

RAILROADS BUSY IN CANADA

Strong Element in Developing Country, Says Park.

ONE GRAIN TO HAUL IS WHEAT

Irrigation and Immigration Are Playing Their Part in the Progress of This Northern Land.

"We were all impressed with the activity of railroad matters in Manitoba, Alberta and Saskatchewan," said W. L. Park, general superintendent of the Union Pacific, who returned Saturday from an extensive trip with other officials of the operating and engineering departments of the Union Pacific over the transcontinental lines in Canada.

"The Canadian Pacific is building at Calgary an irrigating ditch 10 miles long to water 1,500,000 acres of land. This land was formerly set apart by that company on account of the supposed infertility, but has recently been accepted. The government relinquished alternate sections and the land is now being reclaimed by the company, making a solid body of land in that section of 2,000,000 acres.

"The Canadian Pacific is building at Calgary an irrigating ditch 10 miles long to water 1,500,000 acres of land. This land was formerly set apart by that company on account of the supposed infertility, but has recently been accepted. The government relinquished alternate sections and the land is now being reclaimed by the company, making a solid body of land in that section of 2,000,000 acres.

Long Line of Hotels.

"The Canadian Pacific is conspicuous for the interest it is taking in outside operations, having a line of hotels costing \$2,000,000 to \$2,500,000. The Alexander Hotel and depot at Winnipeg cost \$2,000,000 and the Empress hotel at Victoria cost \$1,000,000. The road is also rectifying the grade in the Canadian Rockies along the Kicking Horse river, where the grade is now 4.5 per cent on the west side, reducing four large mountain engines to push twenty cars a distance of eight miles. This district is being lengthened four and one-half miles under the rectification to reduce the grade to 2.2 per cent. The work includes two tunnels close together on opposite sides of the river, both completely cut into the interior of the mountains with 10 per cent curves and a grade of 1.4 per cent. The portals of each tunnel are close together. The work will cost \$2,000,000. The contemplated work will cost about \$20,000,000 or \$25,000,000 a mile.

Head of Buffalo.

"The Canadian government has at Banim a herd of eighty buffalo, most of which were brought from the United States. There are also 250 bison further north and as the herd increases in size it may mean the perpetuation of the American Bison.

"The cities are showing a rapid growth. Regina, the capital of Saskatchewan in 1900 had 1,400 people and now has 14,000. The government has located here a post of the famous northwest mounted police, why have charge of the park. The country is effected this year by the depression in the United States, especially in the colonization of lands.

"They are developing coal fields along the Grand Trunk Pacific and the government as well as the railroad seem very active in inducing the assisting immigration by very favorable laws and by giving to each settler 1,000 trees and in other ways assisting them to get a foothold."

A Lesson in Health.

Healthy kidneys filter the impurities from the blood, and unless they do this good health is impossible. Foley's Kidney Cure makes sound kidneys and will positively cure all forms of kidney and bladder disease. It strengthens the whole system. For sale by all druggists.

Dry Time is Coming.

MITCHELL, S. D., June 28.—(Special).—Tuesday night will see the end of the open season in Mitchell for a year at least, and the indications point to an exceedingly dry town. The saloon keepers are arranging to open saloons in nearby towns, T. P. Navin, one of the wholesalers, having built a large storage house at Ethan to ship liquors to his customers over the state, and the other five wholesale establishments will arrange to continue their business at other points. Several of the saloon keepers will store their fixtures and will turn their places into billiard halls for the present, in the hope that Mitchell will reverse its future. The city administration will enforce the law to the letter. Cellars are being stocked up with the idea of it being a difficult matter to buy anything in the future.

State Convention in July.

MITCHELL, S. D., June 28.—(Special).—The republican state convention will be held in Mitchell July 14. For the first time in the history of the state it will be one of the quietest that has ever been held, for there is but very little business to be transacted, and the chances are there will not be a very large attendance. Since the state was organized twenty years ago, the republican conventions have been interesting affairs and have been attended with much interest by the leaders and the laymen, anxious to participate in the work of

Hunyadi Janos. Take half glass upon arising in the morning and enjoy good health all day. It is the Best Natural Laxative Water FOR CONSTIPATION. Write for Free Sample. Rogers Coal Mining Co., Peoria, Iowa.

PRESIDENT MAKES SUGGESTIONS

Mrs. Decker Would Drop Household Economics, Leaving It to States. Mrs. May Alden Ward Not a Candidate.

QUIET BEFORE STRESS

(Continued from First Page.)

Intimate friend of Judge Alden S. Parker, who made the race for the presidency four years ago. It is argued in favor of Judge O'Brien that he could bring eastern democrats into the Bryan camp.

"The same claim has been made in behalf of former Governor William L. Douglas of Massachusetts as for Judge O'Brien. Mr. Douglas is a manufacturer who enjoys the confidence of business men in the east.

Another eastern candidate is Archibald McNeill of Bridgeport, Conn., who comes also from the ranks of business men.

