west during the last forty-eight hours, but are higher in the northwest this morning, and the weather will be slightly warmer in this vicinity tonight.

Omaha record of temperature and precipitation compared with the corresponding day of the last three years:

	1908.	1907.	1906.	1905.
Minimum temperature	53	50	54	61
Precipitation	.00	.00	.00	.15

Normal temperature for today, 67 degrees.

Deficiency in precipitation since March 1, .95 inch.

Deficiency corresponding period in 1907, 5.82 inches.

Deficiency corresponding period in 1906, 1.08 inches.

L. A. WELSH, Local Forecaster.

Elgin Butter Market.

ELGIN, Ill., June 1.—BUTTER—Firm at 23c. Sales for the week were 868,200 lbs.

NEW YORK STOCKS AND BONDS

Strength of the Market Surpasses Most Hopeful Observers.

HILLS AND HARRIMANS UP

St. Paul, Reading, United States Steel and Amalgamated Copper Also Rise—Close is Buoyant and Active.

NEW YORK, June 1.—The strength of the stock market today, both in its extent and in its character, proved a surprise to the most hopeful observers. The upward course of prices showed a momentum and absence of hesitation that were of convincing effect on those that had been doubtful of the range of prices prevailing. The most conspicuous buying was by brokerage houses, who were the heaviest sellers in the break of last week and who are commonly supposed to represent the financial forces, which were credited with the previous operations for the rise. The inferences as to the personalities supposed to be thus indicated made up the strongest sentimental influence in the day's operations. These operations continued to an overwhelming extent in the Harriman and Hill stocks. St. Paul and Reading, and switched to a slight extent during the day into United States Steel and Amalgamated Copper. So far as any actual new developments were an influence in the market, the enactment of the emergency currency measure and the adjournment were the principal factors.

There was some revision of opinion, evidently as to the scope of the effect of the Wabash-Pittsburg receivership, especially amongst the other Gould properties. The Hill stocks were subject of continued rumors of assumed benefits to accrue from the new Burlington bond sale. Further sales of bond issues to bankers and the progress of subscriptions to issues offered by bankers were a satisfactory index of the opportunities for securing new capital. Gold was engaged in additional amounts for shipment to Europe, and Paris continued to draw gold from the London market, notwithstanding a declining tendency in Paris interest rates. London rates also continued to yield in spite of the demand upon that center. The money market in New York was well, showed undiminished ease. Evidently Berlin is the center, whose exigencies are still to be satisfied, but with promises that they also, will be early. The stock market showed wonderful resiliency at the last, coming up persistently from successive set backs from the early sales to take profits and closing buoyant and furiously active.

Bonds were firm. Total sales par value, $2,356,000. United States bonds were unchanged at call.

Number of sales and quotations on stocks were as follows:
