A Lazy Liver

May be only a tired liver, or a starved liver. It would be a stupid as well as savage thing to beat a weary or starved man because he lagged in his work. So in treating the lagging, torpid liver it is a great mistake to lash it with strong drastic drugs. A torpid liver is but an indication of an ill-nourished, enfeebled body whose organs are weary with over art with the stemach and allied digestion and nutrition. Put working order and see how cour liver will become active. reo's Golden Medical Discovery has made many marvelous cures of "liver trouble" by its wonderful control of the organs of digestion and nutrition. It restores the normal activity of the stomach, increases the secretions of the blood-making glands, cleanses the system from poisonous accumulations, and so relieves the liver of the burdens imposed upon it by the defection of other organs.

Frank Kruse, who lost one eye and had his head badly cut by the explosion of some loose powder in can, is resting easily, but will lose the Numerous Luncheons and Porch Parsight of one eye. Dr. Schleier is in hopes of saving the eyes of the 6-year-old son of George Schultz, who was burned by the explosion of some powder in a can. At first it was feared he might lose the sight of both eyes. No reports of threatened lockjaw have been received from any of the persons who were injured.
