

CORN HAS ITS BEST WEEK

Makes Wonderful Advance on All Burlington Divisions.

HIGHEST ON THE LINCOLN LINE

Prospects There Are for Hundred and Five Per Cent Crop—Wheat Harvest is Showing Good Yield.

Corn has undoubtedly had the best week of the season and the prospects for a big crop were better at the end of the week than at any time this year, according to the crop report of the Burlington railroad.

The superintendent of the McCook division has been forced to raise his estimates 13 per cent over that of the previous week, making the prospects 44 per cent on an average crop.

The wheat harvest is finished on the two eastern divisions and two-thirds of the crop is cut on the McCook division.

Potatoes probably will make more than an average crop. Small fruit is turning well with good prospects for peaches in the eastern half of the state and also good prospects for apples.

The second crop of alfalfa is being cut in some places and in many others is about ready to cut. The second crop will be better than the first.

Big Hays in Wyoming. Abundant rains in Wyoming have put the soil in splendid condition for growing crops.

The farmers are busy cutting wheat on the Alliance and Sterling divisions and there will be a good yield.

Oats are being cut on the Alliance division with a yield of from twenty to twenty-five bushels to the acre.

It is estimated there will be 1,000 acres of beets in the vicinity of Lovell averaging from fifteen to twenty-five tons per acre.

The meadows and pastures could not be in better condition and the farmers are busy putting up hay.

Concerning the wool crop the report from Wyoming says: Wool is coming to market very fast at Cody. Shearing is now all done in the vicinity of Sheridan.
