NORTHWEST GETS PRESENT HELP

Foreign and Domestic Demands Are Improved and Stocks Are Light-Big Cash Contest Expected.

The situation continues to be a weather proposition, with conditions somewhat improved. The northwest, which has been suffering most from lack of moisture, the proved. The northwest, which has been suffering most from lack of moisture, the been relieved for the time being.

Foreign and domestic demands have improved and stocks are light and a big squabble is looked for in the cash stuff.

The wheat market was steady to some stronger in the early trades but weakened slightly later with the weak provisions market and a tendency to hold off for the opening next week. July wheat opened at 5%c and closed at 5%c.

Corn opened steady, but eased off later with wheat and previsions and became a listless and uninteresting market. Cash corn sold steady, with values about the same and demand was good. July corn opened at 13%c and closed at 73%c.

Primary wheat receipts were 245,000 bushels and shipments were 557,000 bushels and shipments of 44,000 bushels.

Corn receipts were 324,000 bushels and shipments were 109,000 bushels and shipments were 109,000 bushels and shipments were 1,000 bushels and shipments were 1,000 bushels of 267,000 bushels.

CHICAGO GRAIN AND PROVISIONS Features of the Trading and Closing Prices on Board of Trade.

Prices on Board of Trade.

CHICAGO, July 18.—Faiture of long interests to give support in the face of bullish conditions caused a dull wheat market here today. The close showed prices practically unchanged. September corn was % lower. Oats were off isc and provisions showed losses of 20% fisc.

Speculative temper in wheat at the start today favored higher prices, but trade was not large. Higher cables, a good export demand and foreign statistics of a bullish nature brought out some good buying orders from outside sources, and sharts covered their lines to some extent. Prospects for world's shipments were for about half the weekly estimated requirements, and reports from Baltimore were to the effect that exporters were taking practically all the grain at that point and that the stocks would show a material decrease for the week. The effect was substantial advances in all deliveres. A disposition on the part of longs who have recently sold out to defer reinstating their lines developed and the market thereafter became dull and featureless and practically all of the early gain was lost. The close was steady. September opened 42% thigher at 114,5315, estad.
