Residence electric fans, \$10.50. W. F. O'Brien in worse—William F. O'Brien, who has been very ill at his home for several weeks, was taken worse Friday and it was decided to take him to the Omaha General hospital Saturday.

Keep your money and valuables under your own lock and key in the American Safe Deposit Vaults in the Bee building, which are burglar and fireproof. Easy rent for \$4 a year, or \$1 for three months. Wading Pool in Bemis Park—A small wading pool in Bemis park has been finished, much to the delight of the children in the vicinity. The pool is less than two rods long and the water is about a couple of feet deep in it, but the children enjoy paddling in it. The pool has a gravel bottom.

Residents Object to Pickling Plant—In conformity with council resolution, Health Commissioner Council has served notice on Smith & Lockwood, proprietors of a pickle house at Thirtieth and Cass, to abate a nuisance. The residents in the vicinity object to the pickling plant and the health commissioner's instructions are to clean out the vats and the basement and to renovate the premises.

Man Wanted for Striking Woman—James P. Halsey and W. E. Roberts were arrested in South Omaha several days ago for stealing a barrel of whiskey from an Omaha saloon keeper, were taken to South Omaha Thursday, as the owner of the stolen liquor refused to prosecute the two men after the arrest of Halsey, and they are wanted in the Magistrate's Court for assaulting the woman to whom they sold their haul.

Gang of Crooks Arrested—W. P. Bryan, John Gormley, William Winters and E. McFarland, a quartet of well known thieves, pickpockets and confidence men, were arrested by Detectives Maloney and Van Deusen Wednesday evening. Gormley had been given an opportunity to leave town by Judge Crawford, but neglected to avail himself of it. He was seen on the street by the officers and they followed him to his room, where the other three crooks were congregated. In order that they would not all get out of jail at the same time Gormley was sentenced to ninety days, while Winters will be free at the expiration of fifteen days.

TREAT FOR LOVERS OF MUSIC. Brandeis Free Band Concerts Every Saturday by George Green and His Band. The popular concerts by George Green and his band will become a permanent feature every Saturday during the summer at Brandeis store. For the coming Saturday a very attractive program has been arranged.

The Brandeis firm states that on account of the closing of Krug park and the disappointment of thousands who enjoy hand music, it has been decided to give Omaha people one afternoon a week of free hand music. The location of the band under Brandeis porte cochere brings the concert in the very center of the shopping district, and tables and chairs are arranged on the north side of the building to give every comfort to those who wish to listen and partake of refreshments. A popular concert will also be given Saturday evening.

PEACHES TAKE JUMP UPWARD Will Make Advance of Fifteen Per Cent by Monday, Commission Men Predict. Peaches, which have been so plentiful and so cheap, are going up, and the commission men predict an advance of 15 per cent by next Monday. Peaches that sold for 75 cents a crate will bring \$1, and others will advance according to their quality. The Arkansas crop is about exhausted and the California fruit is in great demand, and accounts for the advance. Pears are plentiful, and those expecting to can them may as well get them now, for the shipped pears will be no cheaper. The warm weather has brought an advance in lemons, the best of which sell for 25 to 30 cents a dozen now. Grapefruit is gone, but the late Valencia oranges are here and are fine and juicy and seedless, and sell from 40 to 50 cents a dozen retail. The first grapes of the season are in, the little white, seedless grapes from Arizona, and they are nice. They are selling from 10 to 15 cents a pound.

Blueberries are in this week and sell from 20 to 25 cents a quart box. Red raspberries are also coming in. The boxes are a little more than pints, but not quite, and they sell from 15 to 20 cents a box. Blackberries will not last more than a week longer, and will be little if any cheaper. They sold Friday morning at 25 and 35 a crate wholesale. California cantaloupes are gone and the Arizona melons are in market now. These retail at 10 cents each and will continue at that price for a week or so. Texas melons sell for 5 cents each, but are not so good. Watermelons hold up in price, selling from 15 to 20 cents each.

Green corn is coming in well now, and ears are much fuller and better. They sell for 15 cents a dozen. Celery is plentiful and sells three bunches for a dime. Cucumbers, which have been up in price so long, are expected to drop next week, when they will probably sell two for 5 cents.

Potatoes are the most uncertain thing in market, being up one day and down the next. The local market is dependent entirely now upon the home crop, and this depends upon the convenience of the gardeners in getting it to town. A shortage sends up the price and good weather, when the roads are good, brings it down again. Creamery butters are selling for 25 and 28 cents a pound and eggs for 23 and 25 cents a dozen.

CALL MAY BE ASKED TO QUIT

Incurs Ill-Feeling of President Ellis and Other River Men.

ELLIS WRITES CRISP LETTER

Kansas Cityans Address One of These Tart Missives to Each Vice President of River Congress.

George C. Call of Sioux City, secretary of the Missouri River Navigation congress, may be asked for his resignation by the executive council as a result of having a meeting called for Sioux City this week without authority from the president; for refusing to honor orders drawn on the secretary-treasurer in accordance with the constitution of the congress, and for statements "calculated to disrupt the organization."

