

NEWS OF THE BUSY HOME BUILDERS

NO SLACK IN HOME BUILDING

Substantial Growth on Basis of Real Value Insures Investments.

AQUATIC BASIN FOR LAWN

Novel Idea Worked Out for New Home Near Field Club Includes Pond for Water Plants.

Continued business in the realm of the builders of homes in Omaha is the feature of the day. Calmly the builders of homes are going forward with their work and architects, contractors and artisans are occupied to the full extent of their time.

of them seem to have spent all their money on clothes last year and this year are without very fat bank accounts, Omaha is improving in looks and seems to have more money to spend than ever before.

Something different from the common run of building and laying out of grounds to be seen in the yard of a house being

completed near the Field club. It is nothing less than a pool of water in the center of a spacious yard which surrounds the house.

"Outside furnishings are just as important to the beauty of a home as the furniture of the inside of the house," said a young Omaha architect.

Down on the peaceful shores of Lake Cut-Off two cities are growing. As Rome and Carthage vied with each other for glory and greatness upon opposite shores of the Mediterranean sea, so are Bungalow City and the City of Red and Gun club vying one with the other for size and beauty.

\$40,000 STOLEN

This Amount of Bonds of the Independent Telephone Company Stolen from U. S. Grant, Jr., San Diego, Cal.—Statement Made by Telephone Company to Protect the Public from Buying Stolen Property.

Several months ago \$40,000 worth of bonds of the Independent Telephone company of Omaha were stolen from U. S. Grant, Jr., by parties in Los Angeles.

For some time past these bonds have been offered in Omaha at ridiculously low prices, ranging from 65 to 85 cents on the dollar.

This week \$5,000 of these bonds appeared in Kansas City and Omaha parties made an offer for them, not knowing that the title was not good.

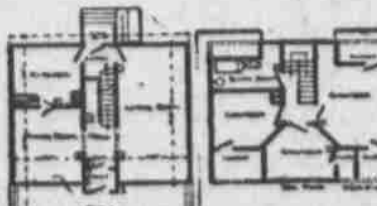

The First National bank has not been sued for any damages, as was stated in the papers and had no knowledge that the bonds were even shipped to them until they arrived.

Among recent wonderful surgical operations is one of most daring and unusual nature. An idiot, 2 years old, the daughter of a resident of Berlin, has been converted into an intelligent being by the process of grafting part of the mother's thyroid gland upon the child's.

COTTAGE PLANS

My monthly building magazine, the Journal of Modern Construction, is devoted largely to the designing and erection of inexpensive homes.

Each number contains the working scale plans of a design consisting of 1/4-inch to the foot, floor plans and all elevations.

FLOOR PLAN OF DESIGN NO. 1. The Blue Print Plans for the series of cottage home I am now running in this paper can be secured through a wonderful \$2.00 subscription offer I am now making to the above magazine.

Miller, Stewart & Beaton's Semi-Annual Clearing Sale

SPECIAL NOTICE!

This sale will continue 12 days only. We take inventory June 29.

Begins Tomorrow

Monday morning at 8 o'clock we will usher in the long-looked for bargain event--Our Semi-Annual Clearing Sale

SPECIAL NOTICE!

During this clearance sale a deposit for 25 per cent is requested on all goods to be held for future delivery. No Goods Sent on Approval.

Nearly our entire stock of Furniture Carpets, Rugs, Lace Curtains and Draperies to be sacrificed. You will find a Red Ticket on everything in the store which is offered at clearance prices and in many instances the reduction is one-half. It is no uncommon thing to be able to save several hundred dollars in furnishing your home.

This sale is sweeping in its character. It affects nearly everything in the store and not merely a few things selected from each department. We have offered nearly everything at a discount, which ranges from 10% to 50%, and in many instances discounts are even greater.

This is by all means the greatest saving event in Omaha's commercial history.

Machinists and woodworkers

Electric motors are particularly applicable for the operation of wood working tools, because such tools as a rule require high speed. Moderate or high speed motors allow the employment of the minimum quantity of belts and countershaft by connecting the tools direct to the motor.
