OMPARISON WITH ASSESSMENT

ax Commissioners Pollard and Scribner Expect to Show Actual Cash Return Has Not Been Made.

(From a Staff Correspondent.) LINCOLN, July 27 .- (Special.) -- Both the nion Pacific and the Burlington railroads led lists of real estate transfers with the ate board of equalization this afternoon show the sales value in most instances higher than the value placed on the ime lands by the county assessors.

W. Scribner for the Union Pacific filed anafers in all but three counties through high this road runs, covering a four-year eried from 1903 to 1907. These he comared with the assessment of 1968.

R. D. Pellard for the Burlington filed list of transfers in thirty-four counties, hich showed that the value placed upon ie land by the assessors was 70 9-10 per int of the sales value. The total conderation in these 1.875 transfers named. the deeds, was \$12,876,442 and the total tlue as fixed by the assessors was \$9.480 .on the same property.

The following table filed by the Union acific shows the average sales value per tre by counties; the average value by messors and the per cent of the assessors' tlue to the sales values:

Board Hears York Men.

Governor Sheldon absent, listened to a numof real estate 10 per cent. The records of all recognition. the board showed the decrease was practically \$10 an acre. The men here today came down to protest against any favorable action on the Tilden protest. W. W. Wyckoff was the principal spokesman and he said York county's assessment of \$12.96 an acre was high enough, and compared with the adjoining counties, was a good assessment. One man told the board that a piece of land assessed for \$8,000 could not be sold for \$2,000 because most of it is under water. Another tract assessed for \$17,500 sold for \$15,000, he said. Land Commissioner Eaton thought York county land was assessed high enough, but he doubted the right of the board to make a flat reduction because other countles were not high enough. The York people, however, insisted their action was not based on the assessment of other counties.

STORM AT LONG PINE

Heavy Loss Results from Lightning LONG PINE, Neb., July M .- (Special.)-One of the worst rain and electrical storms ever known visited Long Pine and vicinity Saturday night. During the storm several residents were stunned by bolts of lightning, but none of them are seriously injured. The rain came down in torrents and for a while resembled a cloudburst at some places. The storm began at 8 o'clock The whole store and contents were badly ance, but there was none on the building. Night Marshal Z. B. Cox, while on his way ting along nicely. The storm came from the northwest, but by midnight a stiff wind was blowing from the south. Saturday had been a very hot day and in the evening the temperature dropped about 15 degrees, indicating that a bad hall storm had taken place somewhere in the north. Rising Files for Senator.

AINSWORTH, Neb., July 27 .- (Special.)-R. S. Rising has filed his petition to be a candidate on the republican ticket this fall for state senator in the Fourteentn district. The democrats have no candidate as yet. The democrats will complete their Bryan club Saturday night.

GRAND ISLAND, Neb. July 27 .- (Speial.)-Neither party has so far filed petitions of any candidates for selection at the primary for the offices of representative and senator and the situation is much unsettled. It is expected that Howard county which, by custom, was to present republican candidate for senator this year, will have an aspirant, and J. M. Weldon of Wood River is the only one mentioned. Howard county, it is expected. will present Representative Fries as a candidate for senator. Representatives Scudder and White have been mentioned as candidates, but their petitions have so far

not been filed. Broken Bow Chautauqua.

BROKEN BOW, Neb., July 26.-(Special.) To one of the largest tent audiences ever een in Broken Bow, the chautauqua presented its opening bill last night on the south side school grounds. From the numher of strangers in town there can be no doubt that the present chantauqua will draw greater crowds than ever before. All available space on the grounds is taken up by campers with tents, while the several hotels are already filled to their utmost capacity.

Parties and Records.

OMAHA, July 27 .- To the Editor of The Bee: The two great parties have held their conventions, adopted a platform and Captain and Mrs. T. B. Hacker enter- nominated a president and vice president. There are a good many good points in done for the good of the people. The Miss Margaret and Mr. Tom McShane majority of the voters are familiar with enabled the building of many mills and Mrs. M. D. Welch had a small suppor factories. They have also given us a sound money basis. All of their public acts have guest, Mrs. Chatterson of Louisville, Ky. been in the interests of all the people downward step. During the last forty years At the bachelors' table were Mr. Ross the democratic party, when in power, gave Towle, Mr. Blake, Mr. Frank Haskell, Mr. the people only ruln and hunger; when in power they did not try to assist the people and build up the country, but their every effort was to belittle the manhood of the people by laws they enacted.

The republican party believes in lowering the tariff, but not below a protection basis. The democratic party believes in lowering the tariff, leaving sufficient only pay expenses, without any protection their platform they have placed lumber on the free list, which, to my way thinking, would disturb the prosperity our people.

Under protection our mills can keep run ning for probably twenty-five years and the prices on lumber will not likely be any higher than if we had absolute free trade. Under free trade a cargo from British Columbia will be sent to San Francisco and sold in competition with American lumber. The lumber dealer takes a look at the specifications of the various cargoes from British Columbia and the states and selects a cargo that will suft his stock. The price for the same grades from British Columbia and the states will be the same.

If our mills and factories can run during the next twenty-five years the people may find a substitute for lumber. Even now, is the great cities, but a small amount o lumber is used in the construction of buildings. The sixty-two-story building to Field club were small, among those having be constructed in New York will contain no lumber except for doors, and even those may be composition. As I sm a "middle man." I should be for free trade, but as I witnessed the outcome of free trade in 1893-4, when a large portion of the mills and factories were closed and thousands were forced out of employment, I cannot make myself believe that free trade in any item that we can produce or manufacture should be allowed. As the people of our country have built up the largest chain of mills and factories in the world they need protection to keep them in operation and to protect both their domestic and foreign business. The republican party has always been a friend of labor, and they have given them protection at all times, and the small difference on account of injunction should not change the views of the laborer, as they will eventually find that they need injunction just as much as

the corporations. The colored people should not take offense at the republican party simply because the republican president discharged a company of colored soldiers. Had the company been white and commanded by cago, where she will be the guest of Mrs. discharged under the same circumstances The democrats are in full power in the Miss Alice Carey McGrew left Saturday south and the colored people cannot ride with head down, seemingly crazed, he made for Mr. Wells, who succeeded in getting over the fence just in time. He then turned on Mrs. Wells, who was making for the fence, and she also escaped by a narrow margin. The bull got worse as them by the republican party and no act of a president should keep them from bemost of their time being spent in Paris ing friends of the party that has given

them everything they now possess. Both candidates for president are men of education and morality, but the people reason that the records of a party are more substantial than the platform of the members of the party. My opinion is that all our people will be best subserved by
