Itching, disfiguring eruptions, rashes, boils, etc., as well as pimples, blackheads and rough, scaly skin, show the presence of some irritating humor in

the blood. These acids and humors with which the blood is infected are being constantly thrown off through the pores and glands of the skin, and the flesh is kept in an inflamed, diseased and unsightly condition. Nothing applied externally can change the condition of the blood or prevent the outflow of these burning acids; only constitutional treatment can do this. Washes, salves, lotions, etc., cannot reach the humor-laden blood, and are therefore useless, except for the temporary comfort and cleanliness they afford. The acid poison in the blood must be removed before a cure can be effected. S. S. S.

is a real blood purifier, possessing all the requirements necessary to neutralize and remove the humors from the circulation. It completely eradicates every trace of impurity and restores this vital fluid to its natural healthy state. S. S. S. cools the acid-heated blood so that instead of pouring out acrid matter on the skin, it feeds and nourishes it with health-sustaining properties, and then the cruptions and diseases of the skin pass away. Book on Skin Discases and any medical advice free to all who write.
