NORTHWEST BOOSTS ON BREAK

Black Rust is Reported and This Has Its Effect on the Prices, Stimulating Them to Some Extent.

OMAHA, Neb., June 11, 1908.

Grain values started some lower on reports of clearing weather and weak cables. On the break buying was reduced by the strength shown in the northwest where black rust is reported and Minneapolis came with a quiet market. Crop conditions throughout the spring wheat states is reported perfect.

Wheat opened down on weak cables and better weather conditions, but on the break buying steadied. Prices and values were closed at yesterday's figures. July wheat opened at 84c and closed at 84c.

Corn was steady on perfect support, but a few failures were noted. Weather conditions remain the ruling factor and planted corn is in need of cultivation.

Primary wheat receipts were 32,000 bu. and shipments were 22,000 bu. and shipments of 22,000 bu.

PRICE MOVEMENT IS NARROW

Discouragement Over Effect of Cut in Steel Prices is Unquestionable—Bonds Are Heavy

NEW YORK, June 11.—The stock market subsided another degree towards stagnation today.

The sluggish currents of the price movement were the result of total sales for a day or a year past was touching the narrow price movement as there was not held, and the constant fluctuation with the narrow range of movement.

The feeling of discouragement over the effect of the cut in steel prices was unquestionable, the trade authorities being in general agreement that the price reduction was a serious blow to the industry.
