Speculative Corn Market Proven Weak as Result of Bearish Feeling Due to Government Reports.

OMAHA, July 2, 1998.

Damaging reports from foreign markets and particularly from Russia and extreme hot weather in the northwest, became a bases for a bull furor in the wheat bit, causing good buying with few and scattered offerings. The speculative corn market proved weak, owing to the bearish feeling induced by the first government report. Wheat was steady at closing values, but because nervous and fluctuated easily on all weather advices. Reports of very hot, dry weather in the northwest coupled with a somewhat improved cash demand, put strength in all options. July wheat opened at 870 and closed at 85%c.

Corn was slow and easy at the start, with but little offered and a lack of interest on the buying side.

Cash corn was in demand and brought excellent prices. The country inovernant being taken very light and samples shown were readily.

July corn opened 69%c and closed at 70%c.

Primary wheat receipts were 342.00 OMAHA, July 9, 1908.

July corn opened 69%c and closed of 70%c.

Primary wheat receipts were 342,000 bushels and shipments were 322,000 bushels and shipments of 306,000 bushels.

Corn receipts were 288,000 bushels.

Corn receipts were 288,000 bushels and shipments were 311,000 bushels, against receipts last year of 366,000 bushels and shipments of 668,000 bushels.

Clearances were 3,900 bushels of corn.

60,000 bushels of oats, and wheat and flour equal 322,000 bushels.

Liverpool closed at %601d higher on wheat and %60%d higher on corn.

Beaboard reported 48,000 bushels of wheat taken for export.

Chicago 11 107 82 ern states during Wedneaday. The weather has cleared in the eastern states and continues policy.

Minneapolis 179 23 10 times generally clear throughout the continues are slightly lower along the Atlantic coast and on the Pacific slope. They have risen in all other sections and the cutook is favorable for continued fair and slightly warmer.

Features of the Trading and Closing

Prices on Board of Trade, CHICAGO, July 9.—The wheat market was strong today, owing chiefly to a more active demand for the cash grain in this country and to higher prices at European grain markets. At the close the September delivery was up 1½c to 1½c. Cornwas off ½c. Oats were down ic. Provisions were 2½g6c to 12½c higher.

The wheat market was active and strong almost all day. There was a dip of about

The wheat market was active and strong almost all day. There was a dip of about 1/2c at the start, due to selling by local bears, induced by favorable weather for the new crop in the United States, but a number of the leading commission houses were good buyers and the market soon railled, prices advancing 11/2c to 21/2c from the low point of the day. Firm cables and good demand for cash wheat, both in the northwest and southwest, and reports of improved export inquiry at the seaboard were the chief builtsh factors, There was a little reaction late in the session on profit taking, but the market closed strong. September, 1/2 lower to a shade higher at 884,085%c, sold off to 884c and then advanced to 90%c. The close was at 90c. Clearances of wheat and flour were equal to 340,000 bushels, Primary receipts were 242,000 bushels, ecompared with 684,08 bushels the corresponding day a year ago. Minneapolis, Duluth and Chicago reported receipts of 122 cars, against 150 cars last weeks and 200 cars, and 150 cars last weeks and 200 cars, was a special to 340,000 bushels, ecompared with 684,08 bushels the corresponding day a year ago. Minneapolis, Duluth and Chicago reported receipts of 122 cars, against 150 cars last weeks and 200 cars, and 150 cars last weeks and 200 cars, and 150 cars last weeks and 200 cars, and 200 cars, and 200 cars last weeks and 200 cars, Minneapolis, Duluth and Chicago reported receipts of 12 cars, against 150 cars last week and 251 cars a year ago.

Rapid development of the new crop, owing to favorable weather conditions, caused weakness in the corn market, sentiment being bearish the latter part of the day. Several railies occurred on covering, by shorts, but on the upturn there was free selling by longs, which soon caused reselling by longs, which soon caused receipts weakness. The market closed weak at almost the lowest point of the day. So and then declined to 72½c, sold at 72½c and then declined to 72½c, sold at 72½c and then declined to 72½c. The close was at 71½c. Local receipts were 107 cars, with four of contract grade.

Grade.

Oats were weak throughout the session, the market being bearishly affected by the government report and more favorable weather for the new crop. Selling was general and buying was mainly by shorts. September opened unchanged to %c lower at 40c to 40%c, sold off to 33%c and closed at 33%c. Local receipts were %2 cars.

Provisions were firm all day, because of active demand by local packers. Selling was scattered and principally by holders. At the close September pork was up 12%c at 116.85. Lard was 24,60c higher at \$5.50. Ribs were 7%c higher at \$8.82%ge.\$5.

Estimated receipts for tomorrow: Wheat, 12 cars; corn, 136 cars; oats, 87 cars; hogs. \$5.00 head.

able for continued fair and slightly warmer in this vicinity tonight and Friday.

Omaha record of temperature and precipitation compared with the corresponding day of the last three years; heavy traffic movement by calling home their freight equipment.

Weekly statements of the great foreign banks showed the usual revulsion from the violent strain of the great periodical money settlement. In the local money market return of government deposits thus far made has been offset by the government disbursements in payment of obligations and appropriations. The day's profit taking was conducted cautiously and without serious inroads on prices at any time. Whatever declines were involved were made up before the end of the day, with the growing strength of the sustaining stocks in the dealings. Deficiency corresponding period in 1907, 7.12 inches.
Deficiency corresponding period in 1966,
2.54 inches.
