Five years ago land in this section of the state sold at from \$25.00 to \$40.00 per acre, and today it is worth \$75.00 to \$100.00 per acre. The improvements that have been made are astonishing, even to those who know the country. Fine buildings, fine homes, highly cultivated farms on all sides, and every farmer getting rich from products of the soil. That portion of the North Platte Valley contains the finest crops of Nebraska at the present time.

Much of the land which we are now offering for sale in this district we have been unable until now to induce the owners to place on the market, and, knowing this district as we do, we consider these lands absolute bargains at from \$15.00 to \$30.00 per acre for unirrigated land, and from \$40.00 per acre up for irrigated land.

We are conducting daily excursions to North Platte, and if you are in the market for a farm in the garden spot of wonderful Nebraska, write us when you can go. We will meet you at Omaha.
