## **CRAIN AND PRODUCE MARKET**

Increased Receipts and Fair Offerings Weaken Values.

## EXPORT CALL FOR WHEAT BETTER

Receipts Are Gaining Daily, but

liberal primary receipts and a forecast of cooler weather for the northwest were additional bearish factors. The market closed weak. September opened unchanged to 1/4c lower at 91/2914c; sold off to 904/c and closed at 904/2004/c. Clearances of wheat and flour were equal to 32.490 bushels. Primary receipts were 1,211,000 bushels, compared with 801.600 bushels the corresponding day a year ago. Minneapolis, Duluth and Chicago reported receipts of 410 cars, against 260 cars last week and 301 cars one year ago.

against 260 cars last week and 301 cars one year ago.

The corn market was rather week early in the session, owing to liberal profit-taking, induced by continued favorable weather for the growing crop. Later the market regained nearly all the early loss on covering by shorts, who were impressed by the strength of oats. The market was alse strengthened by damage reports from southern Indians, where the crop is said to be in need of rain. The close was seady. September opened unchanged at 75c, sold at 756755c and then declined to 75c. The close was at 755c. Local receipts were 114 cars, with 11 cars of contract grade.

Outs were active and strong throughout the entire day. The feature of tradewas renewed buying of the September delivery by shorts small receipts, light stocks and an active shipping demand being the

and an active shipping demand being the chief bullish influences. September opened a shade to 14%c higher at 44%14%c, sold at 43%c and then advanced to 44%c. The close was at 44%c. Local receipts were

M cars.
Provisions developed an easy tone ofter a firm opening. There was a fair investment at the outset prompted by a 5c advance in live hogs, but local longs sold freely,

OMAHA, July II, 1998.

With very little change in the situation values are somewhat weak, due materially to increased receipts and some freer offerings Export demand for wheat is improving and is a good factor in strengthening the wheat options in face of the movement of the new crop. Receipts are gaining daily, but stocked have been well run out and the daily strivags are being rapidly absorbed by an Increased unusual comment.

Wheat was easy from the start and worked lower, with liberal offerings due to the increased receipts.

ing lost, and for a time the trade was very slow and dull, thus prolonging the market during the greater part of the forencon. The market closed very weak and dall with practically all the advance lest and with no one trying very hard to buy the late hogs. It was about the most ursatisfactory market experienced at this point in a long time. The fact that receipts were very moderate and that reports from other points were encouraging in the morning, led sellers to expect a good market, but they were very much disappointed.
