Delegation from Virginia Bar Association Calls on Candidate. HOT SPRINGS, Va., Aug. 3.—About thirty members of the Virginia Bar association called on Candidate Taft this morning and a general exchange of felicitations was held.

There was universal comment by the lawyers on the splendid physical appearance of the candidate.

"Yes," was his reply, "it is true, I was never in better health in my life. It is this air down here and then my exercise. It really does not seem that there is much in a game of golf, but it requires just enough skill to divert the mind from the walking that is necessary and in that way one gets rest without the fatigue."

Today's early hours were, as usual, devoted by Mr. Taft to his correspondence and then followed the trip over the four-mile golf course.

Missouri came to the front with a rush today in the Taft baby naming contest. W. F. Heaver of Lebanon, Mo., arranged himself the proud father of twin.

with fifty inhabitants; Homer with fifty inhabitants. Other Crows Nest Pass towns. Fernie is gone, but one dispatch says that Homer and Michel are still fighting.

Fatalities Are Growing. The fatalities are growing hourly. In one case, five fighting at Fernie were hemmed in and every soul perished. At least seventy lives were lost in Fernie.

The property damage is between \$4,000,000 and \$5,000,000. The Crows Nest Pass Coal company has \$1,000,000 in property at Coal Creek, which is reported destroyed.

The disaster is unequalled in the history of western Canada. In that entire section of the country the railways and bridges are swept away.

Fernie Almost Wiped Out. Ten cottages, two coal offices, the Western Canada grocery and the coal company's new warehouse are all that remains of Fernie. Within fifteen minutes of the time the fire broke into the city the place was a mass of swirling flames.

As early as 2 o'clock Saturday afternoon the fire broke into the city. The first large building to catch fire, was burned. Houses in the immediate neighborhood soon caught and though the people turned out to fight the fire immediately, the flames spread rapidly and the whole place was soon on fire.

Old Town, where most of the miners resided, soon burned and then the business portion caught fire. The large residential portion came last, after the fine mill of the Elk River Lumber company has been destroyed. The West Fernie bridge across Elk river could not be saved.

Several people lost their lives in trying to escape over the burning bridges. The fire spread with such rapidity that hardly anything was saved. Numbers of people fled to the river banks and sought refuge by wading in the water; others ran to the Canadian Pacific tracks where special trains were waiting to convey the people to Michel, but this trip could not be made because the bridge it was to cross between Homer and Michel had burned out.

Harvesting Taken by Survivors. During the night the coal company's office was used as a distributing point for food. Saturday night was a frightful one of excitement and many heartrending scenes were witnessed. It was spent in getting many of the women and children on the trains and starting them for Cranbrook. During the night the wind went down and Sunday morning many of the men and their stout hearted wives came in from the hills to which they had flown, to view the smouldering remains of their city. Many harvesting tales were told. One woman of West Fernie had just emerged from her home which was on fire. She dropped dead of heart disease. The neighbors buried her in her garden and then ran for their lives. In another part of the city an aged woman, an invalid, was carried a short distance, but the heat became too great. She begged to be left to her fate and, her relatives wrapping her in wet blankets, fled towards the hills. She was burned to death. Besides the Elk mill, the Fernie and Cedar Valley companies places were burned. The Wood Nead people were successful in fighting the flames. Many miners of Fernie were up at Coal Creek on Saturday afternoon searching for the bodies of Frank Beaver and Hitchmough, who had been killed in the accident of last Friday morning. Beaver's body was brought to the surface, but the other could not be found. A painful surprise awaited the rescuers when they came down to Fernie for by that time the place was burned and the trains unable to move eastward.

A special from Michel says no one was injured at Homer where the magazine blew up. Several buildings were purposely dynamited Sunday afternoon in order to save the machine shops from fire.

Camp of Ninety is Destroyed. CHICAGO, Aug. 3.—E. A. Stees of Caron,

who has extensive interests there and at Fernie, is in this city today and declared that he had received information from Winnipeg to the effect that ninety lumbermen employed by the Elk Lumber company of Fernie had lost their lives.

Mr. Stees said that Peter J. Seippel of Dubuque, Ia., and H. D. Campbell of Stillwater, Minn., both of whom are actively interested in the lumber trade, were at Fernie with their families for the summer, and he believes that they must have lost their lives.

