BLOCKS IN STUMBLING

July Twenty-Eight Commission Will Hear Arguments on Petition to Suspend Freight Rate and Two-Cent Fare Law.

LINCOLN, uly 18 .-- (Special.)-Tom Allen, chairman of the democratic state committee, has figured out a scheme whereby he thinks he can prevent the populists of Nebraska from having an electoral licket in the field this fall. He has eight favorites whose names he expects to file shortly with the secretary of state with petitions asking that they be placed both on the democratic and the populist ballots. Should these eight favorites win out both in the populist and the democratic primaries, then the demicratic boss figures on a fusion ticket this fail, with no Watson electors in the field. Inasmuch as the Nebraska delegation to the national populist convention withdrew from the deliberations of that body when it nominated Thomas Watson for president, some question has been raised as to the legality of the use of the name peoples' independnt party on the primary ballot this fail unless the electors are for Watson. Secretary of State Junkin, however, is holding that under the supreme court decision last year, if proper petitions are filed with him, he will place the same names on both the populist and the democratic tickets. Mr. Allen, however, probably will run against a snag at the offshoot, as Mr. Junkin is also holding that candidates for elector must file from a congressional district or at large. The law says electors

shall be selected one from each congressional district an dtwo at large. It was the idea of Mr. Allen that he could file the same petition for all eight of his candidates, but Mr. Junkin holds the petition filed for district electors must be signed by residents of the district from which the person is a candidate. Several candidates have filed for elector who have failed to specify whether they are candidates at large or from a congressional district. These will be returned for this informa-

apacity.

for publication, says:

Michael Harrington is another stumbling block over which Mr. Allen may fall down. He has already filed as a demo-pop elector at large without waiting to discover whether he is one of the eight favorites selected by the boss. Pushing the Railroads.

The strong arm of the law will be invoked against those railroads using the Union depot in Omaha to compet them to obey a recent order of the State Rallway missiono. The commission ordered these roads to provide a shed for the reception of cream and milk cans and to cut of the state, depot grounds. The order was issued upon the application of the creameries doing business in Omaha. The time having gone by when the work was ordered done, the commission has placed the matter in the hands of the attorney general with instructions to prosecute.