Since the refusal of John Mitchell, former president of the United Mine Workers of America, to permit his name to be used as a candidate for the democratic nomination for governor of Illinois, he has been mentioned prominently for the second place on the democratic ticket.

His nomination would be satisfactory to union labor men, it is said. Democratic leaders are inclined to put aside any discussion of the wisdom of nominating a representative of labor, however, until some decision is reached in the matter of inserting in the platform the "injunction" plank advocated by officials of the American Federation of Labor.

Another man from Indiana mentioned in connection with the platform is Representative Benjamin F. Shively. Before a majority of the delegates arrive in Denver it may be expected that many other candidates will be suggested.

All Ready for Delegates.

All things considered the coming convention promises to be better handled and more comfortably conducted than the majority of similar gatherings in the past.

The financial condition of the federation is gratifying. The treasurer, Mrs. Josiah Coyles of Los Angeles, reporting \$9,653 in the treasury. The expenses of the biennial will, of course, have to come out of this.

In her annual address Mrs. Decker made several suggestions that are in touch with the national work as thoroughly practical. It is probable, however, that the adoption of at least one of these suggestions by the convention, that pertaining to household economics, will meet with the most opposition.

Among the conspicuous figures at the convention are Mrs. Julia Ward Howe of Boston and Mrs. D. N. Colby of Dubuque, Iowa, two of the republican pioneers in the women's movement. Both have been made honorary vice presidents of the Federation, and both, in spite of their advanced age, are keenly alert to the problems with which it is dealing.

Mrs. Alden Ward Not a Candidate. One of the following candidates for one of the Boston papers is true, one of the strongest possible candidates for the presidency of the General Federation is removed.

Mrs. May Alden Ward announces, before the convention opens that she is not and has not been a candidate for the presidency of the General Federation.

Mrs. Decker, who is familiar with the able way in which she has administered the household economics department of the Massachusetts federation, feels that she would make an admirable president of the national organization.

With a delegation of 227 Massachusetts women will have an important voice in the election. It is possible, according to gossip in the letters home, that Mrs. Philip Moore of St. Louis will get this support.

A meeting of the Clarkson Memorial Hospital association will be held Wednesday morning, July 1, at 10:30 o'clock in the chapel of Trinity cathedral. The meeting is to be important.

Piano Falls on Man.

SIoux FALLS, S. D., June 28.—(Special).—An accident with fatal results occurred at Wagner, Charles Mix county, the victim being Henry Bucholz, a well known resident of that place. While riding in hand-truck a piano at a railroad depot the truck upon which he was standing was tipped over, throwing the entire weight of the piano upon the unfortunate man.

He is survived by a widow and six children, in addition to other relatives.

Synodical Commission Meets.

SIoux FALLS, Ia., June 28.—(Special).—A meeting of the synodical commission of the diocese of Sioux City was an important feature of the annual retreat of Catholic priests, which was held at Le Mars this week.

The commission includes: Rt. Rev. Mgr. D. C. Leshan of Fort Dodge, vicar general of the diocese; Rev. T. J. McCarty, Sioux City, chancellor; Rev. O. Four-stein, Le Mars; Rev. P. J. O'Connor, Sioux City; Rev. F. X. Brunne, Alton, and Rev. Joseph Kuemper, Carroll. The first meeting of the synod will be held shortly after

(Continued from First Page.)

of duplication of work, both in the district and office and in the general land office in Washington.

A separate series of numbers for each class of entries has been in use at the district land offices, such as the "Homestead series (original)," "Homestead series (final)," "Desert Land series," "Mineral series," etc.

Another important change is in the method of issuing receipts for money paid to receivers. Applicants and entrymen heretofore have been compelled to tender money with their applications and entries, and no receipt would issue until it was determined whether the application or entry could be allowed.

Receipt When Money is Paid. A new form of receipt has been adopted. These receipts are serially numbered, with one series of numbers for all receipts. Press copies are made of all receipts issued, and forwarded to the general land office in Washington.

Blanks for the returns and accounts of local land offices to the general land office have been reduced to a uniform size to accommodate the ordinary size type-writing machines. Heretofore these blanks have been of a large, unwieldy size, which necessitated making them out by pen and ink, and in numerous cases the local offices were compelled to practically suspend business until their monthly and quarterly reports were completed.

Supplies and Filing Systems. Under the new system, local offices and the general land office will be able to identify, and give full information in regard to, any application, entry or receipt.

Prattle of the Youngsters. "I told teacher, pop, that you said she taught you when you was a little boy."

Insurgents Capture Jimenez. EL PASO, Tex., June 28.—Thomas S. Labrador, leader of the Mexican jurta at Lubbock, received telegrams today that the revolutionists had in addition to assault upon Las Vacas, captured Jimenez, a town of 12,000 inhabitants in Coahuila, and that Ciudad Fortino Diaz, a small town across the Rio Grande river from Eagle Pass, Tex., was the objective point of an attack to be made today.