Mr. Stees declares that at the Eastern Branch, Columbia Lumber company, with which he is connected, lost its plant and about 50,000,000 feet of lumber at Fernie.

Story by Eye Witness. CRANBROOK, B. C., Aug. 3.—A witness of the fire at Fernie says: "The damage cannot fall short of \$5,000,000, the greater loss falling on the Canadian Pacific railroad and the Wood Lumber company. Fully \$5,000,000 feet of manufactured lumber is destroyed. The remains of what was once Fernie, consists of ten or eleven small cottages and five or six residences. Fernie is wiped off the map and is not, as it remains, of sufficient importance to justify the maintenance of a flag station. Some of the homeless people, mostly women and children, are being shipped to Cranbrook, where every public house and nearly all the private houses are being used as temporary shelters for the homeless, and in many cases naked refugees.

The relief committee organized by Mayor Frink has sent two trains filled with provisions to the stricken district."

STRIKE AFFECTS PAPER MILLS. Workmen Go Out Because Decreased Wage Schedule Is Announced.

BOSTON, Mass., Aug. 3.—Paper makers in the mills of the International Paper company in various places in New England are affected by an order issued Saturday by President J. F. Carey of the International Brotherhood of Paper Makers, calling for a strike today on account of a revised announcement of a decreased wage schedule. The fact, however, that some of the mills of the company have been closed for several weeks, while an order closing others goes into effect today, lessens the force of the strike order.

All of the mills of the company at Franklin and Berlin, N. H., and Bellows Falls, Vt., are closed. These mills today employ about 800 hands. At Rumford Falls, Livermore Falls and Webster, in Maine, where the strike order was also received, more than 1,200 men are affected.

WATERBURY, N. Y., Aug. 3.—Four mills of the International Paper company in the Waterbury division were shut down today. Four hundred paper makers are affected.

Board of Equalization Acts. The State Board of Equalization, very likely, will make the general fund levy this year 4 1/2 mills. Last year the levy was 5 mills. The assessment this year will be in the neighborhood of \$80,000,000, against \$75,000,000 last year. Until the board decides exactly what the assessment will be, it will not definitely settle the question of levy, but at this time 4 1/2 mills seem to be the figure. The 1 mill county levy and the 1 mill redemption levy is fixed by law.

The valuation of the state yet to be equalized is as follows:

Table with 2 columns: Item and Value. Railroad assessment \$4,300,473; Pullman company 117,500; Private car lines 141,200; Lumber 17,700,100; Lots 48,877,428; Personal 25,277,821.

Total 109,722,918. The railroad and car lines assessment has been equalized.

Shewan Calls at State House. Superintendent Sherman of the Boys' Industrial school at Kearney called at that state house today to say that the boys at the school are cultivating eighty acres of corn which will sell for 2 1/2 bushel for seed corn. The school is working in conjunction with the state farm, and it expects to seed corn with great care. The result, he said, is that the school has the best stand of corn in Nebraska. From forty acres of potatoes, Mr. Sherman said he expected to gather 4,000 bushels. The boys are also cultivating forty acres of sugar beets, which the experts have pronounced the finest in the state. Thirty acres have been planted in beans. Besides all this, the school sports nine base ball teams.

Creamery Dispute Settled. The railway commission has settled the dispute between the Beatrice Creamery company and the Pacific Express company by splitting the difference between the charge the express company desired to make for hauling cream and the rate the creamery desired to pay. The creamery

Anything that will help the R. R. Telegraph operator to keep a clear head and steady nerves is of interest to operators particularly and to the public generally.

As the matter of brain and nerve control in active work of this kind is great, it is important that the right kind of food be regularly used to repair the waste.

"I have used Grape-Nuts" writes a B. R. P. operator. "For the past six or eight years, daily, buying it by the dozen packages of the York bank run over \$150.000."

"A friend of mine, a doctor, who had been treating me for stomach trouble and nervous exhaustion, recommended me to leave off so much meat and use fruit and vegetables, with Grape-Nuts as the cereal part of each meal."

"I did so with fine results and have continued Grape-Nuts from that time to the present. I find in my work as a R. R. Telegrapher that I can do more work and far easier than I ever could on the old diet."

"To any man who is working his brain and who needs a cool, level head and quick action, I recommend Grape-Nuts for long experience." "There's a Reason."
