TEHERAN, June 24 .- It has been generally confirmed that the first shot in yesterday's fighting in this city was fired by members of the Anjumans, or political clubs. Soldiers early in the morning had surrounded the Parliament house and demanded that a number of persons whose arrest the shah had ordered be handed over to them forthwith. This demand Parliament refused to comply with and shots were fired at the troops. Artillery was then brought up and bombarded the Parliament buildngs, the halls of which were eventually

One of the interesting papers read before the association was that by Dr. B. Rogers of Manhattan, Kan., on "Tuberculosis," The doctor advocated the tagging of hogs SIOUX FALLS, S. D., June 24.-(Special.) as the beat means of ascertaining whether or not tuberculosis germs exist on a farm, for the hogs receive germs more freely than than any other animal. When the hog is sent to market and is killed tuberculosis germs can be easily discovered if they exist and then by means of the tag the infectious farm can be placed and measures taken to eradicate the disease. The paper stated:

It is an actual and indisputable fact that It is an actual and indisputable fact that if every tuberculous germ that has been given off, or will be given off by the tuberculous people and animals living at the present time could be secured and effectually destroyed or merely be provented from entering a living body, the last death that would or could possibly occur from tuberculosis would be in a person or animal living in the present generation. I have shown it to be within the will power of properly educated juberculous persons to prevent infecting other persons and thus be their brother's keeper rather than destroyer.
