(From a Staff Correspondent.) LINCOLN, Aug. 4-(Special.)-Attorney Golden of O'Seill was among a large number of protostants before the State Board of Equalization today, objecting to any increase in the value of real estate contemplated by the board.

Mr. Golden produced figures to show that the land in Holt county, or about 70 per cent of it, had been assessed too high and possibly B per cent too low. He told and the county leaders. Doctaton Much Discussed.

The decision of Secretary of State Junkin that democrats could go on the populist electoral ticket as populists has caused a whole lot of talk around the state house and hotel lobbies. At the hearing the strong point played up by Tom Allen a array of legal talent was that the peoples' dependent party had no existence outside of Nebraska.

"If that claim is true," said a man at the state house today, "what right has the party to be selecting electoral candidates. If the party has no national existence it City, In.] sertainly has no right to have any electors

IRRIGATION CONGRESS CALL

Albuquerque Meeting Will Derive Strength from White House Conference of Governors.

The official call is out for the sixteenth session of the National Irrigation congress to be held in Albuquerque, N. M., September 29 to October 3, inclusive. Considerable added interest attaches to this meeting, owing, no doubt, to the widespread interest aroused by the recent conference governors at the White House, called by President Roosevelt to discuss ways and means to husband the natural resources of the country. The congress will discuss the conservation of the forests and streams and the reciamation and irrigation of the

arid and semi-arid land of the west. The hushanding of all the natural resources of the country will also be discussed. The delegates will include fifteen appointed by the governor of each state and territory. ten by each mayor of cities of over 35.000 five by mayors of cities of less than 35.000 people, five by each board of county commissioners, five by each state organization having as its object the advancement of the public weifare of the state, five from each state forestry, irrigation, agricultural or horticultoral society and others. The four great objects of the congress

as set forth in the call are "save the forests, store the floods, reciaim the deserts and make homes on the land."
