TOPICS OF THE DAY OF REST

Whit Sunday Will Be Observed by Churches that Keep Festival.

DR. GORST AT FIRST METHODIST

Presiding Elder Will Speak on "Resections on the General Conference," Which He Attended at Baltimore.

Sunday will be Whitsuin day, one of the Christian year. On this day the Catholic and Episcopal churches celebrate the descent of the Holy Spirit on the day of Pentecost It occurs ten days after Holy Thursday, or Ascension day. The reason of the day being called Whitsun day, or Whit Sunday, as it is sometimes spelled is that on this day the newly baptized converts in the early church appeared dressed in white garments during divine service.

The First Methodist Sunday school will observe Children's day Sunday. The following program will be rendered at 10:30

a. m.: Prelude--Mighty Jehova (Donizetti)..... Orchestra Opening Chorus—Hail, All Hail

BENSON WARNED OF CYCLONE Chautauqua Brings Them and Bellevue is Cited as a Case

in Hand. The Benson Chautauqua association has derived considerable amusement from a crank letter received by its secretary pre-

dicting a cyclone in Benson if a chautauqua is held. The letter reads:

OMAHA. Neb., June 2, 1908.—Benson Chautauqua, Benson, Neb.—Dear Sirs: Do not be too anxious about that chautauqua which I see in the papers you are going to have. Believue had a chautauqua last year and had a cyclone this year, so beware and listen to the warning of A FRIEND.

in and about Benson and the distance of the town from any considerable stream or valley, that Benson is immune from cyciones, but the secretary was instructed to confer with Forecaster Weish of the Omaha weather bureau on the subject. The forecaster said:

"No man alive can put his finger on the spot where a cyclone will or will not strike. The Weather bureau makes no at tempt to predict cyclones. The best it can do when cyclonic conditions prevail is to announce that conditions are favorable for a severe and destructive storm. No twister has ever been heralded by predicwriting crank letters. some that I get and you wouldn't be surprised at anything." Lou J. Beauchamp of Hamilton, O., will

appear on the Benson program. Miss Belle Kearney of Flora, Miss., will deliver "Old Days in Dixie Land." "Sunshine" Hawks, W. T. Bundick of Onancock, Va., are also slated. The musical s'de of the chautauqua will be furnished by the King's Daughtern' quartet of Illinois, the Cavenny company and the Carolina Jubilee singers, who have had the distinction of singing in Trinity church, New York City.

Captain "Jack" Crawford, "the post scout of the Sierras," is to visit Omaha in the near future, and will appear at the Benson chautauous, which opens June 19.

June Brides

Are accustomed—as are all other brides—to the granting of their every wish. Anticipate the desires of your bride or bride-to-be and bring her to our salesrooms. Select an instrument from our magnificent stock of 600 high grade pianos-representing the very best of the world's greatest makers.

Make a selection that will beautify that new home of yours and let music occupy the chief place therein-the place of honor where you may rest content after a day's toil and where weary mind and body may be ministered to by the muse of music. If you or your bride

Gold Bond Certificate

are the fortunate owners of a

If the method recommended by Prof. R. SUNDAY CONCERTS AT PARKS from dandelions. The necessity of getting up at 5 a. m. to dig them out at the roots music at Riverview park and George or of giving dandellon parties and inviting friends to help "dig" will no longer annoy

the owners of fine yards. Prof. Fisher has published the prescription and circular letters have been sent to many of those who have made inquiries and stated that they did not like butternot growing in the yard, anyway.

Here is the cure for the pest:

Iron sulphate or copperss as a stray solution for the eradication of dandelions has been tested by several experiment stations in the United States with more or less success. When the spray solution is properly made and applied the dandelions can be killed without injury to blue grass or white clover, except that the leaves of the white clover may be spotted a little by the iron sulphate solution-rarely enough, however, to disfigure a lawn. By Reeping the lawn closely cut and well watered the clover and blue grass will rapidly recover from any injury which might result from the spraying.

An automatic spray pump, of which there are several makes, will give the best results. A pump manufactured by Brande Bros., Chisago, Minn., has been found very convenient in experiments made at this station and is well adapted to lawn spraying. The nozsie should be such that a fine mist can be made, because it large drops of the spray solution fall on the leaves they will run off and no injury to the dandelion leaves will result. When spraying with an automatic spray or hand pump high pressure should be kept at all times, as only then will a fine spray mist be thrown.

One good apray pump will be sufficient for several lawns, as it takes only a short Here is the cure for the pest:

One good spray pump will be sufficient for several lawns, as it takes only a short time to spray a lawn. The spray solution cannot be successfully applied with a cannot be successfully applied with a sprinkling can as the large drops will not stay on the leaves. Spraying should be done on a day when the wind is not blowing, when the grass is dry, and still have the roots in the soil moist enough so the lawn can go a day or two without water, in order to give the spray solution a chance to do its work. If water is applied too soon after spraying the iron sulphats will be washed off and no results will follow.

If seach city in the state would start a ware and listen to the warning of
A FRIEND.

The letter came up before the executive board at its meeting. Members of the board contended that because of the hills or two seasons be almost stamped out in our cities.

out good results will follow: Procure a good spray pump, one that holds about three gallons and can be carried while apraying.

Spray when the leaves are dry and can be kept dry for several hours after spray-

Spray with a fine mist, which can be Chinamen.

done only with a good norsie under high pressure.

Use iron sulphate at the rate of one and a half to two pounds per gallon.

Do not let the solution stand more than three or four hours after mixing.

Strain the solution through a fine sieve or cloth into the spray can so that ne materist will get into the pump to clog it up. Spray about every six weeks, or whenever the dandellons start into growth.

Keep the lawn grass well watered so that the grass can overcome by vigorous growth any damage resulting from the spray solution.

Do not spray more than is necessary to kill the dandelions.
Further information in regard to lawn spraying can be secured by writing the horticultural department of the experiment station at Bozeman.

How Harsh Physic Wrecks the Bowels

Drug Co.

Irritate the skin in any spot frequently and that spot will grow calloused. That is Nature's means of protection. So with the bowels. When you irritate the lining with salts or "pills," the

lining grows hard. That so retards the natural bowel action that you come to need physic

And you need a constantly larger dose because of the calloused bowels. You have the "physic habit."

Cascarets bring the same results gently and naturally-without irritation. They restore the natural bowel func-

tions, so you don't need them long. And the dose never needs increasing. Their effect is the same as the effect of laxative foods—or of exercise.

They act exactly the same as right living would do. If the bowels are already calloused, you

may need two tablets a day for a But, after that, take one at a timewhen you need it.

Cascarets are candy tablets. They are sold by all drugglats, but never in bulk. Be sufe to get the genuine, with CCC on every (ablet. The box is marked like this:
