HOT SPRINGS, Va., July 16.-Arthur I. Vorys talked with Judge Taft briefly to-day, but will defer any further extended conference on the Ohio situation until the presidential candidate has practically disposed of the work before him. Interesting phases of the Ohio situation, especially in relation to the senatorship, are sure to come into prominence as the campaign

progresses. When questioned today as to the possibility of keeping the senatorial and presi-dential contests in Ohio entirely separate Mr. Vorys merely replied with another question.

"Hasn't it been done up to this time?"

A short time ago Mr. Taft received about 100 letters daily and yesterday his mail contained 150. The labor of keeping pace with this correspondence is taxing the capacity of his secretary and stenographers. Pressed by the necessity of having his speech of acceptance prepared several days in advance of its delivery at Cincinnati on July 28. Judge William H. Taft fifty miles an hour and one woman is today determined to forego his usual recreation and exercise until the end of his task is in sight. Golf and horseback rides will not figure in his dally routine again antil the speech is sufficiently perfected to lift the burden of its preparation from 1lm. Mr. Taft was in his office early toisy and resumed the dictation of the pa per to W. W. Mischier, his stenographer. He has gone over the documents he desired to study before dictating his speech and has the subject thoroughly in hand. He will keep close to his task until it is

Bookmakers arrested at the track who have since secured imnunity by offering to testify fully as to their operations, it is said, have supplied this information. It is further reported that the \$12 a day said to have been demanded of bookmakers for advance information concerning races was paid solely for the privilege of conducting betting.
