Reason Why Corn Yield is Not Greater Per Acre.

BOY GIVES PROF. HOLDEN TEXT

Expert of Iowa College and Promoter of the National Exposition Lectures Twice at Bellevue Chautauqua.

If all the farmers of the corn belt would hear and heed the advice given yesterday by Prof. P. G. Holden of the Iowa State college at the Bellevue chautauqua...

That is just the reason why Nebraska raises an average of only twenty-nine bushels of corn to the acre...

Drive Out Poor Stalks. It is the mission of modern science to drive out these poor stalks of corn...

Prof. Holden showed a number of interesting charts indicating, among other things, that corn constituted 63 per cent of Nebraska's annual product...

Because Seed is Poor. Why are not all ears good? he continued. "Because the seed is poor."

He then described and illustrated the method by which all farmers may test their seed corn before planting it.

Advantages as Feeding Center. "South Omaha is coming to be noted more and more for its advantages as a feeding center," said Manager Buckingham yesterday.

Prof. Holden said that if in each corn hill three stalks of good quality grew as fast as he would grow the yield per acre would be 107 bushels.

Mayor Jim Goes for Brewer. Announcement at Ward Meeting that People of Omaha Have Started Buzz Saw.

Emphasizing "his remarks with heavy pounding on the table by his side and with repeated stamping on the floor," Mayor Dahlenberger took up the earth in his speech before the eighth ward democrats Friday.

"I want to say right here and now that I do not stand for the brewers," said Mr. Dahlenberger. "No brewer can say to me that I must ask his permission to run for governor, and I will ask no brewer for his support."

"I stand for personal rights because I believe no man has the right to tell you or me what we shall or shall not do, so long as we do not transgress the law."

"Why are not all ears good?" he continued. "Because the seed is poor."

He then described and illustrated the method by which all farmers may test their seed corn before planting it.

DUN'S REVIEW OF TRADE

Wholesale Business is Active in Western Cities.

PRODUCTION IS INCREASING

Improvement at Pittsburgh is Slow, but Chicago and Cleveland Plants Are Increasing Forces.

NEW YORK, Aug. 1.—Dispatches from Dun's Review indicate the usual midsummer quiet in many lines, with a gradual tendency to increase preparations for fall and winter trade, some dispatches making much better reports in this respect than others.

Trade improves slowly at Pittsburgh. Manufacturing towns in the vicinity report retail trade quiet. Current trade at Nashville is slightly below last year, but fall prospects are favorable.

Certainly of large crops has encouraged country merchants to place orders more freely in the Kansas City market, many outside buyers being in attendance.

STOCKTON, Cal., Aug. 1.—The Western Union is rapidly assembling poles and other material here to be prepared to rush the construction of a telegraph line from Stockton along the Western Pacific's right-of-way to Oakland.

On lumber a rate was made from 14 cents per hundred to 4 cents per hundred, or \$1 a car. By making this raise from \$1.00 to \$1.04 per hundred, the complainants aver, has practically removed Florence from fifty to 100 miles distant to Omaha on a tariff basis and has discriminated against concerns requiring carload rates.

To show the discrimination the petition recites that the charge for shipping the crushed stone from Weeping Water to Omaha is the same as from Omaha to Florence, while the former haul is fifty miles, as against five miles to Florence.

Reports received at the Omaha Grain exchange Saturday indicate that the great plains are tired of producing nothing but buffalo grass and sage brush. They are fields of alfalfa, clover, timothy and the finest of wild hay.

WHAT IS IN THE LOCAL MARKET

Peaches Plentiful, but Higher—Pears Are Now at Canning Prices.

THE LOCAL MARKET

The local market has "moved" an unprecedented amount of peaches of late—an average of five cases daily having been disposed of the last ten days notwithstanding the advance in price.

Watermelons have been a trifle higher the last week owing to the demand from nearby towns, which has been a heavy one.

Red raspberries from Oregon are coming in and sell for \$1 a crate, or about 15¢ a box wholesale. Housewives should keep in mind, however, that home grown berries are in market also and these sell each day according to the supply in market. It is well worth while to go to market personally.

Home grown tomatoes alone are available in the local market now and the dealers say they will be scarce until at least the middle of next week. They are selling now at 10 cents a pound.

Chickens are plentiful and cheaper than meat. Young hens sell wholesale for 12 cents a pound. Ducks are 14 cents, geese 11 cents, turkeys 30 cents, squabs \$3 a dozen, and homers from \$3.50 to \$4 a dozen.

To make these palatable and wholesome you want large straight cucumbers. Long green and white spine are good varieties. Soak them over night in cold water. This will keep them hard. Wash them next day and pack in large jar or keg with alternate layers of grape leaves and a few stalks of dill. Then pour a brine over them made by dissolving one cupful of salt in one pintful of water. Hold pickles under brine by weighting with a loose cover and a stone.

In warm weather these pickles will be fit to eat in two weeks. No vinegar is needed as the pickles develop acidity enough to be palatable.
