Beans infinitely better than beans baked at home, because they are nutty, mealy and whole.

We are selling millions of cans to neighbors of yours and to others. The demand is greater, by several times over, than for any other beans in the world.

Do you still go without them?

You can't afford to do that. Beans are 84% nutriment, yet see hew many you get for ten cents. What other food-so appetizing, so nutritious-is nearly so cheap as beans !

Ask if they like the delicious blend that we get by baking the tomato sauce into the beans.

Then note the after-effects. Home-baked beans only partly digest, because you apply insufficient heat. So they ferment and form gas. Van Camp's don't.

Our beans are baked in small parcels-in ovens heated to 245 degrees. They are baked in live steam, not in dry heat. They are baked until that fierce heat separates the particles so the digestive juices can get to them.

The result is our beans are digestible.

Beans are Nature's choicest food when they are rightly baked. More nutritious than meat or eggs or cheese.

They are both cheap and delicious; all people like them. They should be a daily dish, not an occasional.

You will eat more beans, and save much on your meat bills, when you know Van Camp's.

Don't judge Van Camp's by other brands of beans.
