GRAIN AND PRODUCE MARKET quiet at Sa 11d. Futures, steady; July, WEATHER IN THE GRAIN BELT Scattered Demands Give Some Firm- Fate for Saturday After a Warmer Night, Says the Prophet. Futures-Domestic and Export Demands Are Dis-OMAHA. June 13, 1998.

Grain values showed some firmness at the start on good scattered demand and offerings were rather light. General trude was light, however, and whatever strength there is comes from the anticipation of damage from too much moisture, and as little injury has occasioned as yet, and both domestic and export demand is disappointing, values are gradually lowered. Very little pressure existed in any of the futures. Wheat was showing considerable strength early in the session and buying was general. Weather damage has been fairly discounted, however, and prices toward the close were on a lower level, with sentiment generally for a lower market. July wheat opened at \$45c and closed at \$55c. 5.41 Inches. cy corresponding period in 1907, isney corresponding period in 1906, L. A. WELSH, Local Forecaster. Corn and Wheat Region Bulletin. For the twenty-four hours ending at 8 a. n. 75th meridian time, Friday, June 12, July wheat opened at \$45,c and closed at \$75,c.

Corn futures sold higher with wheat at the opening, but with a lower cash market and a lack of demand coupled with an increase in receipts, values were not sustained and weakened at the close. July corn opened at \$45,c and closed at \$45c.

Primary wheat receipts were \$20,000 bu. and shipments were \$14,000 bu. and shipments of \$24,000 bu.

CHICAGO, June 12.—Fresh reports of damage to the new crop by wet weather and insects caused strength today in the local wheat market, July closing at a gain of the Corn was unchanged. Oats were to be higher. Provisions were a shade lower to be higher. Provisions were a shade lower to be higher. The wheat market was strong all day with the exception of a brief period near the middle of the session, when prices declined about to on liberal realising sales. News regarding the growing crop in America was the chief-source of strength and completely offset the weakness of foreign markets. Crop damage reports today very more numerous than at any time during the last month and told of injury to the crop in Illinois and Missouri by wet weather, and in the southwest by rains and Hessian flies. The report of a St. Louis trade journal confirmed to some extent the damage news. Leading bulls led in the buyltog, which was quite general. The market closed strong. July opened will be displayed by the closed at 75%. Glearances of wet was the chief-source of streams of the market of wheat and flour were equal to 72,000 but \$50,000 but, against 43,000 but on the same day last year. The market on strictly good to choice dry-lot cows and helfers, of which very few are coming at the present time, are a little higher in sympathy with the advance in beef cattle. On the other hand grass cows especially those lacking flesh and quality are around Soc lower than last week.

There were only a few scattering herds of stockers and feeders on sale this morning. What there were brought about steady prices. Moncrelife Wyoming cattle which came in late yesterday afternoon sold for feeders at \$5.50. They were good for this season of the year, carrying quite a little fiesh. While the top feeders this week, that is, cattle having flesh and quality, have not shown much change, the general market is 15055c lower, and common, trashy stockers are even worse than that, being in some cases possibly Soc lower.

HOGS-The advance in hog values which started yesterday was continued today, the market this morning showing an advance of fully 16c. The trade was fairly active at the advance noted, so that pretty much everything changed hands to good season in the morning. The hogs sold largely at \$6.555.50, with a top as high as \$6.51.

Today's advance carries the market to a point that is about 15c higher than a week aso and the highest of any day since the last of April.

NEW YORK, June 12 .- Leuns Review of Trade tomorrow will say:

Gains outnumber losses in reports of commercial and industrial activity, business being remarkably well maintained, considering the near approach of the political conventions to which was attributed the dull security market. Unusually good duplicate orders are still received from retail dealers who underestimated current requirements, but wholesale and jobbing departments are chiefly occupied in making preperations for fall and winter trade, about which there is a feeling of confidence. Full returns for May indicate that building permits were only about \$5 per cent less than in the same month in 1907, the best comparison of any month of the year, and anthracite coal production surpasses 6,000,000 tons for the first time on record. frade tomorrow will say:

BRADSTREET'S REVIEW OF TRADE Weather, Crop and Business Reports Display Irregularity.

NEW YORK. June 12 -- Bradstreets tomorrow will say:

Weather, crop and trade reports display irregularity. It has been too wet and cool in the southwest and northwest for best retail trade and crop developments, but éast ofthe Mississippi river conditions have been better and more favorable reports come from the latter sections. In wholesale lines evidences of improvement in fall buying are seen, but purchasers are generally cautious, while sales for immediate shipment are confined to strictly filling-in requirements. Political and crop uncertainties seen likely to influence distant purchases for some time to come, and trade is hardly better than quiet to fair the country over. BOSTON. June 11.—WOOL—The Commercial Bulletin will say tomorrow of the well market. The market is to a transition state, with no great increase in activity and the demand for more limited than reports about the improvement in the conditions of the gords market warrant. Still it can be said that the position of the staple goods is strong with no pressure to sell, as suppoiles are small and advices from the west indicate another shortage in staple in this year's clipping. The shipments of wool from Boston to June 11, inclusive were 6,65 cm pounds, against 12,500.045 for the same time last year.
