YOUNG MEN TAKE RE

Burden of Campaign to Follow to Fall on the Young Men. NEBRASKA PLAYS BIG PART

Governor Sheldon, as Head of Delegation, Makes Exceptionally Good Impression on Delegates in Attendance. (From a Staff Correspondent.)

It was essentially a young man's convention, reformation having wrought tremendously to make this possible. Those who were present and directing the party counsels were men whose names have been household words in republican circles from a half to a third of a century.

The young men dominated the great committee of the convention and injected into the platform vitality and progress. Forward sloping the ticket, which will grow in strength as the months roll round to the day of November.

Nebraska Played No Small Part in and out of the convention. The delegation was made up of earnest men, largely young men, who brought to their work intelligence and ardor and it can with truth be said that Nebraska has no fault to find with the way its representatives conducted themselves throughout the deliberations.

Governor Sheldon made a host of new friends by his modest, yet forceful, manner and cemented old friendships, and the vote he received for vice president was a fine tribute to one of the nation's youngest executives.

During the night of Thursday while the conference on vice president was going on Governor Sheldon's name was presented by Senator Burkett, and it was well thought of, the only thing being urged against his nomination being his lack of acquaintance throughout the country.

WASHINGTON, June 20.—The decision of the Interstate Commerce commission in the cases of the Oregon and Washington Lumber Manufacturing association against the Pacific Coast Lumber Manufacturers' association and others against the Northern Pacific and the South Washington Lumber Manufacturing association against the Northern Pacific, the substance of which was announced yesterday, gives interesting details as to the differentials on lumber rates in the western territory.

Rates from the present "Spokane rates" group and from the present "Montana rates" group to points on and west of the Kansas City Southern railway, including all points that now take the same rates as points located on that line between and including Sioux City, Ia., and Kansas City, Mo., should be less than the "coast rates" as prescribed in the cases specified, by differentials beginning at not less than 1 cent per 100 pounds at Buffalo, N. D., Medina, N. D., Edgemont, S. D., Cheyenne, Wyo., and Denver, Colo.

To Points East. Rate from the "Spokane rates" group to points east of the Kansas City Southern line, excluding all points that now take the same rates as any of the points on the same line, including Sioux City, Ia., and Kansas City, Mo., should be less than the "coast rates" as prescribed in the cases specified, by differentials beginning at not less than 1 cent per 100 pounds at Duluth, Minn., transfer, Minneapolis and St. Paul and from the Missouri river crossings to the Mississippi river crossings.

Several Preliminary Conferences. As a matter of fact the real conference did not begin until 12:30. The delay was caused by some interviews which Secretary Taft had with members of the Ohio state central committee and with some friends from other states who had come to Cincinnati to see him.

At these preliminary conferences the whole Ohio situation was discussed carefully. The bearing upon the approaching national convention was considered, and the secretary was urged not to be hasty in announcing his choice of a campaign manager.
