Chicago Grain and Provisions. Features of the Trading and Closing Prices on Board of Trade.

CHICAGO, July 2.—The continued wet weather in Kansas and Nebraska caused strength today in the grain market.

The wheat market opened strong on an active general demand, but the market was not so strong as yesterday's close.

Sentiment continued bullish throughout the remainder of the day and prices were well maintained, although at times some reactions occurred.

The principal reason for the urgent demand was the unfavorable weather for harvesting in the west.

WAREHOUSE OF SIX STORIES

New Building Will Go Up at Sixteenth and Leavenworth.

JOHN BEKINS IS THE BUILDER

Structure Will Be of Brick and Cost One Hundred and Fifty Thousand Dollars—For Merchandise.

Through the agency of Thomas H. McCague, vice president of the McCague Investment company the Chicago Great Western Railroad company has sold to John Bekins, proprietor of the Omaha Van and Storage company, a large tract immediately south of the Sixteenth property on South sixteenth street.

The new purchaser purposes immediately to begin the construction of a six-story warehouse building on the tract, the building to cover an area of 160x100 feet and to be of absolutely fireproof construction.

The new Bekins warehouse will be the first building of the kind in Omaha to be given over wholly to the storage of merchandise and the credit for getting the warehouse on its tracks belongs to the Great Western road. This is the second large enterprise that the Great Western has secured within the last few weeks.

The most recent transaction being the securing of a new coal market building on its great terminal elevator track. The deed conveying the realty to Mr. Bekins recites a consideration of \$150,000.

John Bekins and his brothers have a system of warehouses in Sioux City, Chicago, San Francisco, Los Angeles, and other cities.

Two More Warehouses. July starts off with several good-sized building permits, two of these being for warehouses to cost \$300,000, but \$150,000 worth of the entire building record for the month of June just closed.

The John Deere Building company will build two warehouses at Ninth and Harvey streets, one on the southwest corner and the other on the northwest corner. Above the first story each building will be joined, leaving an airway between them.

Other building permits taken out the first two days of July were: R. M. Grogan, Thirty-sixth street and Grand avenue, frame dwelling, \$10,000.
