Flees from an Asylum, but is Cap tured and She Congratulates the Officer on His Skill.

"Fainting Bertha" Lebecke is not dead; she did not die as was expected she would, of consumption in an Illinois sanitarium, but is back in the limelight with her old abandon. The most recent news from Bertha is that she escaped from the South Bartonville asylum in Illinois, and, being captured the next day, disguised as a drummer, and in the act of reading the newspaper accounts of her escape.

The local police still take a great in terest in accounts of the career of Bertha. This interest is so deep and so personal that there is a very perceptible tings of resentment toward the police and the citisens of other commonwealths than Nebrasks and other cities than Omaha to which Bertha has turned her attention. She was born in Council Bluffs and she became famous in Omaha. Of course, this feeling is mingled, as the orators say, with a feeling of relief on the part of the police. For Bertha leads them such a merry chase when she is here that they its awake nights worrying about her. Hence the feeling of relief when they know she has gone elsewhere, has sought fresh fields and pastures new. Or, perhaps it would be more proper to speak of Bertha as seeking fresh streams. For Bertha fishes; she fishes for suckers. And she is the best fisherwoman that ever came around these

Who Wouldn't Bite? No native Omahan needs an explanation of her methods. If a young woman of remarkably handsome and refined appearance happened to be standing beside you on the street waiting for a car or watching a parade, and if the handsome and refined young woman suddenly gave a little gasp and swayed, would you not put out your arms willingly to catch that fair and helpless form? Certainly you would. And you would be so absorbed in caring for the sick girl that you wouldn't think of such material things as your diamond stud or your Benjamin Gallagher, Herman Kountze, pocketbook or anything else. And then when the beautiful girl had recovered, had opened her innocent blue eyes and looked wonderingly about her, when you had helped her to her feet and received her land; Wallace, Sarah Bourke, Frances tender smile and her gentle "Thank you so much; I must have been ill," and when she has disappeared in the crewd, then, sh, William Wallace; Mr. L. Motion to Employ John Latenser ac Architect Does Not Come

Preliminary arrangements for the new Mr. and Mrs. J . R. H. Sprague has as her guest the work, a total of 5 per cent, or about her mother and sister, Mrs. R. Ritchie \$10,000. No action was taken on the resolutions and they will come up again at an adjourned meeting this afternoon.

The withdrawal of a proposition for a temporary ja'l, made by the Elizabeth Kountze Real Estate company some time ago, leaves the board up in the air for a plan to house the county criminals while the new court house is being constructed. The only other proposition before the board is one by clients of W. Farnam Smith, who propose to erect a \$15,000 building at Harney and Seventeenth streets, the county to pay a rental of \$3,600 a year for five years, or an \$18,000 building for a five year lease at \$350 a menth. Neither of the proposals struck the board favorably. Ure suggested building a temporary building on one of the streets near the court house and Bruning proposed helping the city build an addition to its jall large enough to house the county prisoners. No action was taken last

The pictures of Washington and Lincoln which adorn the walls of the office of District Clerk Smith are still a bone of contention at the board meetings. Ure moved that Mr. Smith's bill of \$13 for the pictures be allowed, and he and Riggs

oted for allowing it. Bruning and Trainor both voted against it and Kennard passed, so the claim was relegated to the waiting pigeon bole again.