The charges against Mr. Call are made in a letter written by President Edgar C. Ellis of Kansas City to Mr. Call, copies of which have been sent to all the vice presidents. Congressman Ellis does not beat around the bush any in charging the secretary-treasurer at Sioux City with conduct which has the appearance of a plan to break up the organization just at a time when it is getting in shape to do effective work for the Missouri river. Congressman Ellis also charges the secretary-treasurer with being an ingrate, as it was upon Mr. Ellis' motion that Mr. Call was made secretary-treasurer of the organization.

Mr. Ellis went to Bismarck to attend a meeting in the interests of the river and has had two small jobs of printing done. Though Mr. Call has all the money collected for the work of the congress, he has failed to pay Mr. Ellis the expense money for the trip to Bismarck and also the printing bills, though the constitution provides that the money shall be paid on order of the president.

Trying to Disrupt. The congressman from Kansas City says the Sioux Cityans is attempting to create feeling against Kansas City and the lower river and others from Sioux City to the river banquet given by the Omaha Commercial club last winter. But those who are interested in the river are determined that the controversy between the president and secretary of the organization shall not hinder the work.

Report of Captain Scholz. The report of Captain E. H. Scholz, engineer in charge of the river, is just out. It is declared to be the best in twenty years. The report covers the fiscal year ending June 30, 1908. It shows that the commerce has largely increased, that there are fewer snags and that the prospects for a continuous increase of business are encouraging. In line with his special report of April 20 Captain Scholz asks for \$400,000 to begin the work of improvement and carry it on until June, 1910, and \$250,000 for the repair and extension of existing works. Under the project he recommends for a twelve-foot channel, he asks for a yearly appropriation thereafter of \$400,000 for work from Kansas City to the mouth. If it shall be deemed advisable to carry the work from Kansas City to Sioux City he asks for \$1,500,000 for that reach. Under the temporary six-foot project he asks for \$2,000 yearly for work between Kansas City and the mouth and \$1,500,000 for work between Kansas City and Sioux City.

For the Lower River. The estimated cost of the twelve-foot channel from Kansas City to the mouth is \$20,000,000, and a temporary six-foot channel \$10,000,000. For managing \$50,000 a year he asks for maintaining the six-foot channel \$87,500, or the twelve-foot channel \$500,000. For a twelve-foot channel from Kansas City to Sioux City Captain Scholz asks \$2,500,000, or for a six-foot channel \$2,500,000. For managing \$50,000 will be required annually. For maintaining a six-foot channel \$97,500, and a twelve-foot channel \$502,500. For that part of the river above Sioux City Captain Scholz asks \$500,000 a year for maintenance and improvement.

Hopital Report on Commerce. The showing of increased commerce on the river will be gratifying. For the year a total of \$43,583 tons of freight of all kinds was carried on the lower river, of which 28,647 tons was general merchandise and the balance coal, sand, lumber, railroad ties and building materials. The number of passengers carried was 5,322. This is the best showing that the river has made for twenty years. The increase on the upper river was from 48,927 tons in the fiscal year 1906 to 45,123 tons in 1907. The two boats of the Kansas City line from the beginning of the season, May 1 to June 30, carried 2,270 tons, averaging about 400 tons a round trip.

FARM LIFE AT THE CORNSHOW. Actual Scenes Will Be Reproduced by Moving Pictures. EXPERTS SENT OUT FOR VIEWS. Milwaukee Advertising Manager Comes to Ascertain What There is in His Road Can Do to Help Along. Like the photograph the "moving picture machine" is to be made to serve a more worthy purpose than gathering in nickels and dimes at the doors of small theaters. It is to be put to the most practical purpose imaginable—showing modern methods on the farm and this will be probably the first real practical work the machine with its flickering pictures has ever done. The National Corn Exposition has received from London a moving picture camera and C. W. Martin is to visit the model farms of Illinois and Iowa, making the films for the picture machine which will be shown at the corn show in December. It was Mr. Martin who conceived the idea that the moving picture machine ought to be used for a more worthy purpose than reproducing a prize fight by rounds, showing children how daring firemen rescue people from burning buildings, throwing on a white sheet, a Mexican bull fight or the dancers of a sinful ball show. Milwaukee Ready to Host. "The Milwaukee road can be relied upon to do all in its power to promote interest in the corn show," said Charles S. Young, advertising manager of the Chicago, Milwaukee & St. Paul road. Mr. Young arrived in Omaha Friday to consult with F. A. Nash, general western agent of the Milwaukee, and Charles C. Howsater, chairman of the publicity committee of the National Corn Exposition, to see what was expected of the Milwaukee road in the way of promotion for the corn exposition. "While we have made no definite plans as to what the Milwaukee will do in the way of promotion for the show, I can state positively that the road will do all possible to get corn producers—all people interested in corn along our line to come to the Omaha show. After the conference we will decide definitely what we will do."
