

HORN WILL CASE DROPPED

Mrs. Sheveller Agrees to Give Up All Property Held by Her.

CRIMINAL CASES MAY FOLLOW

Revelations Made by Daughter-in-Law of Mrs. Sheveller Said to Be Responsible for Latest Turn of Affairs.

(From a Staff Correspondent.) LINCOLN, June 16.—(Special.)—The Horn will case, insofar as the will is concerned, is ended and County Attorney Terrell will at once begin prosecutions against Mrs. Sheveller, the beneficiary of the will, on a charge of larceny as bailed, investigating in the meantime the cause of the death of Mrs. Horn. The will making Mrs. Sheveller the beneficiary was withdrawn this afternoon after a conference between the opposing lawyers and the attorneys for Mrs. Sheveller were allowed \$100. Mrs. Sheveller is to pay the cost of her own witnesses and is to return a sealskin cloak which belonged to Mrs. Horn and which has not yet been located for sure by the attorneys for the contestants.

The withdrawal of the will and the sudden termination of the case was due to a statement made by Mrs. Minnie Sheveller, daughter-in-law of the beneficiary, who told of the money which her mother-in-law had when arrested. The money, she said, belonged to Mrs. Horn. The daughter-in-law made further statements damaging to the beneficiary and the attorneys concluded to quit the fight.

The literary department of the organization is growing. The study of Bible history has been taken up by some of the local councils. Soon the organization will perfect plans whereby there will be placed a financial agent and organizer in the field whose duty will be to solicit subscriptions and donations for Nebraska Wesleyan university and organize a local council in every city and town in the state. One of the great aims of the organization has been embodied in their battle cry, "A membership of 10,000 women who will contribute annually 2 cents a week." Big Buffalo Skull Found.

VALENTINE, Neb., June 16.—(Special.)—While excavating George Cyphers found the skull of a buffalo, a monstrous buffalo with horns attached. The skull measured three feet two inches from the tip of the horns and each horn is one foot four inches in circumference and no doubt a part has crumbled away. The bones are completely petrified and on the broad forehead is a network of holes which local scientists say were probably made by ancient slugs and spearheads and this together with its depth in the ground lead people to believe that it was killed centuries ago. Old timers say it is the largest buffalo head ever seen and it is by far the largest ever uncovered around these parts. Mr. Cyphers has been offered various sums for the skull, but refuses to sell.
