TRACTION COMPANY'S RIGHT

West Bluffs Improvement Club Appeals to Attorney General.

SEEKS STATUS OF FRANCHISE

Inquiry Will Be Made to Ascertain by What Authority Inter-state Road Operates in Iowa.

Falling to induce the city council to make any move in the matter the West Council Bluffs Improvement club has decided to appeal for assistance from H. W. Evers, attorney general of the state of Iowa in its efforts to ascertain under what, if any, franchise the Omaha & Council Bluffs Street railway company is operating in Council Bluffs.
At the meeting of the club Tuesday afternoon the plans of the club were discussed. A lengthy communication which had been prepared was approved and ordered sent by the secretary to the attorney general.
Unable to obtain any relief through the local municipal officers, the following is recited in the communication:
We have the remarkable example of a corporation known as the Omaha & Council Bluffs Street Railway company operating a street railway upon public streets with or without legal authority. When we ask of the city council information as to the legality or non-legality of the actions of this alien corporation, with no or more honorably than the city council rushes to the protection of this corporation by laying out respectful requests upon our table in the municipal waste basket, from which no material is ever taken out. In the meanwhile the growth and material prosperity of our city are retarded by the maintenance of this corporation against Council Bluffs.
Value of Commutation Tickets.
Attention is then called to the fact that the commutation tickets between Council Bluffs and Omaha are not good for use for travel within the limits of Council Bluffs.
Extended reference is made to the request of the club that the company build a connecting line on Twenty-first street between Avenue A and Fifth avenue and that the company, it is alleged, has declined to pay any attention to the request. Mention is also made of the failure of the company to extend its line to the Iowa School for the Deaf, while in Omaha its tracks are being extended in various directions.
